Investment Committee
Textron Inc. Retirement Account Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Textron Inc. Retirement Account Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2017 and 2016, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Textron Inc. Retirement Account Plan
Notes to Financial Statements
December 31, 2017

1. Description of Plan

The following description of the Textron Inc. Retirement Account Plan (the Plan or the RAP) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Textron Inc. (the Company) adopted the Plan on January 1, 2007. The Plan is intended to be a profit-sharing plan under Section 401(a) of the Internal Revenue Code (the Code). In addition, the Plan is part of the Textron Retirement Program (TRP). The TRP incorporates both the RAP and the floor offset portion of the Textron Master Retirement Plan and the Bell Helicopter Textron Master Retirement Plan (the Floor Offset). Under the TRP, the Floor Offset establishes a minimum benefit amount for each participant and is determined with reference to the participant's account balance in the RAP. The benefit is payable first from the participant's vested account balance in the RAP and then, to the extent necessary, from the Floor Offset. A participant is entitled to his or her entire vested account balance if the account balance is greater than the minimum benefit amount calculated.

Eligibility

Prior to January 1, 2010, all employees who participated in the Floor Offset immediately became participants in the Plan. Beginning on January 1, 2010, the Floor Offset arrangement was closed to new participants. This change does not impact employees or retirees currently in the Plan.

Contributions

The Company contributes to the Plan an amount equal to 2% of eligible compensation for each payroll period for each eligible participant. All contributions are invested at the discretion of the plan sponsor. Forfeitures of unvested balances are used to reduce future Textron contributions. At December 31, 2017 and 2016, forfeitures totaled \$8,717 and \$4,298, respectively. Forfeitures used during the years ended December 31, 2017 and 2016 to offset the Company match were \$2,699 and \$4,892,816, respectively.

1. Description of Plan (continued)

Vesting

The Company's contributions vest based on the length of service in the Plan is as follows:

Months of Service	Vested Percentage
Less than 36 months	0%
36 months or more	100%

Participant Accounts

Each participant's account is credited with contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or on a per capita basis, as defined. Forfeited balances of terminated participants' non-vested accounts are first used to restore participants with a break in service and then are used to reduce future Company contributions. The participant is entitled to the benefit that can be provided from the participant's account.

Benefit Payments

Participants are eligible to withdraw their vested account balances upon termination of employment, reaching their normal or early retirement dates, disability, or death. The benefit payment is normally to be made in the form of a single life or 50% surviving spouse annuity. An account will be distributed in a single payment if the value of the account is less than \$5,000 when the account first becomes distributable. If the value of the account is \$5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. However, current federal law requires the Plan to begin to distribute accounts by April 1 of the year following the year in which the participant reaches age 70½.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as, held during the year.

Administrative Expenses

Administrative expenses are generally paid by the Plan and are allocated to participant accounts on a pro rata or per capita basis, depending on the type of expense. All other administrative expenses of the plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through July 27, 2018, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of common collective trust funds, mutual funds, interest and dividends for the years then ended, was obtained or derived from information provided to the plan

administrator and certified as complete and accurate by the trustee, Fidelity Management Trust Company.

4. Fair Value Measurements

In accordance with the provisions of ASC 820, *Fair Value Measurement*, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the inputs) are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect the Company's estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances. Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies, such as the market approach, the income approach, or the cost approach, and may use unobservable inputs, such as projections, estimates, and management's interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain. There were no transfers between Levels 1, 2, and 3 in 2017 or 2016.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety. The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2017 and 2016:

December 31, 2017				Not Subject to Leveling
	Level 1	Level 2	Level 3	
Common Collective Trust Funds				
Blended Debt and Equity	—	—	—	23,634,437
Domestic Equity	—	—	—	95,604,588
International Equity	—	—	—	47,933,814
Debt Securities	—	—	—	69,415,328
Total assets	\$ —	\$ —	\$ —	\$ 236,588,167

December 31, 2016				Not Subject to Leveling
	Level 1	Level 2	Level 3	
Mutual funds	\$ 206,498,717	\$ —	\$ —	\$ —
Total assets	\$ 206,498,717	\$ —	\$ —	\$ —

