Report of Independent Auditors

Textron Inc.
Plan Sponsor
Textron Automotive Functional Components
CWC Division, a Division of Textron Inc.
Hourly-Rated Employees' Pension Plan

We have audited the accompanying financial statements of Textron Automotive Functional Components CWC Division, a Division of Textron Inc. Hourly-Rated Employees' Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Textron Automotive Functional Components CWC Division, a Division of Textron Inc. Hourly-Rated Employees' Pension Plan at December 31, 2017, and the changes in its net assets available for benefits for the year then ended, and the financial status of Textron Automotive Functional Components CWC Division, a Division of Textron Inc. Hourly-Rated Employees' Pension Plan at December 31, 2016, and the changes in its financial status for the year then ended, in conformity with U.S. generally accepted accounting principles.

Hourly-Rated Employees' Pension Plan

Notes to Financial Statements

December 31, 2017

1. Description of the Plan

The Textron Automotive Functional Components CWC Division, a Division of Textron Inc. Hourly-Rated Employees' Pension Plan (the Plan) is a noncontributory defined benefit pension plan covering all eligible hourly employees represented by Local No. 539 of the International Union, UAW, Aerospace and Agricultural Implement Workers of America at Textron Inc.'s CWC division in Muskegon, Michigan, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). For a description of the Plan, refer to the Plan document, which is available at the human resources office of Textron Inc. (Textron).

Beginning on April 10, 2011, the Plan was closed to new participants. This change does not impact employees or retirees currently in the Plan.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Benefit Payments

Benefit payments to participants are recorded when paid.

2. Significant Accounting Policies

Valuation of Investments

The Plan's investments and those investments held in the Textron Master Trust (the Master Trust) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

Investments in public securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year. Public fixed income securities are also priced in this manner, assuming the bonds trade on the last business day. However, if the bond does not trade, the price is determined by third-party pricing services which consider such factors as reported prices and extent of trading activity in similar investments, quality ratings, maturity date, call provisions, and other factors in determining fair value.

2. Significant Accounting Policies (continued)

Commingled trust funds are valued at the net asset value established by the trustee of the commingled fund, which is generally based on the fair value of the underlying assets. There are no redemption restrictions on these investments.

Private security (limited partnerships) valuations are provided on a quarterly basis by the investment managers, general partners, or external valuation services to the Trustee. These valuations take into consideration factors such as investment type, reported prices, extent of trading activity in similar investments, company fundamentals, quality ratings, maturity date, call provisions, and changes in economic conditions relating to the investment. During the period between the date of the valuation and the pricing date cash flows are reported to and updated by the Trustee.

Valuations of direct real estate investments are estimated by the Plan's external real estate manager, Core and Value Advisors LLC, on an annual basis and at least once every three years by a qualified third-party appraiser. Factors such as real estate type, market conditions, property performance, valuation of comparable properties, and consultations with external real estate advisors are considered in determining fair value.

Hedge fund investment funds invest in a portfolio of funds that are not publicly traded and are managed by various portfolio managers. They are valued on the basis of the most recent price or valuation provided by the fund manager. The hedge fund investments can be redeemed quarterly with advance notice. There were no restrictions on redeeming the investments at December 31, 2017, although the hedge fund manager could restrict redemptions in the future.

Income Recognition

Purchases and sales of securities are recorded on the trade date. Gains and losses on the sale of investments are determined based on the average cost of the investment.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 9) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on a

2. Significant Accounting Policies (continued)

formula, as defined in the Plan documents, and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The accumulated plan benefit information is presented at the beginning of each Plan year.

The interest rate used to determine accumulated plan benefits is adjusted to reflect administrative expenses paid by the Plan.

Administrative Expenses

Administrative expenses consist of investment advisor fees, actuarial fees, custodial fees, Pension Benefit Guaranty Corporation (PBGC) premiums, consulting fees, legal fees, auditing fees, and other professional services fees. During 2017 and 2016, Textron paid a portion of these fees on behalf of the Plan in accordance with the Plan document.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued ASU 2017-06, *Employee Benefit Plan Master Trust Reporting*. For each master trust in which a plan holds an interest, ASU 2017-06 requires a plan's interest in that master trust and any change in that interest to be presented in separate line items on the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Further, ASU 2017-06 removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of the master trust's general type of investments, which supplements the existing requirements to disclose the master trust's balances in each general type of investments. ASU 2017-06 also requires plans to disclose (1) their master trust's other asset and liability balances and (2) the dollar amount of the plan's interest in each of those balances. The standard is effective for fiscal periods beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has not elected to adopt the standard early.

Subsequent Events

Management evaluated subsequent events for the Plan through July 27, 2018, the date the financial statements were available to be issued.

