Notes to Financial Statements

1. Description of the Plan

The following description of The Welcome Nursing Home 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of The Welcome Nursing Home (the Company) who have one year of service during which they completed at least 1,000 hours of service, and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In accordance with the Plan document, participants may elect to contribute from 1% up to 88% of their pre-tax annual compensation to the Plan subject to limitations in the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Organization's matching contribution equals 50% of the first 4% of base compensation that a participant contributes to the Plan. Total Organization matching contributions amounted to \$22,198 and \$19,210 in 2017 and 2016, respectively. Additional amounts may be contributed at the option of the Organization's Board of Directors and are subject to certain profit sharing formulas. For the years ended December 31, 2017 and 2016, such contributions amounted to \$0, respectively.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Organization's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested on a graded scale after six years of credited service.

Notes receivable from participants

Participants may borrow from their vested account balance a minimum of \$500 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account. Interest is charged at the prevailing rate at the time of the loan. Interest rates ranged from 5.25% to 7.00%. Principal and interest are paid ratably through monthly payroll deductions.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

Payment of benefits

Upon death, disability, retirement or termination of service a participant may elect to receive a lump sum amount equal to the vested value of his or her account.

Financial Hardship Withdrawals

Financial hardship withdrawals of participant's voluntary deferral contributions are permitted in specialized circumstances of immediate and heavy financial need. A participant who receives a hardship distribution of voluntary deferral contributions shall be prohibited from making elective deferrals for six months after receipt of distribution.

Forfeitures

Forfeitures of Organization matching and discretionary contributions are used to reduce future employer contributions during the Plan year. Forfeitures of \$0 and \$2,277 were used to reduce employer contributions during 2017 and 2016, respectively. At December 31, 2017 and 2016, unallocated forfeiture balances totaled \$376 and \$0.

Plan termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Plan expenses

Substantially all Plan expenses are absorbed by the Organization.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. No allowances for credit losses has been recorded at December 31, 2017 and 2016.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Events occurring after reporting date

The Plan's management has evaluated events and transactions that occurred between December 31, 2017 and July 30, 2018 which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. Information Certified by the Trustees

Investment and notes receivable from participants information disclosed in the accompanying financial statements held as of December 31, 2017 and 2016, net appreciation (depreciation) in fair value of investments and interest and dividends for the years ended December 31, 2017 and 2016, were obtained or derived from the information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company from January 1, 2016 through June 30, 2016 and by Reliance Trust Company, from July 1, 2016 to December 31, 2017. The Plan's independent auditors did not perform auditing procedures with respect to the information, except for comparing such information included in the financial statements and supplemental schedule.

4. Income Tax Status

The Plan obtained its latest determination letter on August 18, 2004, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Parties-in-Interest

The Organization, the participants, and the trustee have all been identified as parties-in-interest. Therefore, participant loans qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Fair Value Measurements

The Accounting Standards Codification Topic on Fair Value Measurements and Disclosure defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with U.S. Generally Accepted Accounting Principals. Fair Value Measurements and Disclosure does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair Value Measurements and Disclosures establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

The Welcome Nursing Home 401(k) Plan

Notes to Financial Statements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Common collective trust: Valued at the net asset value (NAV) of the units held by the Plan at year end. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The investment objective of the underlying investments is to simulate the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The remainder of this page is intentionally left blank.
