#### Note 1. Description of the Plan

The following description of the Midmark Corporation 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

**General:** The Plan is a defined contribution plan covering all eligible employees of Midmark Corporation (the Company, Employer and Plan sponsor). The Plan was established effective January 1, 1992 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). There is no age requirement and employees may enter the Plan immediately.

**Participant and rollover contributions:** Participants can defer a dollar amount or percentage of compensation up to 60% of annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

**Plan merger:** Effective February 1, 2017, the Plan was amended to approve the merger of the Versus Technology, Inc. 401(k) Profit Sharing Plan into the Plan. The transfer of the related plan assets of \$3,971,113 is reported on the financial statements for the year ended December 31, 2017.

**Employer contributions:** The Plan allows for employer matching and profit sharing contributions, both discretionary and non-discretionary. The employer will make matching contributions in an amount equal to 50% of a participant's deferral, limited to 6%. The employer may also choose to make an additional discretionary matching contribution. There was no additional discretionary matching contribution for 2017 and 2016. The employer will make a non-discretionary profit sharing contribution in an amount equal to 1% of eligible compensation. The Company made the 1% profit sharing contribution in the amounts of \$1,035,776 and \$888,346 for the years 2017 and 2016, respectively. The employer may choose to make an additional profit sharing contribution. An additional 1% discretionary profit sharing contribution in the amount of \$1,035,776 and \$888,346 was made for the years ended 2017 and 2016, respectively. Participants are required to work a minimum 1,000 hours and be employed at year-end in order to be eligible for profit sharing contributions made for that year, unless the participant dies, becomes disabled, or retires. Contributions are subject to certain limitations.

**Participant accounts:** Each participant's account is credited with the participant's contribution and an allocation of: (a) employer contributions, (b) plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined.

**Vesting:** A participant shall have a fully vested and non-forfeitable interest in the value of his or her account derived from participant contributions. Vesting in the employer contribution portion of their account is based on years of service. The participant is 20% vested per year of service. A participant is fully vested after five years of credited service.

**Payment of benefits:** A participant is entitled to a benefit, in the form of a lump-sum distribution, if certain events occur. These events include normal retirement at age 65, early retirement at age 55, attainment of age 59½, death, disability or termination of employment.

**Notes receivable from participants:** Participants may borrow from the vested portion of their fund accounts up to a maximum of the lesser of \$50,000 or 50% of a participant's vested account balance and a minimum of \$1,000. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on notes receivable from participants range from 5.25% to 6.25% as of December 31, 2017 and 5.25% to 9.50% as of December 31, 2016. Principal and interest is paid ratably through weekly payroll deductions.

#### Note 1. Description of the Plan (Continued)

**Forfeited accounts:** Forfeitures are used to reduce employer contributions. Forfeitures unapplied at December 31, 2017 and 2016 amounted to \$49,715 and \$76,851, respectively. Employer contributions were reduced by \$37,221 of forfeited non-vested accounts in 2017.

#### Note 2. Summary of Significant Accounting Policies

**Basis of presentation:** The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

**Investment valuation and income recognition:** The Plan's participant directed investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

**Contributions:** Participant contributions are recognized when withheld. Company matching contributions are recognized concurrently with participant contributions.

**Payment of benefits:** Benefits are recorded when paid.

**Notes receivable from participants:** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by the participants. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

**Administrative expenses:** The administrative expenses paid by the Plan are primarily loan origination fees and maintenance fees which are paid by the participants who borrow. Investment management and administrative fees were paid by both the Plan and employer during 2017. The Company has an ERISA account in the Plan whereby a portion of the fund fees is collected in an administrative budget account and can be used to pay qualified plan expenses.

**Use of estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

**Subsequent events:** The Plan has evaluated subsequent events for potential recognition and/or disclosure through July XX, 2018, the date the financial statements were available to be issued.

#### Note 3. Information Certified by the Plan's Trustee, Fidelity Management Trust Company

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2017 and 2016 and for the year ended December 31, 2017 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and supplemental schedule to the Plan's assets.

Fidelity Management Trust company also certified to the completeness and accuracy of \$21,608,690 of net appreciation in fair value of investments, \$2,240,539 of dividends and interest related to investments and \$111,545 of interest income from notes receivable from participants for the year ended December 31, 2017.

#### Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

#### Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

**Mutual funds:** Valued at the closing price reported on the active market on which the individual securities are traded.

**Money market funds:** Valued using amortized cost, which approximates fair value.

**Common/collective trust fund:** Valued at the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2 or 3.

**Assets measured at fair value on a recurring basis:** The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2017 and 2016, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

#### Note 4. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2017 and 2016.

#### Note 5. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

#### Note 6. Income Tax Status

The Plan is an adopter of a Fidelity prototype plan, which obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the prototype opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for year before 2014.

#### Note 7. Related-Party Transactions

Fidelity is the trustee and record-keeper, as defined by the Plan; therefore, transactions with Fidelity qualify as party-in-interest. Certain Plan investments are shares of mutual funds managed by Fidelity. Fees paid by the Plan for management services of these funds, as well as record-keeping services provided by Fidelity constitute party-in-interest transactions.

#### Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for plan benefits.