3. Funding Policy

Textron contributes amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax law, plus such additional amounts, if any, as we may determine in our sole discretion to be appropriate. The Plan has met the ERISA minimum funding requirements for 2017 and 2016.

4. Plan Termination

Should the Plan terminate at some future time, its net assets may generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all. Information about the PBGC's benefit guarantee is available in the Summary Plan Description, which is available at the personnel office of Textron.

5. Investment in the Textron Master Trust Fund

The investments of the Plan are held in the Master Trust, which also holds the assets of other Textron-sponsored pension plans. The Plan is administered under the terms of a Master Trust Agreement, dated March 1, 2011, with BNY Mellon. Investment income and changes in unrealized gain or loss on investments of the Master Trust are allocated monthly among the participating plans in proportion to the adjusted market value of the Master Trust attributable to each plan, as determined by BNY Mellon. The adjusted market value is calculated by adding to the market value at the end of the previous period the contributions and income received for each plan during the period and subtracting benefit payments and expenses for each plan during the period. On this basis, 1.23% and 1.27% of the Master Trust's net assets were attributed to the Plan as of December 31, 2017 and 2016, respectively.

Fair market value for each type of investment is determined as discussed in Note 6, Fair Value Measurements.

5. Investment in the Textron Master Trust Fund (continued)

The net assets of the Master Trust at December 31 are as follows:

	2017	2016
Investments in securities:		
Common stock	**$ 1,821,307,427**	$ 1,871,929,713
Exchange traded funds	**501,485,726**	224,947,027

	$ 7,163,901,778	$ 6,270,646,655

The investments of the Master Trust (including investments bought, sold, and held during the year) appreciated by $802,165,025 in 2017 and appreciated by $454,999,467 in 2016. During 2017 and 2016, interest and dividend income earned by the Master Trust was $132,416,474 and $124,390,525 respectively. Other income for 2017 and 2016 was $51,653,614 and $45,982,827 respectively.

Included in the net earnings of the Master Trust were the Plan's share of administrative expenses of $519,680 and $548,563 for 2017 and 2016, respectively.

Certain Master Trust investments require additional capital commitments. The callable commitments associated with real estate and private equity partnerships amounted to $65,895,223 and $457,728,159, respectively, at December 31, 2017.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurement, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (i.e., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

6. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets carried at fair value as of December 31, 2017.

Balance, end of year	$ 494,360,851

6. Fair Value Measurements (continued)

Valuation Methodologies Used for Assets Measured at Fair Value

Common stock, mutual funds, and exchange traded funds are traded and quoted on an open market and are valued at their quoted market price.

Short-term investment funds primarily consist of cash, which is swept nightly into an institutional equivalent of a money market fund, for which the cash earns interest. These investments are valued at their cost basis plus accrued interest. The accrued interest is an observable input, but is not quoted on an active market. Therefore, we have classified these assets as Level 2 measurements. Some short-term investment funds are valued using net asset value (NAV) as a practical expedient and, therefore, are not subject to leveling.

Government bonds include bonds issued by various government entities, such as FNMA, FHLMC, and the U.S. Treasury, as well as a small number of municipalities. Corporate bonds include debt issued by corporate entities. U.S. Treasury bonds are traded and quoted on an active market and are valued at their quoted market price. These investments are classified as Level 1. Government Agency bonds, Municipal bonds, and Corporate bonds are traded using brokers which make the market, and price the bonds using published historical transactions for similar securities and a matrix pricing model. These inputs are observable, although the investments are not quoted on an active market. Therefore, we have classified these assets as Level 2 measurements.

Common collective trusts, or commingled funds, are not quoted on an active market. The objective is to maintain a diversified portfolio of publicly traded securities which seek to achieve long term capital appreciation. These investments can generally be liquidated within several business days. Comingled funds are valued using NAV as a practical expedient and, therefore, are not subject to leveling.

Private investment partnerships represent interests in funds which invest in equity, debt and other financial assets. These funds are generally not publicly traded so the interests therein are valued using income and market methods that include cash flow projections and market multiples for various comparable investments. Real estate includes owned properties and limited partnership interests in real estate partnerships. Owned properties are valued using certified appraisals at least every three years that are updated at least annually by the real estate investment manager based on current market trends and other available information. These appraisals generally use the standard methods for valuing real estate, including forecasting income and identifying current transactions for comparable real estate to arrive at a fair value. Limited partnership interests in real estate partnerships are valued similarly to private investment partnerships, with the general partner using standard real estate valuation methods to value the real estate properties

6. Fair Value Measurements (continued)

and securities held within their portfolios. The Plan is generally unable to liquidate these investments during the term of the partnership or fund, which range from 10 to 15 years. Real estate partnerships and private investment partnerships are valued using NAV as a practical expedient and, therefore, are not subject to leveling within the fair value hierarchy.

