Note 1 - Description of the Plan and Significant Accounting Policies

The following description of the Brown Strauss, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established July 1, 1985. The Plan is available to employees of Blue Tee Corp. and Brown Strauss Inc. (collectively, the "Companies") who have completed 12 months of continuous service with at least 1,000 service hours during their first 12 months of service or in any later Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Retirement Committee controls and manages the operation and administration of the Plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal") serves as trustee, manages Plan assets, and maintains the Plan's records. Principal offers Plan participants a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accounts of the Plan are maintained on the modified cash basis of cash receipts and disbursements as permitted by the Department of Labor Rules and Regulations and Disclosure under ERISA. This basis is not in accordance with accounting principles generally accepted in the United States of America. Under this basis of accounting, the Plan's investments are recorded at their estimated fair values, except for the fully benefit-responsive investment contract ("Guaranteed Investment Account"), which is reported at contract value, while interest, dividends, contributions, benefits paid, and administrative expenses are recorded at the time of cash payment or receipt, except in cases of Internal Revenue Code ("IRC") limitations. Receivables are not recorded under the modified cash basis of accounting other than participant notes receivable.

The preparation of financial statements - modified cash basis in conformity with the modified cash basis of accounting may require management to make estimates and assumptions. These estimates and assumptions may affect the reported amounts of assets and liabilities and, if applicable, disclosure of contingent assets and liabilities at the date of the financial statements - modified cash basis and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Contributions

Contributions to the Plan include (i) salary reduction contributions authorized by participants; (ii) safe harbor matching contributions made by the Companies, as defined in the Plan document; and (iii) participant rollovers from other plans. Participants aged 50 and above may contribute additional amounts representing catch-up contributions allowed under the IRS. Employee contributions to the Plan are made through regular payroll deductions. Employees are eligible to contribute, on either a pre-tax or an after-tax basis through payroll deductions, a percentage subject to an annual limit of the lessor of 100% of eligible compensation or the annual IRS limitations in a calendar year.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

The Plan includes an auto-enrollment feature, which allows for employees who have met eligibility requirements to be automatically enrolled at a 3% deferral rate unless designating another deferral rate, including 0%. Auto-enrolled participant contributions are invested in the applicable T. Rowe Price Retirement Fund, which has been designated as the Qualified Default Investment Alternative by the Plan. Effective January 1, 2017, the Plan was amended to include an auto-enrollment deferral increase of 1% each year thereafter until a deferral rate of 6% is met for participants who are auto-enrolled or until the participant selects another deferral rate.

The Companies match 100% of each participant's deferral amount to the Plan, up to a maximum of 6% of such participant's eligible compensation. Participants' may choose to have their contributions and the Companies' matching contributions invested entirely or in increments of 1% in the Guaranteed Investment Account or any of the other mutual funds offered by the Plan. A participant may elect to change their investment elections and to reallocate their account equity among the funds at any time. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain IRS limitations.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Companies' contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are vested immediately in their contributions and allocated earnings or losses thereon. In addition, each participant will have a non-forfeitable interest in the value of matching contributions when made by the Companies and any earnings thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have a maximum of two loans outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 5.25% to 6.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through June 2032. Loans have a maximum term of five years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed twenty-five years from the date of the loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements - modified cash basis at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. If a participant ceases to make note repayments and the Plan administration deems the participant note to be a distribution, the participant note balance is reduced and the deemed distribution recorded. Loans in the amount of $80,134 were deemed a distribution in the current year and were recorded in benefits paid to participants in the statement of changes in net assets available for benefits - modified cash basis.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump-sum amount equal to the value of the participant's vested account balance or in various annuity options in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan into an individual retirement plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Companies.

Excess Contributions Payable and Forfeitures

The Plan is required to return contributions received during the Plan year in excess of the IRC limits. Such amounts required to be returned but not returned as of year-end are accounted for as excess contributions payable on the statements of net assets available for benefits - modified cash basis. Amounts returned are netted against participant contributions on the statement of changes in net assets available for benefits - modified cash basis.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Excess Contributions Payable and Forfeitures (continued)

At December 31, 2017 and 2016, there were no forfeitures held in the Plan. Forfeitures during the year were a result of employer matching contributions and the corresponding interest due to the return of IRC Section 415 excess contributions. IRC Section 415 limits annual additions to qualified retirement plans to the lessor of 100% of gross compensation or $54,000. Annual additions consist of employee contributions, employer contributions, and forfeitures under all defined contribution plans. Forfeitures are to be used to reduce future employer contributions or pay Plan administrative expenses.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 4 for discussion of fair value measurements.

The Plan investments include the Principal Life Insurance Company Fixed Income Guaranteed Option. The investment is a fully benefit-responsive contract and is included on the statements of net assets available for benefits - modified cash basis at contract value. Contract value represents contributions made under the contract, plus a declared interest rate, less participant withdrawals and administrative expenses. Contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits - modified cash basis and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits - modified cash basis.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations (continued)

Additionally, some investments held by Principal are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, two investments accounted for 25% of investment income. At December 31, 2017 and 2016, one and one investment accounted for 47% and 58% of total investments, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements - modified cash basis were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements - modified cash basis.

Note 2 - Assets Certified by the Trustee

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements - modified cash basis and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements - modified cash basis and the supplemental schedule of assets (held at end of year).

Note 3 - Investment Contracts with Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal. Principal maintains the contributions in a general account. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 3 - Investment Contracts with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract does not charge any redemption fees, early withdrawal fees, or market value adjustments on participant transfers in or out. An employer level liquidation or employer initiated transfer will be subject to either a 12-month advance notice or a 5% surrender charge, whichever the employer chooses. A 5% surrender charge will also apply if the cumulative percentage of participant transfers from the investment exceeds 20% of the Plan's interest in the contract during the 12 months period immediately preceding an employer level surrender.

Note 4 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 28,997,419	$ -	$ -	$ 28,997,419

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 21,477,420	$ -	$ -	$ 21,477,420

The valuation technique used to measure fair value of the mutual funds is based upon the quoted market prices at the last reported sales price.

There were no changes to the valuation techniques used during the period.

Note 5 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document on March 31, 2014. Plan management believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

At December 31, 2017, $279,248 was accrued for corrective distributions to be made in order to comply with non-discrimination testing.

Note 6 - Administration of the Plan

The Companies provide, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pay the cost of certain outside services for the Plan. The Plan has a revenue-sharing arrangement used to pay some Plan expenses. For the year ended December 31, 2017, 0.43% of investment revenue was retained to pay the investment provider and the recordkeeper.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a Guaranteed Investment Account, which are managed by Principal. Principal is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 9 - Reconciliation to Form 5500

Contributions, distributions, and distributions payable, for financial reporting purposes, differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of corrective distributions.
