Independent Auditor's Report

To the Benefits Oversight Committee of the
Pension Plan for Employees of A. H. Belo Pension Plan I

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of A. H. Belo Pension Plan I (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee" of the Plan), except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN

GENERAL

A. H. Belo Pension Plan I (the “Plan”) is a noncontributory defined benefit pension plan, sponsored by A. H. Belo Corporation (the “Company”), subject to the provisions of the Employment Retirement Income Security Act of 1974, as amended (“ERISA”). The Company established the Plan and A. H. Belo Pension Plan II on January 1, 2011, upon the Company’s withdrawal of its participants from The G. B. Dealey Retirement Pension Plan (the “GBD Pension Plan”), a noncontributory defined benefit plan sponsored by Belo Corp., the former parent of the Company. The Benefits Administrative Committee, as approved by the Company, serves as the “Plan Administrator” of the Plan. The Plan provides retirement benefits to current and former employees of *The Dallas Morning News* and employees of the Company’s corporate headquarters who were withdrawn from the GBD Pension Plan. Accrual of new benefits to participants was frozen prior to Plan inception. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Investments of the Plan and the A. H. Belo Pension Plan II are held in the A. H. Belo Pension Plan Master Trust (the “Master Trust”).

PLAN ADMINISTRATION

The Plan uses Fidelity Institutional Asset Management to manage Plan investments in the Master Trust. The Company’s Pension Investment Committee (the “Investment Committee”) monitors the allocation of investments to ensure consistency with the Company’s risk objectives. The Investment Committee also monitors the return on assets for each of the investment funds to evaluate the fund manager’s performance. The Bank of New York Mellon/BNY Mellon, N.A. (the “Trustee” or “The Bank of New York Mellon”) executes investment transactions and invests cash received and investment income as directed by the Investment Committee.

BENEFITS AND VESTING

Monthly retirement benefit payments are computed based on several factors including, but not limited to, retirement date, age at date of retirement, years of credited service, and final monthly compensation eligible for benefits as defined in the Plan document.

Retirement is available to participants generally as early as age 55 and normal retirement starts at age 65. Participants can elect various payment options for their monthly retirement benefit. Payment options for participants consist of (i) a 10 year certain and continuous annuity paid each month to the participant and the designated beneficiary in the event of death, or (ii) a reduced amount, which is the actuarial equivalent of a 10 year certain and continuous annuity paid (a) in equal monthly installments over the life of the participant, or (b) in equal monthly installments over the life of the participant and in further reduced installments to the beneficiary in the event of death.

Participants have a 100% vested and nonforfeitable interest in their account balance.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN, CONTINUED

TERMINATION PROVISIONS

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and Plan assets will be distributed in accordance with Section 4044 of ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC").

EXPENSES

The Master Trust pays all administrative expenses of the Participating Plans. All administrative expenses are then allocated by the Master Trust to the Participating Plans in accordance with the Plan document. The Company may elect to pay any such expenses, at their discretion.

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the accumulated plan benefits at the date of the financial statements and the changes in the net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See "Note 4 – Fair Value Measurements"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

BENEFITS

Benefit payments are recorded when paid.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

FUNDING POLICY

It is the Investment Committee's objective to have the Plan funded for pension costs to the extent that such costs are tax deductible by the Company. Annual contributions are based on the recommendations of the Plan's consulting actuary using actuarial assumptions. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code ("IRC"). The minimum funding requirement was met for the year ended December 31, 2017, as determined by the Plan's actuary.

