1. DESCRIPTION OF PLAN

The following description of Hancock Estabrook, LLP Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Hancock Estabrook, LLP (the Firm), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to begin salary deferrals after the attainment of age 21 and having completed six months of service. The discretionary non-elective employer contribution feature of the Plan requires employees have completed two years of service and to be employed with the Firm as of the last day of the Plan year.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, subject to maximum limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

A discretionary non-elective contribution may be made at the option of the Firm's management. The Firm elected to make discretionary non-elective contributions of $770,385 and $821,988 for 2017 and 2016, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Firm's discretionary non-elective contributions and Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings/losses, account balances, or specific participant transactions, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Firm discretionary non-elective contribution plus actual earnings/losses thereon.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account as either a lump-sum amount or installment payments.

Benefit payments from the Plan will be made in a lump sum distribution if the balance is less than $5,000 and the participant does not direct the Plan otherwise.

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)
Hardship withdrawals are permitted in the event of immediate financial need. Participants may elect to receive a hardship withdrawal in an amount equal to the value of their vested account balance.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to ten years). Loans are secured by the balance in the participant's account and bear interest at a rate as determined by the Plan administrator. Interest rates on outstanding loans range from 4.25% to 5.25% at December 31, 2017. Principal and interest is paid ratably through payroll deductions.

Investment Options
Investments were held within various investment options maintained by Prudential Bank & Trust F.S.B. and Prudential Retirement Insurance and Annuity Company from January 1, 2016 through April 3, 2017. As of April 3, 2017, investments are held within various investment options maintained by Fidelity Management Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties
Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in fair value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent participant loans are reclassified as distributions in accordance with the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Firm absorbs reasonable expenses incurred in the administration of the Plan, that includes accounting and legal expenses. Expenses relating to certain participant transactions, such as fees related to distributions and notes receivable from participants, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy
Financial Accounting Standards Board (FASB) *Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value and disclosing fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1*: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- *Level 2*: Inputs to the valuation methodology include:

    - quoted prices for similar assets or liabilities in active markets;
    - quoted prices for identical or similar assets or liabilities in inactive markets;
    - inputs other than quoted prices that are observable for the asset or liability;
    - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3*: Inputs to the valuation methodology are unobservable and significant to the fairvalue measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3. There were no transfers between levels of the fair value hierarchy during 2017 or 2016.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following is a description of the valuation methodologies used for assets and liabilities for which fair values are estimated using the net asset value (NAV) practical expedient:

- *Pooled separate accounts*: valued at net asset value of units held by the Plan, based on the accumulated values of the underlying investments. Investments in these accounts are primarily invested in domestic equities that are priced using the closing price from the applicable exchanges and also invested in domestic fixed-income securities that are priced using benchmark yields, reported trades and issuer spreads. Unit values are adjusted daily to reflect investment results.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2017 and 2016.

Fair value measurement at December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 38,266,316	$ -	$ -	$ 38,266,316

3. FAIR VALUE MEASUREMENTS (Continued)

Fair value measurement at December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,739,257	$ -	$ -	$ 8,739,257
Investments using NAV as practical expedient				21,879,592
Total investments, at fair value (a)				$ 30,618,849

(a) In accordance with Subtopic 820-10 certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use Net Asset Value Per Share Practical Expedient

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share practical expedient as of December 31, 2017and 2016, respectively.

	2017	2016	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:					
Balanced asset allocation	$ -	$ 1,619,900	N/A	Daily	N/A
Fixed income	$ -	$ 4,802,326	N/A	Daily	N/A
Large U.S. equity	$ -	$ 10,630,542	N/A	Daily	N/A
Small/mid U.S. equity	$ -	$ 4,826,824	N/A	Daily	N/A

Pooled Separate Accounts

Balanced asset allocation: funds are managed to seek to achieve long-term return through capital appreciation and current income by investing in a combination of equity and fixed income securities.

Fixed income: fund is managed to add 150 bps of annualized excess return over a broad U.S. bond market index over a full market cycle (three to five years) by emphasizing relative-value based sector allocation, research-based security selection, and modest duration and yield curve positioning.

Large U.S. equity: funds are managed to seek appreciation of capital and to outperform market indexes by investing in large capitalization U.S. equity securities.

Small/mid U.S. equity: funds are managed to seek capital appreciation and to outperform the market indexes by maintaining a diversified portfolio of small and mid-capitalization stocks that are currently undervalued, yet poised to outperform.

4. INVESTMENTS

The Plan administrator has received certifications from Prudential Bank & Trust F.S.B., Prudential Retirement Insurance and Annuity Company and Fidelity Management Trust Company, the trustees of the Plan, that state that the following information is complete and accurate as of and for the years ended December 31, 2017 and 2016.

