NEUWAVE MEDICAL, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2017 (Audited) and 2016 (Compiled) and for the Year Ended December 31, 2017

NOTE 1 - Description of the Plan

The following description of the NeuWave Medical, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by NeuWave Medical, Inc. (the "company") and is subject to the provisions of the ERISA as amended. All regular employees of the company (excluding leased employees, collective bargaining employees, and non-resident aliens), who were at least twenty-one years of age, became eligible to participate after completion of 250 hours of service within three months. Upon meeting eligibility conditions, employees entered the Plan on the first day of the coinciding with or following month. Upon enrollment in the Plan, a participant was able to direct employer and employee contributions to any combination of investment options.

Contributions

In anticipation of the plan's termination, effective January 1, 2017, the plan was frozen to any new contributions (see Note 10).

Participant Accounts

Each participant's account was credited with the participant's salary reduction contributions, rollover contributions and an allocation of the company's contributions and plan earnings (net of administrative expenses). Allocations were based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options

Participants directed the investment of all participant and employer contributions into various investment options offered by the Plan. The Plan offered mutual funds and common collective trusts.

Strategies for Investments Valued Using Net Asset Value

flexPATH Index funds - Each flexPATH fund seeks to provide long-term investors with an asset allocation strategy designed to maximize assets for retirement consistent with the risk level and projected retirement date associated with each fund. Each fund is designed to automatically adjust its risk over time in order to reduce the risk of investment in equity securities and shift from a focus on capital appreciation to one of capital preservation, while maintaining some exposure to capital appreciation asset classes.

MetLife Stable Value Solutions Fund - The investment strategy employed for this product seeks to achieve consistent returns to support a competitive credited rate. The fund invests solely in a guaranteed separate account contract issued by an insurance company.

Vesting

Participants were immediately vested in all contributions plus earnings thereon. Participants who left the Plan because of death or disability retirement, as defined in the Plan, were considered 100% vested.

NEUWAVE MEDICAL, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2017 (Audited) and 2016 (Compiled) and for the Year Ended December 31, 2017

NOTE 1 - Description of the Plan (cont.)

Payment of Benefits

Benefits were paid to the participant or beneficiary upon death, disability, retirement, minimum required distribution, or termination of employment, as defined in the Plan agreement. The total vested portion of a participant's account balance was distributed in the form of a lump sum payment or installments under several arrangements defined in the Plan agreement. Participants experiencing financial hardship could withdraw a portion of this account balance as defined in the Plan.

Forfeitures

As of December 31, 2017 and 2016, there were no forfeited non-vested accounts. These accounts could be used to pay plan administrative expenses, reduce future company contributions or reallocate as company contributions, as directed by the company. In 2017, there were no forfeited nonvested accounts used by the Plan.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans were secured by the balance in the participant's account. The loans bore interest at rates of 5.00%, which was commensurate with local prevailing rates. Principal and interest were paid ratably through payroll deductions.

Termination of Plan

The company had the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts. See Note 10.

Administrative Expenses

The company or the Plan paid costs incurred in the administration of the Plan. Expenses attributable to a particular participant related to an optional plan feature, as defined by the Plan, were charged directly to each participant's account.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2017 (Audited) and 2016 (Compiled) and for the Year Ended December 31, 2017

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

The net realized gain on the sale of investments included in the accompanying Statement of Changes in Net Assets Available for Benefits represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

The plan invested in mutual funds that were valued at fair value using quoted market prices. The plan also invested in collective trust funds that determine their fair value using the net asset value (NAV) of the funds. The NAV was determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis and dividends were recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds were deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefits were recorded when paid.

NOTE 3 - Information Certified by Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus Financial, N.A., the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.

NOTE 4 - Fair Value Measurements

The plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2017 (Audited) and 2016 (Compiled) and for the Year Ended December 31, 2017

NOTE 4 - Fair Value Measurements (cont.)

The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- > quoted prices for similar assets or liabilities in active markets;
- > quoted prices for identical or similar assets or liabilities in inactive markets;
- > inputs other than quoted prices that are observable for the asset or liability;
- > inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the daily closing price as reported on the active market on which the individual securities are traded.

Collective Trust Funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust funds, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The plan sponsor is responsible for the determination of fair value and has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 3,828,563	\$ 3,828,563	\$ -	\$ -

Investments at Fair Value	<u>\$ 5,318,370</u>			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The table below sets forth additional disclosures for the fair value measurements of investments in certain entities that calculate net asset value per share (or its equivalent).

Investment Type	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Funds	\$ 1,489,807	\$ -	Daily	Daily

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

NOTE 6 - Related Party and Party-In-Interest Transactions

Fees paid for certain professional services rendered by parties-in-interest were based on customary and reasonable rates for such services. Fees paid by the Plan for investment management services with the trustee were netted against investment income and were party-in-interest transactions

Certain administrative functions of the Plan were performed by officers or employees of the company. No such officer or employee received compensation from the Plan.

NOTE 7 - Concentrations

The Plan held certain investments that represented 10% or more of the Plan's net assets available for benefits. As of December 31, 2016, the Plan held one such investment totaling \$730,971.

NOTE 8 - Tax Status

The prototype plan on which the Plan was based received a favorable determination letter, indicating that the prototype plan was designed in accordance with the applicable sections of the Internal Revenue Code (IRC), dated March 31, 2014. The Plan administrator believes that the Plan, as amended, was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Participants in the Plan were not subject to income taxes on salary reduction contributions or earnings thereon until they received distributions from the Plan.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2017, there were no uncertain positions taken or expected to be taken. The Plan recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - Subsequent Events

The Plan has evaluated subsequent events through July 25, 2018, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

NOTE 10 - Plan Merger

Effective October 13, 2017, the Plan merged into the Johnson and Johnson 401(k) Savings Plan. As part of this merger, the Plan's remaining investments were transferred into the Johnson and Johnson 401(k) Savings Plan.

Although the merger was effective on October 13, 2017, due to administrative reasons, the Plan had minimal assets within the Plan until December 12, 2017, when the final transfer was made. This activity has been included in the total transfer of investments amount of \$5,339,205 in accompanying 2017 financial statements.