3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated benefits, determined by Fidelity Workplace Investing LLC ("Fidelity"), represents the amount resulting from applying actuarial assumptions to the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected payment date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee services rendered to the valuation date.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. The assumed interest rate used to discount the accumulated plan benefit obligation as of December 31, 2017 and 2016, was 6.5%. Mortality rates for active participants and disabled pensioners was based on the RP-2014 Table with MP-2014 Improvement Scale and projected forward with fully generated mortality improvements using the MP-2017 projection scale for as of December 31, 2017 and the MP-2016 projection scale as of December 31, 2016. Disability, termination, and retirement rates are based on published statistical data. As of December 31, 2017 and 2016, benefit commencement age for current and future terminated vested participants that are assumed to work past the age of 65 have been actuarially increased to reflect their current benefits under the pension plan. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

4 – FAIR VALUE MEASUREMENTS

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Updated (“ASU”) No. 2017-06 on employee benefit plan master trust reporting. The guidance is contained in ASU 2017-06, “Plan Accounting-Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force)”. The requirements for employee benefit plan master trust financial statement reporting and disclosure required by this ASU are as follows: The Plan's interest the Master Trust and change in interest in the Master Trust should be presented in separate line items in the Plan's Statements of Net Assets Available for Benefits, and in the Statements of Changes in Net Assets Available for Benefits. The dollar amount of the Plan's interest in each general type of investment held by the Master Trust should be disclosed, and the Plan should disclose the Master Trust's other asset and liability balances, as well as the dollar amount of the Plan's interest in each of those balances. The amendments in the ASU should be applied retrospectively in the year of adoption and is effective for Plan years beginning after December 15, 2018 with earlier adoption permitted. Plan management is in the process of evaluating the impact that will result from adoption of ASU 2017-06.

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-7, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as the practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share as the practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-7 is effective for fiscal years beginning after December 15, 2015 for public entities and after December 15, 2016 for all other entities with early adoption permitted. Plan management adopted ASU No. 2015-7 in 2017, with no material impact to the financial statements.

4 – FAIR VALUE MEASUREMENTS, CONTINUED

INVESTMENT VALUATION AND LEVELING, CONTINUED

FASB Accounting Standards Codification (“ASC”) Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In establishing a fair value hierarchy for the Master Trust’s investments in accordance with FASB ASC 820, the following value methodologies were used for each type of investments:

Registered investment companies: Valued at the daily closing price as reported by the fund.

Common collective trust: Valued at the net asset value (“NAV”) of units of a bank collective trust. The NAV, as provided by the Trustee, is based on the fair value of the of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5– FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Firm has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the Trustee and party-in-interest as defined by ERISA, as of December 31, 2017 and 2016, and for the year ended December 31, 2017, except for comparing such information certified by the Trustee to the information included in the Plan's financial statements. Information in the accompanying financial statements as to Plan interest in the Master Trust, Plan interest in Master Trust income, and investment information reported in the notes to the financial statements is presented solely upon reliance of those certifications.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held by the Master Trust are shares of common collective trusts managed by The Bank of New York Mellon and Fidelity Institutional Asset Management. The Bank of New York Mellon is the Trustee and Fidelity Institutional Asset Management is the investment advisor of the Master Trust. Therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.

8 – TAX STATUS

The Internal Revenue Service has issued a favorable determination letter dated August 7, 2014, stating that the Plan is a qualified plan under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if an uncertain position is taken for which it is more likely than not that it would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

9 – RISKS AND UNCERTAINTIES

The investment allocation of the Plan's interest in the Master Trust is directed by the Company or the Investment Committee. Such investments are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the Statements of Net Assets Available for Benefits and the funding status of the Plan.

Some of the Plan's investments held by the Master Trust may be illiquid, and the Plan may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if the Plan is required to liquidate all or a portion of its portfolio quickly, the Plan may realize significantly less than the value at which it previously recorded those investments.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

10 – PENSION ANNUITIZATION

Effective September 18, 2017, the Employer entered into an agreement with Mass Mutual Life Insurance Company (“Mass Mutual”) to purchase a single premium group annuity contract for certain in payment retirees. Upon issuance of the group annuity contract by Mass Mutual, Mass Mutual irrevocably assumed the obligation to make future annuity payments to certain Pension Plan retirees. The amount of each retiree’s annuity payment equals the amount of such individual’s pension benefit. In addition, the group annuity contract replicates the same rights to future payments, such as survivor benefits, that the retiree was receiving from the Plan. The net assets transferred to Mass Mutual was \$26,545,188 and is reflected in the Statement of Changes in Net Assets Available for Benefits as “Purchase of annuity contracts.”