Hedge funds represent an investment in a diversified fund of hedge funds of which Textron is the sole investor. The fund of hedge funds seeks to achieve long term capital appreciation and low volatility through investments in a portfolio of funds that are not publicly traded and are managed by various portfolio managers. Investments in portfolio funds are typically valued on the basis of the most recent price or valuation provided by the relevant fund's administrator. The administrator for the fund of hedge funds aggregates these valuations with the other assets and liabilities to calculate the NAV of the fund of hedge funds. These investments are valued using NAV as a practical expedient and, therefore, are not subject to leveling.

Derivatives in the Plan are primarily used to manage risk and gain asset class exposure while still maintaining liquidity. Derivative instruments consist of equity futures and currency forward contracts. At year-end 2017, the net notional amounts of equity futures and currency forwards were approximately $293 million and $386 million, respectively. At year-end 2016, the net notional amounts of equity futures and currency forwards were approximately $324 million and $238 million, respectively.

7. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 2, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore the related trust and Master Trust are exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Accumulated Plan Benefits

An actuary from Towers Watson estimates the actuarial present value of accumulated plan benefits for the Plan, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

9. Accumulated Plan Benefits (continued)

The accumulated plan benefit information, as of December 31, 2016, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$26,335,659
Other participants	5,658,034
Total vested benefits	31,993,693
Non-vested benefits	586,031
Total actuarial present value of accumulated plan benefits	$32,579,724

Changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2015	$ 33,303,622
Increase (decrease) during the year attributed to:	
Increase for interest due to the decrease in the discount period	2,467,901
Benefits accumulated	242,441
Actuarial gains	(29,888)
Benefits paid	(3,404,352)
Actuarial present value of accumulated plan benefits at December 31, 2016	$ 32,579,724

Significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.75% for 2016 valuation.
Mortality	RP-2014 "Employees" tables for non-annuitants and the RP-2014 "Healthy Annuitants" tables for annuitants with a one-year age set-forward for all participants, projected generationally using Scale MP-2014 adjusted to a 0.75% long-term rate and a convergence period ending in 2020.

9. Accumulated Plan Benefits (continued)

Retirement	Weighted-average age of 63

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated benefit as of January 1, 2017 and 2016. There have been no significant changes to the Plan that would have changed the valuation had they been performed as of December 31, 2016 and 2015.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Textron Inc.
EIN/PN	05-0315468/020
Plan Name	CWC Castings Division of Textron Inc. Hourly-Rated Employees' Pension Plan
Valuation Date	January 1, 2017
Enrolled Actuary	Joseph A Grondin
Enrollment Number	17-06662

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2017

See Appendix A for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Schedule SB, Part V
Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month — September
- Interest rate basis — 3-Segment Rates

Interest rates:

	Reflecting Corridors	Not Reflecting Corridors
First segment rate	4.16%	1.52%
Second segment rate	5.72%	3.80%
Third segment rate	6.48%	4.79%
Effective interest rate	5.81%	4.00%

Annual rates of increase

- Compensation — N/A
- Future Social Security wage bases — N/A
- Statutory limits on compensation — N/A

Administrative expenses — The amount included this year for plan-related expenses is $200,000.

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee is hired.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2032 using Scale AA*)* and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2024 using Scale AA).

Termination

Rates varying by age.

Representative Termination Rates

Attained Age	Percentage leaving during the year
Under 30	10.00
30-34	7.00
35-39	7.00
40-44	7.00
45-49	6.00
50-54	5.00
55 and over	0.00

Disability

None assumed.

Retirement

Rates varying by age, average age 63.

For the purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), retirements occur according to the following table, but if age is 55 or greater with 85 points, retirement is immediate; however, in no event later than age 65 with 10 years of service or 92 points.

Percentage retiring during the year			
Age	Rate %	Age	Rate %
55	3.0	63	20.0
56	3.0	64	15.0
57	3.0	65	25.0
58	3.0	66	20.0
59	3.0	67	20.0
60	6.0	68	20.0
61	6.0	69	20.0
62	25.0	70	100.0

Benefit commencement date:

- Preretirement death benefit — Upon death of a participant
- Deferred vested benefit — The later of age 55 or termination of employment
- Disability benefit — Upon disablement
- Retirement benefit — Upon termination of employment

Form of payment

Participants are assumed to elect the normal form

Percent married

80% of eligible participants. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

Wife two years younger than husband

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Textron regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Textron and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits in a single lump sum payment (with a present value of up to $10,000). Such lump sums are not explicitly valued as such; rather, such participant's benefits are valued using the benefit choice assumptions described above.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2011, with annual review for changes, if any, that could result in materially different rates in the future.
Retirement	Retirement rates were based on an experience study conducted in 2011, with annual review for changes, if any, that could result in materially different rates in the future.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. The age selected was based on an experience study conducted in 2011.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on general population statistics regarding marital status and historical election patterns.

