Report on the Financial Statements

We have audited the accompanying financial statements of Ross Industries, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were performed for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) at December 31, 2017 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Plan Description and Basis of Presentation

The following description of the Ross Industries, Inc. Employee Stock Ownership Plan and Trust (the "Plan" or "ESOP") provides only general information. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined contribution plan sponsored by Ross Industries, Inc. (the "Company") and was established in February 1999. The Plan covers all eligible classes of employees of the Company who have completed one year of service and are age 21 or older. An employee will have completed one year of service if, at the end of 12 consecutive months of employment with the Company, they have been credited with 1,000 hours of service.

The Plan consists of an employee stock ownership component and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended, ("ERISA"). The Plan's ESOP Committee is responsible for oversight of the Plan.

The provisions of the Plan agreement provide for the common stock acquired to be maintained in an unallocated Company stock account. Under the provisions of the Plan, contributions of common stock of the Company and cash may be made by the Company at the sole discretion of the Company's Board of Directors, subject to the maximum allowable under applicable provisions of the Internal Revenue Code. In addition, the Company is obligated to make contributions equal to the amount necessary to make its regularly scheduled payments of principal and interest due on the loan payable to related party (see Note 5) during the period for which the note is outstanding.

Voting Rights

The trustees of the Plan will vote all Company stock held by the Plan as a part of the Plan assets. Participants, or their respective beneficiary, direct the trustees as to the manner in which voting rights on shares of Company stock, which are allocated to participants account, are to be exercised (i) with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction, and (ii) with respect to all corporate matters if, at the time of the vote thereon, the Company stock is a "registration-type" class of securities.

Put Option

If the Company stock distributed to a participant, or their respective beneficiary, cannot be readily sold, then the participant or beneficiary will have two put options to the Company. The participant or beneficiary may require the Company to purchase the stock at a price equal to its most recent fair value, and to pay the participant or beneficiary for the stock in cash or in installments over a period of time (not in excess of five years). The first 60 day put option period will begin on the day following the date the participant's or beneficiary's Company stock is distributed, and if not exercised, the second 60 day option period will begin as of the first day of the fifth month of the plan year next following the date the participant's or beneficiary's Company stock was distributed.

Contributions

The Plan provides for allocation of Company contributions and released shares to participants based on the proportion that each participant's annual salary (not to exceed $270,000) for the year bears to the total annual salary of all participants for such year. For the year ended December 31, 2017, Company contributions were $661,235. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with an allocation of released shares, dividend and interest income and the Plan's earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Vesting is based on years of service and occurs over a two to six year period, at which time, the participant becomes 100 percent vested. For purposes of vesting, service is measured from the later of the date of hire or the effective date of the Plan. The Plan provides for 100 percent vesting upon death or disability and normal retirement (provided the participant has completed five years of Plan participation upon retirement). On December 4, 2006, the Plan's vesting period was changed, as described above, while vesting prior to January 1, 2007 was based on a three to seven year period, at which time, a participant had become fully vested.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. However, any participant age 55 or older, who has been in the Plan for ten years, can make a diversification election up to 25 percent of their stock each year for five years and 50 percent in the final year. The portion of a participant's Company stock balance eligible for diversification is 25 percent (50 percent in the final year) reduced by any shares previously distributed. During the year ended December 31, 2017, the remaining active participants repurchased 4,229 distributed shares at prices determined from the independent appraisal aggregating $771,908.

Forfeited Accounts

The non-vested portion of a participant's account balance in the Plan shall be forfeited upon the employee's separation from service and shall be allocated to all eligible participants at year end as a percentage of their eligible compensation. Forfeited amounts allocated to eligible employees amounted to approximately $28,529 for the year ended December 31, 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are in the form of interest bearing cash and the Company's Class A ESOP Stock. Since the Company is closely held, and thus has no public market for its ownership interests, an appraisal is performed by an independent consulting firm according to guidelines established by the Department of Labor in Regulation 29 CFR Part 2510, and in conformity with appraisal practices promulgated by the American Society of Appraisers in the Principles of Appraisal Practice and Code of Ethics, and the Uniform Standards of Professional Appraisal Practice. This independent consulting firm has determined the fair value of the Company's Class A ESOP Stock to be $33,490,230 and $28,861,498 at December 31, 2017 and 2016, respectively. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with the policy of stating investments at fair value, the Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the unrealized gains and appreciation on the investments.