11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the years ended December 31, 2017 and 2016.

12 – SUBSEQUENT EVENTS

Effective June 29, 2018, A.H. Belo Corporation, a Delaware corporation merged with and into its wholly owned subsidiary, A.H. Belo Texas, Inc., a Texas corporation, and A.H. Belo Texas, Inc. became the Plan Sponsor.

In accordance with FASB ASC 855, “Subsequent Events,” the Company has evaluated events or transactions occurring after December 31, 2017, the Statements of Net Assets Available for Benefits date, through July 30, 2018, the date the financial statements were ready to be issued, and determined there were no other events or transactions that would impact our financial statements as of and for the year ended December 31, 2017.

ERISA: Estimated based on the future expectations of non-investment related administrative expenses paid from the Trust (\$150,000), plus PBGC premiums for the current year (\$381,801), totaling \$531,801.

Actuarial Increases for Late Retirement:

Interest Rate: 4.5%.

Mortality: 1971 Group Annuity Mortality Table, projected by Scale D to 1975, weighted 50% male and 50% female.

Mortality:

ERISA: IRS 2017 Static Mortality Table, using separate tables for annuitants and non-annuitants (previously IRS 2016 Static Mortality Table). These tables include future mortality improvement of 7 years for annuitants and 15 years for non-annuitants.

FASB ASC 960: RP-2014 Total Mortality Tables adjusted backward to 2006 (the central year of the RP-2014 data set) with Scale MP-2014 and projected with MP-2016 Mortality Improvement Scale applied on a generational basis (previously RP-2014 Total Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with MP-2015 Mortality Improvement Scale applied on a generational basis). This plan does not have a large enough population to vary from the standard tables.

A. H. Belo Corporation

A. H. Belo Pension Plan I

For Plan Year Ended December 31, 2017

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes: The actuarial value of assets is equal to:

- a) the market value of assets (including discounted employer contributions receivable) on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 2/3 of the prior year, and
 - ii) 1/3 of the second prior year,Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.5% for 2016, not to exceed the third segment rate for that year) over the actual return on the market value (including employer contributions receivable) for any given year.
- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets (including discounted employer contributions receivable).

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 7-year period beginning with such plan year.

Actuarial Assumptions and Methods (continued)

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) and FASB ASC 715 accumulated benefit obligation (ABO) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount and FASB ASC 715 projected benefit obligation (PBO) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. The liability is then equal to the present value of all benefits for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Social Security Retirement Age: Determined in accordance with the chart below:

Year of Birth	Age
Prior to 1938	65
1938 to 1954	66
1955 or after	67

Normal retirement date (NRD): The first day of the month coinciding with or next following the attainment of age 65.

Monthly pension benefit: As of any date, 1.1% of average monthly earnings multiplied by years of pension service at NRD, plus .35% of average monthly earnings in excess of covered compensation multiplied by years of pension service at NRD up to 35 such years, multiplied by the fraction of actual pension service over pension service at NRD not to exceed 1. For prior Guild Non-Union Providence Journal participants, the benefit is the greater of benefit under A. H. Belo Pension Plan I or the accrued benefit as of December 31, 1997, under the Providence Journal Plan plus a benefit under A. H. Belo Pension Plan I post December 31, 1997. For prior Guild Union Employees, the benefit is the greater of the benefit under A. H. Belo Pension Plan I or the accrued benefit under Appendix D of the Plan as of July 31, 2004.

Excluding Guild Union, participants transferring to the STAR Plan have a vested accrued benefit at July 1, 2000.

Guild Union participants transferring to the STAR Plan have a vested accrued benefit at August 1, 2004.

For all remaining participants, accrued benefits were frozen on March 31, 2007.

