Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Furniture Row 401(k) Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2000 and subsequently amended since that date. The Plan is available to all employees age 21 years or older who have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors and Owners of Furniture Row, LLC and Furniture Row BC, Inc. (collectively, the "Company" or "Plan Sponsor") administers the Plan. Bank of America, N.A. ("BOA") serves as trustee, manages Plan assets, and maintains the Plan's records. BOA offers Plan participants a variety of investment options through various mutual funds and money market funds. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 52% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a matching contribution of 100% of elective deferrals up to 2% of eligible compensation. Matching contributions are funded each pay period. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

The Company could make discretionary profit sharing contributions. Any discretionary profit sharing contributions would have been divided equally among all eligible participants as an equal percentage of Plan compensation. There were no discretionary profit sharing contributions into the Plan during the year ended December 31, 2017.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have a maximum of one loan outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 3.25% to 7.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through September 2027. Loans have a maximum term of five years, unless such loan is for the purchase of the participant's primary residence, in which case the repayment period may not exceed thirty years from the date of the loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum in the amount equal to the participant's vested account balance or may roll the amount into another qualified plan of Individual Retirement Account ("IRA"). Immediate lump-sum distributions are made to terminated participants if the participant's vested account balance is $1,000 or less. If the balance is greater than $1,000 but less than $5,000, the vested amount will be rolled into a qualified IRA in the name and for the benefit of the participant unless the participant elects to receive or roll over the balance. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or shall be allocated to participants in the same manner as the employer's contribution. The balance of this account at December 31, 2017 and 2016 was $41,959 and $48,609, respectively.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by BOA. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by BOA are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, three investments accounted for 40% of investment income. At December 31, 2017 and 2016, three and two investments accounted for 35% and 27% of total investments at fair value, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. Effective January 1, 2018, the discretionary employer match was reduced from 2% to 1%.

Note 2 - Assets Certified by the Trustee

BOA has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

Note 3 - Fair Value Accounting (continued)

As of December 31, 2017:

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with BOA's determination letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan Sponsor has fidelity coverage for the Plan in the amount of $500,000.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and money market funds, which are managed by BOA. Merrill Lynch and Blackrock are both affiliates of BOA, who is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 8 - Corrective Distributions Payable

During the years ended December 31, 2017 and 2016, employee contributions are net of $123,740 and $123,170, respectively, to refund excess deferral contributions to participants as required to satisfy the Plan-imposed limit requirements as defined by the Plan document. The amount is also included in the Plan's statement of net assets available for benefits at December 31, 2017 and 2016 as corrective distributions payable.