Purchases and sales of the Company's Class A ESOP Stock are recorded at the most recent fair value determined by an independent consulting firm. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Benefit Payments

Benefits are recorded when paid.

Evaluation of Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through July 31, 2018, the date the financial statements were available to be issued.

3. Ross Industries, Inc. Class A ESOP Stock

The Plan's investment in the Ross Industries, Inc. Class A ESOP Stock is comprised of the following:

	December 31, 2017			
	Number of Shares	1999 Original Cost	2010 Original Cost	Fair Value

Total	158,111	$ 5,451,638	$ 6,014,319	$ 28,861,498

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

Interest bearing cash - Valued at amortized cost, which approximates fair value.

Ross Industries, Inc. Class A ESOP Stock - The fair value of Ross Industries, Inc. Class A ESOP Stock was $216.63 and $182.54 per share at December 31, 2017 and 2016, respectively, as determined by an independent appraiser and therefore the value of the Class A ESOP Stock is considered a Level 3 value due to the significant unobservable inputs inherent in a single independent appraisal. This appraisal was based upon an income valuation technique. The appraiser took into account historical and projected cash flow, net income, return on assets, return on equity, and estimated fair value of the Company's assets and liabilities.

The valuation process involves the selection of an appraiser under contract for a term of one year with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The Trustees of the Plan review and approve this report, on an annual basis.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 17,291	$ -	$ -	$ 17,291
Ross Industries, Inc. Class A ESOP Stock	-	-	33,490,230	33,490,230
Total	$ 17,291	$ -	$ 33,490,230	$ 33,507,521

	Assets at Fair Value as of December 31, 2016

Ross Industries, Inc. Class A ESOP Stock	-	-	28,861,498	28,861,498
Total	$ 3,097	$ -	$ 28,861,498	$ 28,864,595

The following table sets forth a summary of changes in fair value of the Plan's Level 3 asset for the year ended December 31, 2017:

	Ross Industries, Inc. Class A ESOP Stock
Balance, beginning of year	$ 28,861,498

Distribution of shares to participants (7,742 shares)	(1,413,365)
Distributed shares re-purchased by active participants	771,908
Balance, end of year	$ 33,490,230

5. Loan Payable to Related Party

The ESOP purchased 100,000 shares of the Company's Class A ESOP Stock and financed the purchase with a loan from the Company in the amount of $8,500,000, upon establishment of the Plan. During the year ended December 31, 2010, the ESOP purchased an additional 100,000 shares of the Class A ESOP Stock and financed the purchase with a loan from the Company in the amount of $6,400,000, pursuant to a promissory note executed at the closing with a ten year term. The note bears interest at the rate of 3.35 percent per annum and is to be paid in annual installments of $600,000. The ESOP can prepay such note or any portion thereof without penalty prior to its maturity. Interest expense paid to the Company for the year ended December 31, 2017 totaled $61,235.

Scheduled maturity of the loan is as follows for the years ending December 31:

2018	$ 600,000
2019	600,000
Total	$ 1,200,000

6. Related Party Transactions and Party In Interest Transactions

The Plan invests in the Company's Class A ESOP Stock. The Company is the Plan sponsor as defined by the plan document and, therefore, these transactions qualify as party in interest transactions. Purchases and sales of the investment are transacted at fair value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party in interest transactions under ERISA and applicable exemptions promulgated thereunder.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. The Company may direct that either (a) benefits be distributed to participants in any manner permitted by the Plan as soon as practicable; or (b) the trust created by the Plan be continued and benefits be distributed to the participants or their beneficiaries as if the Plan had not terminated. A complete discontinuance of contributions by the Company shall constitute a termination.

8. Tax Status

The IRS has determined and informed the Company by a letter dated October 11, 2007, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in the Company's Class A ESOP Stock, which is exposed to various risks, such as interest rates, market and credit. Due to the level of risk associated with investments and the level of uncertainty related to changes in the value of the investment it is at least reasonably possible that changes in the near term would materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