Eligibility for Benefits:

Normal retirement: Retirement on NRD.

Early retirement: Retirement before NRD and on or after attaining age 55.

Postponed retirement: Retirement after NRD.

Deferred vested: Terminations for reasons other than death, disability, or retirement.

Pre-retirement spouse benefit: Death while eligible for Normal, Early, Postponed, or Deferred Vested Retirement benefits, with a surviving spouse.

REA ACT Death Benefit: 50% of the monthly accrued benefit as of the date of death reduced for the joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Monthly pre-retirement spouse death benefit: Spouses of active or deferred vested participants who were eligible for early retirement as of December 31, 1994, are entitled to the greater of:

1. The monthly preretirement spouse benefit frozen as of December 31, 1994, or
2. The REA ACT death benefit.

Spouses of participants not eligible for early retirement as of December 31, 1994, are entitled to the REA ACT death benefit.

Disability: Permanently and totally disabled prior to age 65.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Monthly Pension Benefit determined as of NRD.

Early retirement: The Monthly Pension Benefit payable at age 65 reduced 1/180th for each month prior to age 65 until five years prior to the participant's Social Security normal retirement age. It is further reduced by 1/360th for each additional month benefits commence prior to Normal Retirement Date up to a total of 120 months.

Postponed retirement: Monthly pension benefit determined as of actual retirement date.

Termination with deferred vested benefit: The Monthly Pension Benefit determined as of termination date, reduced similarly to early retirement benefits for benefit commencement prior to NRD.

Death with pre-retirement spouse benefit: The Monthly pre-retirement spouse benefit is payable. If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement.

Plan Provisions (continued)

Disability: The Monthly Pension Benefit payable at normal retirement assuming: (1) that the employee's rate of compensation at disability would have continued and (2) years of service would have continued uninterrupted to the benefit freeze date.

Forms of Payment:

Normal form (single participants): Ten year certain and continuous annuity.

Normal form (married participants): Joint and 50% survivor annuity with spouse as beneficiary.

Optional forms: Participants who retire under the plan may elect actuarially equivalent optional forms including a ten year certain and continuous annuity, life annuity, joint and survivor annuity, or, if the present value of their benefit is \$5,000 or less, a lump sum distribution.

Maximum on Benefits and Pay: All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Cost of Living Adjustment: Participants receiving monthly retirement benefits prior to January 1, 1995, excluding those participants who were included in The Providence Journal Company Retirement Plan on December 31, 1997, were eligible for the cost of living adjustment. This includes any beneficiary whose spouse was receiving monthly retirement benefits prior to January 1, 1995. The adjustment made to eligible monthly benefits was a one-time cost of living increase of 5%. If an eligible, retired participant dies on or after January 1, 1998, the survivor benefit, if applicable, shall be calculated with respect to the participant's benefit as increased by the cost of living adjustment.

Future Plan Changes: No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Plan Changes Since Prior Valuation: None.

To the Benefits Oversight Committee of the
Pension Plan for Employees of A. H. Belo Pension Plan I

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of A. H. Belo Pension Plan I (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee" of the Plan), except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN

GENERAL

A. H. Belo Pension Plan I (the “Plan”) is a noncontributory defined benefit pension plan, sponsored by A. H. Belo Corporation (the “Company”), subject to the provisions of the Employment Retirement Income Security Act of 1974, as amended (“ERISA”). The Company established the Plan and A. H. Belo Pension Plan II on January 1, 2011, upon the Company’s withdrawal of its participants from The G. B. Dealey Retirement Pension Plan (the “GBD Pension Plan”), a noncontributory defined benefit plan sponsored by Belo Corp., the former parent of the Company. The Benefits Administrative Committee, as approved by the Company, serves as the “Plan Administrator” of the Plan. The Plan provides retirement benefits to current and former employees of *The Dallas Morning News* and employees of the Company’s corporate headquarters who were withdrawn from the GBD Pension Plan. Accrual of new benefits to participants was frozen prior to Plan inception. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Investments of the Plan and the A. H. Belo Pension Plan II are held in the A. H. Belo Pension Plan Master Trust (the “Master Trust”).