	2017	2016
Fidelity Management Trust Company: (April 3, 2017 to December 31, 2017)

Net appreciation in fair value of investments	$ 2,594,875	$ -
Interest income on notes receivable from participants	$ 5,823	$ -
Schedule of Assets (Held at End of Year)	Schedule I	
Prudential Bank & Trust F.S.B. and Prudential Retirement Insurance and Annuity Company: (January 1, 2016 to April 3, 2017)		
Statements of net assets available for benefits:		
Investments, at fair value	$ -	$ 30,618,849
Fully benefit-responsive contracts, at contract value	$ -	$ 6,302,595
Notes receivable from participants	$ -	$ 176,323
Statements of changes in net assets available for benefits:		
Interest and dividend income	$ 24,224	$ 176,998
Net appreciation in fair value of investments	$ 1,435,935	$ 2,773,052
Interest income on notes receivable from participants	$ 1,524	$ 7,934

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY

The Plan was invested in a fully benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (PRIAC) from January 1, 2016 until April 3, 2017. PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These contracts are considered evergreen group annuity products with guarantees backed by the full faith and credit of PRIAC.

Staring on April 3, 2017, the Plan is invested in a fully-benefit-responsive income contract with Lincoln National Life Insurance Company (LNLIC). LNLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These contracts are considered an annuity with guarantees backed by the full faith and credit of LNLIC.

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY (Continued)

Because the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The guaranteed income fund is presented on the face of the statement of net assets available for benefits at contract value which approximates fair value as there is no market value adjustment upon a discontinuance. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the annuity contracts at December 31, 2017 and 2016 was $4,649,153 and $6,302,595, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.0 percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Generally there are no events that could limit the ability of the Plan to transact at contract value. The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. At December 31, 2017 and 2016, there are no unfunded commitments and investments are redeemed on a daily basis.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments were managed by Prudential Bank & Trust F.S.B. and Prudential Retirement Insurance and Annuity Company (Prudential) who acted as trustees from January 1, 2016 until April 3, 2017 as defined by the Plan and, therefore, transactions qualify as party-in-interest transactions. Fees paid to Prudential by the Plan for administrative services amounted to $330 and $510 for the years ended December 31, 2017 and 2016, respectively.

Plan investments were managed by Fidelity Management Trust Company Trust Company who acts as trustee from April 3, 2017 to December 31, 2017 ad defined by the Plan and, therefore, transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for administrative services amount to $3,747 for the year ended December 31, 2017.

In addition, the Plan issues notes receivable to participants, which are secured by the balances in the participants' account. Therefore, these related transactions qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2014, that the Plan and the related trust is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through July 24, 2018, which is the date the financial statements were available to be issued.

General

The Plan is a defined contribution plan covering all employees of Hancock Estabrook, LLP (the Firm), who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The discretionary non-elective employer contribution feature of the Plan requires employees have completed two years of service and to be employed with the Firm as of the last day of the Plan year.

Contributions

Each year participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, subject to maximum limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

A discretionary non-elective contribution may be made at the option of the Firm's management. The Firm elected to make discretionary non-elective contributions of $770,385 and $821,988 for 2017 and 2016, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Firm's discretionary non-elective contributions and Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings/losses, account balances, or specific participant transactions, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Firm discretionary non-elective contribution plus actual earnings/losses thereon.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account as either a lump-sum amount or installment payments.

Benefit payments from the Plan will be made in a lump sum distribution if the balance is less than $5,000 and the participant does not direct the Plan otherwise.

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)
Hardship withdrawals are permitted in the event of immediate financial need. Participants may elect to receive a hardship withdrawal in an amount equal to the value of their vested account balance.

In-service withdrawals are permitted for participants that are age 59 ½ or older.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to ten years). Loans are secured by the balance in the participant's account and bear interest at a rate as determined by the Plan administrator. Interest rates on outstanding loans range from 4.25% to 5.25% at December 31, 2017. Principal and interest is paid ratably through payroll deductions.

Investment Options
Investments were held within various investment options maintained by Prudential Bank & Trust F.S.B. and Prudential Retirement Insurance and Annuity Company from January 1, 2016 through April 3, 2017. As of April 3, 2017, investments are held within various investment options maintained by Fidelity Management Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties
Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in fair value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent participant loans are reclassified as distributions in accordance with the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Firm absorbs reasonable expenses incurred in the administration of the Plan, that includes accounting and legal expenses. Expenses relating to certain participant transactions, such as fees related to distributions and notes receivable from participants, are deducted from the participant's account as the transactions occur.

