## Note 1 - Description of the Plan and Significant Accounting Policies

The following description of GolfTEC 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan established April 1, 1997 and amended on September 1, 2017. The Plan is available to substantially all employees age 21 years or older. The entry date for eligible participants is on the first day of each Plan quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of GolfTEC Management LLC (the "Company") administers the Plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal") serves as trustee, manages Plan assets, and maintains the Plan's records. Principal offers Plan participants a variety of investment options through various investment options at the direction of the participants.

### Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

### Contributions

Participants may make before-tax and after-tax Roth contributions from 1% to 50% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. The Plan allows for in-plan Roth rollovers. Employee contributions to the Plan are made through regular payroll deductions.

Effective September 1, 2017, the Plan was amended to include a one-time automatic enrollment of all inactive eligible employees at a 3% deferral rate and an increase of active participants to a 3% deferral rate. In addition, the Plan was amended to include an automatic annual escalation of 1% up to a maximum of 10% for all active participants on September 1 of each year, beginning in 2018. Participants have the option to opt out of the automatic enrollment and annual increase.

Each payroll period, the Company makes a matching contribution of 50% of elective deferrals up to 1.5% of eligible compensation. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. Employer discretionary contributions are allowed by the Plan; however, none have been made.

## Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

| Years of Service | Vested Interest |
|---|---|
| Less than 1 | 0% |
| 1 | 25% |
| 2 | 50% |
| 3 | 75% |
| 4 | 100% |

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fourth anniversary date of the first day of the Plan year during which the participant entered the Plan) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have a maximum of two loans outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest at rates that range from 4.25% to 5.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through October 2022. Loans have a maximum term of five years. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest).

Payment of Benefits

Upon death, disability, retirement (the age of 65), or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

## Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits (continued)

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed upon a distribution event. Accounts with balances of $1,000 to $5,000, and where the participant has not elected to receive his or her vested interest under any form or payment allowed under the Plan, will be paid in a direct rollover to an individual retirement account designated by the Plan administrator. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. Forfeitures can be used to pay Plan expenses or reduce employer contributions or shall be allocated to participants in the same manner as the employer's contribution. Forfeitures in the amount of $29,028 were applied to pay Plan expenses and reduce employer contributions during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $366 and $453, respectively, and was recorded in the Principal Lifetime Hybrid 2040 Fund.

Valuation of Investments and Income Recognition

Investments are recorded at fair value and contract value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The common collective trusts typically invest in a variety of investment contracts, including traditional guaranteed investment contracts, security-backed investment contracts, and separate account guaranteed investment contracts. The common collective trusts are valued at net asset value ("NAV") of units of the common collective trusts. The NAV is used as a practical expedient to estimate fair value. These accounts have no redemption restrictions or unfunded commitments as of December 31, 2017 and 2016.

The Plan also invests in a fully benefit-responsive investment contract through a guaranteed investment contract. Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value.

## Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Principal are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, four investments accounted for 68% of investment income. At December 31, 2017 and 2016, five and four investments accounted for 76% and 69% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

## Note 2 - Assets Certified by the Trustee

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

## Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

| Description | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual funds | $ 896,849 | $ - | $ - | $ 896,849 |
| Investments measured at NAV* | | | | 4,258,444 |
| Total investments at fair value | $ 896,849 | $ - | $ - | $ 5,155,293 |

## Note 3 - Fair Value Accounting (continued)

As of December 31, 2016:

| Description | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual funds | $ 556,573 | $ - | $ - | $ 556,573 |
| Investments measured at NAV* | | | | 3,112,306 |
| Total investments at fair value | $ 556,573 | $ - | $ - | $ 3,668,879 |

*Investments measured at NAV have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation to total investments at fair value.

There were no changes to the valuation techniques used during the period.

## Note 4 - Investment Contracts with Insurance Company

In 2013, the Plan entered into a fully benefit-responsive investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code ("IRC") or the failure of the trust to be tax-exempt under Section 501(a) of the IRC,
2) Premature termination of the contracts,
3) Plan termination or merger,
4) Changes to the Plan's prohibition on competing investment options, or
5) Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

## Note 4 - Investment Contracts with Insurance Company (continued)

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1) An uncured violation of the Plan's investment guidelines,
2) A breach of material obligation under the contract,
3) A material misrepresentation, and
4) A material amendment to the agreements without the consent of the issuer.

## Note 5 - Income Taxes

On March 31, 2014, the IRS issued an opinion letter indicating that the prototype Plan document adopted by the Plan, as then designated, qualified under Section 401(a) of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements. The Plan has been amended since the date of this letter; however, the Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

## Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

## Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, a guaranteed interest contract, and common collective investment trusts, which are managed by Principal. Principal is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

## Note 9 - Reconciliation for Form 5500

Contributions and receivables for financial reporting purposes differ from the amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer match contributions paid to the Plan subsequent to year-end.