PLAN ADMINISTRATION

The Plan uses Fidelity Institutional Asset Management to manage Plan investments in the Master Trust. The Company’s Pension Investment Committee (the “Investment Committee”) monitors the allocation of investments to ensure consistency with the Company’s risk objectives. The Investment Committee also monitors the return on assets for each of the investment funds to evaluate the fund manager’s performance. The Bank of New York Mellon/BNY Mellon, N.A. (the “Trustee” or “The Bank of New York Mellon”) executes investment transactions and invests cash received and investment income as directed by the Investment Committee.

BENEFITS AND VESTING

Monthly retirement benefit payments are computed based on several factors including, but not limited to, retirement date, age at date of retirement, years of credited service, and final monthly compensation eligible for benefits as defined in the Plan document.

Retirement is available to participants generally as early as age 55 and normal retirement starts at age 65. Participants can elect various payment options for their monthly retirement benefit. Payment options for participants consist of (i) a 10 year certain and continuous annuity paid each month to the participant and the designated beneficiary in the event of death, or (ii) a reduced amount, which is the actuarial equivalent of a 10 year certain and continuous annuity paid (a) in equal monthly installments over the life of the participant, or (b) in equal monthly installments over the life of the participant and in further reduced installments to the beneficiary in the event of death.

Participants have a 100% vested and nonforfeitable interest in their account balance.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN, CONTINUED

TERMINATION PROVISIONS

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and Plan assets will be distributed in accordance with Section 4044 of ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC").

EXPENSES

The Master Trust pays all administrative expenses of the Participating Plans. All administrative expenses are then allocated by the Master Trust to the Participating Plans in accordance with the Plan document. The Company may elect to pay any such expenses, at their discretion.

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the accumulated plan benefits at the date of the financial statements and the changes in the net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See "Note 4 – Fair Value Measurements"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

BENEFITS

Benefit payments are recorded when paid.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

FUNDING POLICY

It is the Investment Committee's objective to have the Plan funded for pension costs to the extent that such costs are tax deductible by the Company. Annual contributions are based on the recommendations of the Plan's consulting actuary using actuarial assumptions. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code ("IRC"). The minimum funding requirement was met for the year ended December 31, 2017, as determined by the Plan's actuary.

3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated benefits, determined by Fidelity Workplace Investing LLC ("Fidelity"), represents the amount resulting from applying actuarial assumptions to the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected payment date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee services rendered to the valuation date.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. The assumed interest rate used to discount the accumulated plan benefit obligation as of December 31, 2017 and 2016, was 6.5%. Mortality rates for active participants and disabled pensioners was based on the RP-2014 Table with MP-2014 Improvement Scale and projected forward with fully generated mortality improvements using the MP-2017 projection scale for as of December 31, 2017 and the MP-2016 projection scale as of December 31, 2016. Disability, termination, and retirement rates are based on published statistical data. As of December 31, 2017 and 2016, benefit commencement age for current and future terminated vested participants that are assumed to work past the age of 65 have been actuarially increased to reflect their current benefits under the pension plan. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

A. H. BELO PENSION PLAN I
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

4 – FAIR VALUE MEASUREMENTS

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Updated (“ASU”) No. 2017-06 on employee benefit plan master trust reporting. The guidance is contained in ASU 2017-06, “Plan Accounting-Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force)”. The requirements for employee benefit plan master trust financial statement reporting and disclosure required by this ASU are as follows: The Plan's interest the Master Trust and change in interest in the Master Trust should be presented in separate line items in the Plan's Statements of Net Assets Available for Benefits, and in the Statements of Changes in Net Assets Available for Benefits. The dollar amount of the Plan's interest in each general type of investment held by the Master Trust should be disclosed, and the Plan should disclose the Master Trust's other asset and liability balances, as well as the dollar amount of the Plan's interest in each of those balances. The amendments in the ASU should be applied retrospectively in the year of adoption and is effective for Plan years beginning after December 15, 2018 with earlier adoption permitted. Plan management is in the process of evaluating the impact that will result from adoption of ASU 2017-06.