Fair Value Measurement - Definition and Hierarchy
Financial Accounting Standards Board (FASB) *Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value and disclosing fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1*: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- *Level 2*: Inputs to the valuation methodology include:

    - quoted prices for similar assets or liabilities in active markets;
    - quoted prices for identical or similar assets or liabilities in inactive markets;
    - inputs other than quoted prices that are observable for the asset or liability;
    - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3*: Inputs to the valuation methodology are unobservable and significant to the fairvalue measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 3. There were no transfers between levels of the fair value hierarchy during 2017 or 2016.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

3. FAIR VALUE MEASUREMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following is a description of the valuation methodologies used for assets and liabilities for which fair values are estimated using the net asset value (NAV) practical expedient:

- *Pooled separate accounts*: valued at net asset value of units held by the Plan, based on the accumulated values of the underlying investments. Investments in these accounts are primarily invested in domestic equities that are priced using the closing price from the applicable exchanges and also invested in domestic fixed-income securities that are priced using benchmark yields, reported trades and issuer spreads. Unit values are adjusted daily to reflect investment results.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2017 and 2016.

Fair value measurement at December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 38,266,316	$ -	$ -	$ 38,266,316

3. FAIR VALUE MEASUREMENTS (Continued)

Fair value measurement at December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,739,257	$ -	$ -	$ 8,739,257
Investments using NAV as practical expedient				21,879,592
Total investments, at fair value (a)				$ 30,618,849

(a) In accordance with Subtopic 820-10 certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use Net Asset Value Per Share Practical Expedient

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share practical expedient as of December 31, 2017and 2016, respectively.

	2017	2016	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:					
Balanced asset allocation	$ -	$ 1,619,900	N/A	Daily	N/A
Fixed income	$ -	$ 4,802,326	N/A	Daily	N/A
Large U.S. equity	$ -	$ 10,630,542	N/A	Daily	N/A
Small/mid U.S. equity	$ -	$ 4,826,824	N/A	Daily	N/A

Pooled Separate Accounts

Balanced asset allocation: funds are managed to seek to achieve long-term return through capital appreciation and current income by investing in a combination of equity and fixed income securities.

Fixed income: fund is managed to add 150 bps of annualized excess return over a broad U.S. bond market index over a full market cycle (three to five years) by emphasizing relative-value based sector allocation, research-based security selection, and modest duration and yield curve positioning.

Large U.S. equity: funds are managed to seek appreciation of capital and to outperform market indexes by investing in large capitalization U.S. equity securities.

Small/mid U.S. equity: funds are managed to seek capital appreciation and to outperform the market indexes by maintaining a diversified portfolio of small and mid-capitalization stocks that are currently undervalued, yet poised to outperform.

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY

The Plan was invested in a fully benefit-responsive income contract with Prudential Retirement Insurance and Annuity Company (PRIAC) from January 1, 2016 until April 3, 2017. PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These contracts are considered evergreen group annuity products with guarantees backed by the full faith and credit of PRIAC.

Staring on April 3, 2017, the Plan is invested in a fully-benefit-responsive income contract with Lincoln National Life Insurance Company (LNLIC). LNLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These contracts are considered an annuity with guarantees backed by the full faith and credit of LNLIC.

5. GUARANTEED INCOME FUND WITH INSURANCE COMPANY (Continued)

Because the guaranteed income fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The guaranteed income fund is presented on the face of the statement of net assets available for benefits at contract value which approximates fair value as there is no market value adjustment upon a discontinuance. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the annuity contracts at December 31, 2017 and 2016 was $4,649,153 and $6,302,595, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.0 percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Generally there are no events that could limit the ability of the Plan to transact at contract value. The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. At December 31, 2017 and 2016, there are no unfunded commitments and investments are redeemed on a daily basis.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments were managed by Prudential Bank & Trust F.S.B. and Prudential Retirement Insurance and Annuity Company (Prudential) who acted as trustees from January 1, 2016 until April 3, 2017 as defined by the Plan and, therefore, transactions qualify as party-in-interest transactions. Fees paid to Prudential by the Plan for administrative services amounted to $330 and $510 for the years ended December 31, 2017 and 2016, respectively.

Plan investments were managed by Fidelity Management Trust Company Trust Company who acts as trustee from April 3, 2017 to December 31, 2017 ad defined by the Plan and, therefore, transactions qualify as party-in-interest transactions. Fees paid to Fidelity by the Plan for administrative services amount to $3,747 for the year ended December 31, 2017.

In addition, the Plan issues notes receivable to participants, which are secured by the balances in the participants' account. Therefore, these related transactions qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2014, that the Plan and the related trust is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through July 24, 2018, which is the date the financial statements were available to be issued.