Mutual funds consist of groups of investments, which may include equity securities, debt securities, or other mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The collective trusts are not quoted in an active market. The fair value of these investments has been estimated using the net asset value per share.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. The investment funds provide daily liquidity.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds investments managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 19, 2014, stating that the Plan is qualified under Section 401(a) of the Code and; therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Textron Inc. Retirement Account Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2017 and 2016, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Textron Inc. Retirement Account Plan
Notes to Financial Statements
December 31, 2017

1. Description of Plan

The following description of the Textron Inc. Retirement Account Plan (the Plan or the RAP) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Textron Inc. (the Company) adopted the Plan on January 1, 2007. The Plan is intended to be a profit-sharing plan under Section 401(a) of the Internal Revenue Code (the Code). In addition, the Plan is part of the Textron Retirement Program (TRP). The TRP incorporates both the RAP and the floor offset portion of the Textron Master Retirement Plan and the Bell Helicopter Textron Master Retirement Plan (the Floor Offset). Under the TRP, the Floor Offset establishes a minimum benefit amount for each participant and is determined with reference to the participant's account balance in the RAP. The benefit is payable first from the participant's vested account balance in the RAP and then, to the extent necessary, from the Floor Offset. A participant is entitled to his or her entire vested account balance if the account balance is greater than the minimum benefit amount calculated.

Eligibility

Prior to January 1, 2010, all employees who participated in the Floor Offset immediately became participants in the Plan. Beginning on January 1, 2010, the Floor Offset arrangement was closed to new participants. This change does not impact employees or retirees currently in the Plan.

Contributions

The Company contributes to the Plan an amount equal to 2% of eligible compensation for each payroll period for each eligible participant. All contributions are invested at the discretion of the plan sponsor. Forfeitures of unvested balances are used to reduce future Textron contributions. At December 31, 2017 and 2016, forfeitures totaled \$8,717 and \$4,298, respectively. Forfeitures used during the years ended December 31, 2017 and 2016 to offset the Company match were \$2,699 and \$4,892,816, respectively.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Vesting

The Company's contributions vest based on the length of service in the Plan is as follows:

Months of Service	Vested Percentage
Less than 36 months	0%
36 months or more	100%

Participant Accounts

Each participant's account is credited with contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or on a per capita basis, as defined. Forfeited balances of terminated participants' non-vested accounts are first used to restore participants with a break in service and then are used to reduce future Company contributions. The participant is entitled to the benefit that can be provided from the participant's account.

Benefit Payments

Participants are eligible to withdraw their vested account balances upon termination of employment, reaching their normal or early retirement dates, disability, or death. The benefit payment is normally to be made in the form of a single life or 50% surviving spouse annuity. An account will be distributed in a single payment if the value of the account is less than \$5,000 when the account first becomes distributable. If the value of the account is \$5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. However, current federal law requires the Plan to begin to distribute accounts by April 1 of the year following the year in which the participant reaches age 70½.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as, held during the year.

Administrative Expenses

Administrative expenses are generally paid by the Plan and are allocated to participant accounts on a pro rata or per capita basis, depending on the type of expense. All other administrative expenses of the plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through July 27, 2018, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of common collective trust funds, mutual funds, interest and dividends for the years then ended, was obtained or derived from information provided to the plan

administrator and certified as complete and accurate by the trustee, Fidelity Management Trust Company.

4. Fair Value Measurements

In accordance with the provisions of ASC 820, *Fair Value Measurement*, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the inputs) are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect the Company's estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances. Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies, such as the market approach, the income approach, or the cost approach, and may use unobservable inputs, such as projections, estimates, and management's interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain. There were no transfers between Levels 1, 2, and 3 in 2017 or 2016.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety. The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2017 and 2016:

December 31, 2017				Not Subject to Leveling
	Level 1	Level 2	Level 3	
Common Collective Trust Funds				
Blended Debt and Equity	—	—	—	23,634,437
Domestic Equity	—	—	—	95,604,588
International Equity	—	—	—	47,933,814
Debt Securities	—	—	—	69,415,328
Total assets	\$ —	\$ —	\$ —	\$ 236,588,167

December 31, 2016				Not Subject to Leveling
	Level 1	Level 2	Level 3	
Mutual funds	\$ 206,498,717	\$ —	\$ —	\$ —
Total assets	\$ 206,498,717	\$ —	\$ —	\$ —

