NOTE 1 – DESCRIPTION OF PLAN

The following description of the Scientific Certification Systems, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Scientific Certification, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company is the plan sponsor and serves as the Plan administrator.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing three months of service. Entry into the Plan will occur immediately upon satisfaction of the minimum age requirement and service requirements. Employees that are part of a collective bargaining agreement (union) cannot participate in the plan. Employees that are nonresident aliens, part time, temporary and seasonal employees whose regularly scheduled service is less than 1,000 hours also cannot participant in the Plan. Participants are eligible for discretionary nonelective contributions, if the participant is employed on the last day of the Plan year and if the participant completed at least 1,000 hours of service during the Plan year.

Contributions

Participant contributions – Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Upon reaching the age of 50, participants may elect to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and discretionary nonelective contributions – The Company has both a discretionary employer match contribution and a discretionary nonelective contribution. The discretionary employer matching contribution is 50% of participant elective contributions per payroll period. Participants are eligible for the discretionary employer match contribution upon meeting the eligibility requirements for participation and after completing three months of service. The Company's discretionary employer match contributions totaled $458,768 for the year ended December 31, 2017. The discretionary nonelective contribution amount is at the sole discretion of the Company. There were no discretionary nonelective contributions for the year ended December 31, 2017.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, contract terms, or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals plus actual earnings thereon. The Company's employer match and discretionary nonelective contributions and earnings thereon are vested in accordance with the following schedule.

Years of Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants – A participant may borrow a minimum of $1,000 and up to 50% of their vested account, but not in excess of $50,000. A participant may have two loans outstanding at any time. Loans are secured by the balance of the participant's account and bear a fixed rate of interest, defined as Prime plus 1%, as determined by the Plan administrator. The maximum loan term is five years, unless the loan is for the purchase of a home, in which case a longer term may be permitted. Principal and interest are paid ratably through payroll deductions. As of December 31, 2017, the rate of interest on outstanding loans ranged from 4.25% to 5.25%, with various maturities through June 2022.

Payment of benefit – On termination of service due to death, disability, or retirement, or otherwise becoming eligible to receive benefits, a participant may elect to receive either a lump-sum amount or an annuity equal to the value of the participant's account balance. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows in-service withdrawals for participants who have attained age 59 ½, participants that have incurred a financial hardship, and for participants who have incurred a disability. Terminated participants less than 62 years old with a vested account balance of $5,000 or less receive a mandatory distribution. Terminated participants age 62 or greater with a vested account balance of $1.000 or less receive a mandatory rollover distribution. Effective August 2017, the Plan Sponsor signed an automatic rollover service agreement with Millennium Trust Company, to establish individual retirement accounts (IRA) for each former Plan participant, of any age, required to receive a mandatory distribution who did not inform the Plan Sponsor their elections on how to receive the mandatory distribution.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the Plan. Allocations of forfeitures are applied subsequent to year end and may be used to pay plan administrative expenses and to reduce employer and/or matching contributions. As of December 31, 2017 and 2016, forfeited nonvested accounts totaled $11,223 and $10,328. Forfeitures of $7,338 were used to reduce Company contributions during 2017.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – Investments are reported at fair value. The Plan's trustee, Reliance Trust Company, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan.

Expenses – Administrative expenses related to operating and maintaining the Plan are paid by the Company. Certain transaction fees are paid by participants in the Plan.

Payments of benefits – Benefits are recorded when paid.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through July 20, 2018, which is the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies (RIC): Valued at the daily closing price as reported by the fund. RIC funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The RIC funds held by the Plan are deemed to be actively traded.

Collective trust (CT): Units held in collective trusts are valued using the NAV practical expedient of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The JP Morgan Stable Asset Income Fund is a CT. All contracts held by the fund are benefit responsive.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2017 and 2016:

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of participant-directed investments, interest and dividends, and interest income from notes receivable from participants reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 5 – TAX STATUS

The Plan is a volume submitter profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risk. It is reasonably possible that given the level of risk associated with investment securities, changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of registered investment company funds managed by or held by JP Morgan, the custodian of the Plan, and therefore transactions with this entity qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