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-7, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as the practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share as the practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-7 is effective for fiscal years beginning after December 15, 2015 for public entities and after December 15, 2016 for all other entities with early adoption permitted. Plan management adopted ASU No. 2015-7 in 2017, with no material impact to the financial statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

4 – FAIR VALUE MEASUREMENTS, CONTINUED

INVESTMENT VALUATION AND LEVELING, CONTINUED

FASB Accounting Standards Codification (“ASC”) Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In establishing a fair value hierarchy for the Master Trust’s investments in accordance with FASB ASC 820, the following value methodologies were used for each type of investments:

Registered investment companies: Valued at the daily closing price as reported by the fund.

Common collective trust: Valued at the net asset value (“NAV”) of units of a bank collective trust. The NAV, as provided by the Trustee, is based on the fair value of the of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5– FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Firm has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the Trustee and party-in-interest as defined by ERISA, as of December 31, 2017 and 2016, and for the year ended December 31, 2017, except for comparing such information certified by the Trustee to the information included in the Plan's financial statements. Information in the accompanying financial statements as to Plan interest in the Master Trust, Plan interest in Master Trust income, and investment information reported in the notes to the financial statements is presented solely upon reliance of those certifications.

7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held by the Master Trust are shares of common collective trusts managed by The Bank of New York Mellon and Fidelity Institutional Asset Management. The Bank of New York Mellon is the Trustee and Fidelity Institutional Asset Management is the investment advisor of the Master Trust. Therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.

8 – TAX STATUS

The Internal Revenue Service has issued a favorable determination letter dated August 7, 2014, stating that the Plan is a qualified plan under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if an uncertain position is taken for which it is more likely than not that it would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

9 – RISKS AND UNCERTAINTIES

The investment allocation of the Plan's interest in the Master Trust is directed by the Company or the Investment Committee. Such investments are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the Statements of Net Assets Available for Benefits and the funding status of the Plan.

Some of the Plan's investments held by the Master Trust may be illiquid, and the Plan may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if the Plan is required to liquidate all or a portion of its portfolio quickly, the Plan may realize significantly less than the value at which it previously recorded those investments.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

10 – PENSION ANNUITIZATION

Effective September 18, 2017, the Employer entered into an agreement with Mass Mutual Life Insurance Company (“Mass Mutual”) to purchase a single premium group annuity contract for certain in payment retirees. Upon issuance of the group annuity contract by Mass Mutual, Mass Mutual irrevocably assumed the obligation to make future annuity payments to certain Pension Plan retirees. The amount of each retiree’s annuity payment equals the amount of such individual’s pension benefit. In addition, the group annuity contract replicates the same rights to future payments, such as survivor benefits, that the retiree was receiving from the Plan. The net assets transferred to Mass Mutual was \$26,545,188 and is reflected in the Statement of Changes in Net Assets Available for Benefits as “Purchase of annuity contracts.”

11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

There are no reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 for the years ended December 31, 2017 and 2016.

12 – SUBSEQUENT EVENTS

Effective June 29, 2018, A.H. Belo Corporation, a Delaware corporation merged with and into its wholly owned subsidiary, A.H. Belo Texas, Inc., a Texas corporation, and A.H. Belo Texas, Inc. became the Plan Sponsor.

In accordance with FASB ASC 855, “Subsequent Events,” the Company has evaluated events or transactions occurring after December 31, 2017, the Statements of Net Assets Available for Benefits date, through July 30, 2018, the date the financial statements were ready to be issued, and determined there were no other events or transactions that would impact our financial statements as of and for the year ended December 31, 2017.
