(1) Description of the Plan

The following description of the Eye Health of Ft. Myers, Inc. and Affiliated Cos. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions. The Plan was adopted effective January 1, 1997 and is sponsored by Eye Health of Ft. Myers, Inc. (collectively the "Company").

(a) General

The Plan is a defined contribution plan generally covering all employees of the Company who have attained age 21 and completed 3 months of service. Eligible employees may make elective deferrals to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may make elective salary deferral contributions, in whole percentages, up to the maximum amount allowable by law, as defined by the Plan. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of investment options for participants through the insurance company investment contract described in Note 3. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. The Company may make discretionary, nonelective contributions to the Plan. During 2017 and 2016, the Company did not make any discretionary nonelective contributions. Employer contributions, if any, are also invested at the direction of the participant.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's nonelective contributions, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan participants have daily access to their account via phone or internet and may change the allocation of their investments to any of the several investment options offered by the Plan.

(1) Description of the Plan - Continued

(d) Vesting

Participants are immediately vested in their salary deferral contributions and the Company's nonelective contributions, plus actual earnings thereon.

(e) Participants Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate of prime plus two percentage points. Principal and interest are paid ratably through weekly payroll deductions over a term not to exceed five years.

(f) Payment of Benefits

On termination of service, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account or periodic payments not to exceed the participant's life expectancy. A participant may also elect a direct rollover to a qualifying plan. The Plan also allows for hardship withdrawals as defined in the Plan document.

(2) Summary of Significant Accounting Policies

(a) Accounting Basis

The financial statements of the Plan are presented on the accrual basis of accounting.

(b) Payment of Benefits

Benefits are recorded when paid.

(c) Financial Accounting Standards

The Financial Accounting Standards Board (FASB) has issued authoritative guidance establishing two levels of U.S. generally accepted accounting principles (GAAP), authoritative and nonauthoritative, and making the Accounting Standards Codification (ASC) the source of authoritative, nongovernmental GAAP, except for rules and interpretive releases of the Securities and Exchange Commission. This guidance is incorporated into ASC Topic 105, *Generally Accepted Accounting Principles*.

(2) Summary of Significant Accounting Policies - Continued

(d) Valuation of Investments

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

The fair value of participation units owned by the Plan in the pooled separate account is based upon quoted redemption values on a daily basis.

The Plan's insurance company general account investment is valued at contract value which represents contributions made under the contract, plus interest at the contract rate, less funds used to pay retirement benefits. Fair value of the general account approximates the contract value less any early withdrawal charges, maintenance fees and market value adjustments if the contract were terminated at the reporting date.

(e) Estimates in Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(3) Contract with Insurance Company

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company (MassMutual) acquired The Hartford's Retirement Plans Group business. Hartford Life Insurance Company (Hartford) appointed MassMutual to provide all administrative services necessary to support the contracts issued by Hartford. The Plan has an investment contract with Hartford for the purpose of investing Plan assets. The contract is an "unallocated" group annuity contract. The assets of the Plan are held either in Hartford's general account, and represent general account obligations, or in a pooled separate account. A variety of investment options are available to Plan participants through the pooled separate account. Contributions directed to the pooled separate account purchase units of various funds of the separate account. The funds of the separate account include a number of registered investment companies and collective investment trusts with various investment objectives. Benefit payments to participants or their beneficiaries are made directly by MassMutual as agent for Hartford from the funds accumulated under the contract. The insurance contract and underlying funds are reported at contract value as reported to the Plan which represents the accumulation of contributions made, plus earnings, less benefit payments and administrative expenses.

(4) Information Certified by Massachusetts Mutual Life Insurance Company as Agent for Hartford Life Insurance Company

The following is a summary of the unaudited information included in the Plan's financial statements that was prepared or derived from information provided by MassMutual as agent for Hartford. The plan administrator has obtained a certification from MassMutual as agent for Hartford that the information is complete and accurate as of December 31, 2017 and 2016 and for the year ended December 31, 2017:

	2017	2016
Insurance company investment contract:		
General account	$ 344,687	307,237
Pooled separate account	2,898,975	2,698,988
Participant loans	53,017	60,691
Net appreciation in fair value of investments	444,912	n/a
Interest income on general account	9,533	n/a
Interest income on participant loans	2,592	n/a

The certification also covers the information presented in Note 9 and the information included in the accompanying supplemental Schedule of Assets (Held at End of Year).

(5) Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(6) Party-in-Interest Transactions

The Plan's expenses are paid either by the Plan or the Company, as provided in the Plan document. Expenses that are paid directly by the Company, such as professional and recordkeeping fees, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

(6) Party-in-Interest Transactions - Continued

MassMutual provides certain recordkeeping and administrative services to the Plan. As such, MassMutual is considered to be a party-in-interest. Fees paid by the Plan to MassMutual of $1,317 for the year ended December 31, 2017 are considered to be party-in-interest transactions.

(7) Plan Termination

Although it has expressed no intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) Fair Value Measurement

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2: Inputs to the valuation methodology include:

a) quoted prices for similar assets or liabilities in active markets;

b) quoted prices for identical or similar assets or liabilities in inactive markets;

c) inputs other than quoted prices that are observable for the asset or liability;

d) inputs that are derived principally from or corroborated by observable market data by correlation or other means;

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(9) Fair Value Measurement - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

General Account

The plan has a guaranteed investment contract (GIC) with Hartford. Hartford maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The GIC is included in the financial statements at contract value, which approximates fair value. The concept of a value other than contract value does not apply to this GIC even upon a discontinuance of the contract in which case contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. There are no specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates, which are determined quarterly and may not be less than 3%. This contract is not a traditional GIC and therefore there are no cash flows that could be discounted. Contract value represents contributions made under the contract, plus transfers to the fund and credited interest, less participant withdrawals, transfers out of the fund and administrative expenses. The general account promises contract value for a benefit event (termination, death, disability, retirement, etc.); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the general account is not considered benefit-responsive and is classified as a Level 2 investment.

Pooled Separate Account

The investment is a public investment vehicle valued using net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active, however, the unit price is based on the valuation of the underlying investments which are traded on an active market.

(9) Fair Value Measurement - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

		Fair Value Measurements at Reporting Date Using

Pooled separate account	2,898,975	-	2,898,975	-

		Fair Value Measurements at Reporting Date Using