Mutual funds consist of groups of investments, which may include equity securities, debt securities, or other mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The collective trusts are not quoted in an active market. The fair value of these investments has been estimated using the net asset value per share.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. The investment funds provide daily liquidity.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds investments managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 19, 2014, stating that the Plan is qualified under Section 401(a) of the Code and; therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Textron Inc. Retirement Account Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2017 and 2016, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Textron Inc. Retirement Account Plan
Notes to Financial Statements
December 31, 2017

1. Description of Plan

The following description of the Textron Inc. Retirement Account Plan (the Plan or the RAP) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Textron Inc. (the Company) adopted the Plan on January 1, 2007. The Plan is intended to be a profit-sharing plan under Section 401(a) of the Internal Revenue Code (the Code). In addition, the Plan is part of the Textron Retirement Program (TRP). The TRP incorporates both the RAP and the floor offset portion of the Textron Master Retirement Plan and the Bell Helicopter Textron Master Retirement Plan (the Floor Offset). Under the TRP, the Floor Offset establishes a minimum benefit amount for each participant and is determined with reference to the participant's account balance in the RAP. The benefit is payable first from the participant's vested account balance in the RAP and then, to the extent necessary, from the Floor Offset. A participant is entitled to his or her entire vested account balance if the account balance is greater than the minimum benefit amount calculated.

Eligibility

Prior to January 1, 2010, all employees who participated in the Floor Offset immediately became participants in the Plan. Beginning on January 1, 2010, the Floor Offset arrangement was closed to new participants. This change does not impact employees or retirees currently in the Plan.

Contributions

The Company contributes to the Plan an amount equal to 2% of eligible compensation for each payroll period for each eligible participant. All contributions are invested at the discretion of the plan sponsor. Forfeitures of unvested balances are used to reduce future Textron contributions. At December 31, 2017 and 2016, forfeitures totaled \$8,717 and \$4,298, respectively. Forfeitures used during the years ended December 31, 2017 and 2016 to offset the Company match were \$2,699 and \$4,892,816, respectively.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Vesting

The Company's contributions vest based on the length of service in the Plan is as follows:

Months of Service	Vested Percentage
Less than 36 months	0%
36 months or more	100%

Participant Accounts

Each participant's account is credited with contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or on a per capita basis, as defined. Forfeited balances of terminated participants' non-vested accounts are first used to restore participants with a break in service and then are used to reduce future Company contributions. The participant is entitled to the benefit that can be provided from the participant's account.

Benefit Payments

Participants are eligible to withdraw their vested account balances upon termination of employment, reaching their normal or early retirement dates, disability, or death. The benefit payment is normally to be made in the form of a single life or 50% surviving spouse annuity. An account will be distributed in a single payment if the value of the account is less than \$5,000 when the account first becomes distributable. If the value of the account is \$5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. However, current federal law requires the Plan to begin to distribute accounts by April 1 of the year following the year in which the participant reaches age 70½.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as, held during the year.

Administrative Expenses

Administrative expenses are generally paid by the Plan and are allocated to participant accounts on a pro rata or per capita basis, depending on the type of expense. All other administrative expenses of the plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through July 27, 2018, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of common collective trust funds, mutual funds, interest and dividends for the years then ended, was obtained or derived from information provided to the plan

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

3. Investments(continued)

administrator and certified as complete and accurate by the trustee, Fidelity Management Trust Company.

4. Fair Value Measurements

In accordance with the provisions of ASC 820, *Fair Value Measurement*, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the inputs) are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect the Company's estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances. Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies, such as the market approach, the income approach, or the cost approach, and may use unobservable inputs, such as projections, estimates, and management's interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain. There were no transfers between Levels 1, 2, and 3 in 2017 or 2016.

Textron Inc. Retirement Account Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety. The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2017 and 2016:

December 31, 2017				Not Subject to Leveling
	Level 1	Level 2	Level 3

Mutual funds consist of groups of investments, which may include equity securities, debt securities, or other mutual funds. The underlying investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The collective trusts are not quoted in an active market. The fair value of these investments has been estimated using the net asset value per share.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. The investment funds provide daily liquidity.

4. Fair Value Measurements (continued)

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related-Party Transactions

The Plan holds investments managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 19, 2014, stating that the Plan is qualified under Section 401(a) of the Code and; therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code, and therefore believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