SCHEDULE SB ATTACHMENTS

Percent married	The percentage of participants who are assumed to be married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed difference between spouses' ages is based on general population statistics for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.
Change in methods since prior valuation	None.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

Covered employees

All persons covered by the Collective Bargaining Agreement between CWC Castings Division of Textron and Local No. 539 of the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW).

Participation date

The plan was closed to new entrants effective April 10, 2011.

Definitions

Vesting service

An employee earns one year of vesting service for each calendar year of 1,000 or more hours of service, subject to a minimum of the pension service earned for that year.

Pension service

A participant earns one year of service toward benefit accrual if working or compensated for 1,700 (or more) hours per calendar year, reduced pro-rata to the nearest 1/10th year for less than 1,700 hours.

Hours of service

Such hours include all periods of time for which the Employee is paid or entitled to payment by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65 with five years of vesting service.

Monthly pension benefit

Monthly benefit is equal to the monthly benefit rate according to the schedule below per year of pension service.

Monthly Benefit Rate	Effective for Termination On or After
$25.50	July 1, 2004
27.00	July 1, 2005
27.75	July 1, 2006
28.50	July 1, 2007
33.50	April 1, 2008
36.50	April 10, 2011
39.50	June 1, 2014
40.00	June 1, 2015
40.50	June 1, 2016

Plan Name: CWC Castings Division of Textron Inc. Hourly-Rated Employees' Pension Plan
EIN / PN: 05-0315468/020
Plan Sponsor: Textron Inc.
Valuation Date January 1, 2017

SCHEDULE SB ATTACHMENTS

Supplemental allowance

A participant who retires prior to age 62 and has attained age 55 with 10 years of pension service, or age 55 with 85 points, or completed 30 years of pension service or is entitled to a disability pension and has less than 30 years of pension service shall receive a supplemental benefit. If the employee has at least 30 years of pension service, the monthly supplement is the amount necessary to increase the total monthly benefit to $1,500.

For employees retiring with less than 30 years of pension service, the monthly supplemental amount is the employee's pension service times the appropriate factor below:

Age	Factor
55	$3.50
56	4.30
57	5.10
58	5.90
59	6.70
60	7.50
61	7.50

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Age 55 and 10 years pension service or age 55 and 85 points or 30 years of pension service.

Vested termination

Termination for reasons other than death or retirement after completing 5 years of vesting service.

Disability

10 years of pension service and eligible for Social Security disability benefits.

Pre-retirement death

Upon the death of a participant after 5 years of vesting service.

SCHEDULE SB ATTACHMENTS

Benefits Paid Upon the Following Events

Normal retirement	Monthly benefit determined as of NRD
Early retirement	Accrued normal benefit, reduced according to the table in the plan for each month benefit commencement precedes age 62. For those employees retiring with 30 years of pension service, the benefit otherwise payable after age 62 is redetermined on the basis of the formula for normal retirement as in effect on the date of retirement, without reduction for early retirement.
Disablement	Accrued normal benefit payable until the earlier of age 62 or recovery from disability. The disability benefit will be reduced for payments received under Workers' Compensation or any local state, or Federal laws (other than Social Security) for which premiums were paid by the Employer.
Vested termination	Accrued normal benefit is payable in full at age 65, or reduced for early commencement between the ages of 55 and 65, at the rate of 6/10% per month of commencement before age 65.
Pre-retirement death	The surviving spouse shall receive a 55% survivor benefit computed as if the participant had terminated employment at date of death (if not prior), survived to earliest retirement age and elected commencement of benefits under the Normal Form of Payment and at that time died.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Benefits are paid in the form of a single life annuity, unless married. If married, 95% of the single life annuity (adjusted for differences in age between the employee and spouse) will automatically be payable, with a 55% continuation to the surviving spouse after the retiree's death. The survivor option may be waived only with spousal consent. The benefit reverts to the single life annuity form if the spouse predeceases the participant.
Pension Increases	None.

SCHEDULE SB ATTACHMENTS

Plan participants' contributions	None.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected other than scheduled pension increases contained in the Collective Bargaining Agreement.

Changes in Benefits Valued Since Prior Year

None.
