Fahlgren, Inc. Retirement Savings Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Fahlgren, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Fahlgren, Inc., and its Subsidiaries (collectively the "Company"). The Plan is a qualified trust under Sections 401(a) and 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan after completing six months of eligibility service (based on elapsed time) and attaining the age of 19. Employees may join the Plan on January 1, April 1, July 1, or October 1 following completion of eligibility.

Contributions

Each year, participants may elect to contribute up to 75% of pre-tax annual and 25% of after-tax compensation as defined by the Plan, subject to Internal Revenue Code limits. Participants may also make qualified rollover contributions.

The Company may make a matching contribution on the participant's behalf. The maximum amount of this matching contribution is equal to 50% of the first 6% of the participant's pre-tax contribution, up to a maximum of 3% of the annual compensation limit. The Company may make a discretionary profit sharing contribution. The Company did not make a profit sharing contribution for the plan years ended December 31, 2017 and 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of the Company's discretionary profit-sharing contribution and plan earnings. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions and their allocated share of the matching contributions into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit-sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service or upon death.

Fahlgren, Inc.
Retirement Savings Plan

Notes to Financial Statements

Financial Hardship Withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need, as defined by the Plan.

Loan Provisions

Participants may apply for a loan from their account under the Plan. Certain legal restrictions impose limits on the amount of the loan and repayment terms. The minimum loan amount is \$1,000 and up to a maximum loan amount equal to the lesser of 50% of their vested account balance or \$50,000.

The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% on the last day of the previous quarter. A participant is granted one loan during any one-year period. Only one loan may be outstanding at a time. Generally, the participant's loan must be repaid, ratably through monthly payroll deductions, within five years, unless the loan is for the purchase of a primary residence.

Payment of Benefits

Benefits are recorded when paid. The participant's entire account balance becomes payable upon death, disability, or retirement in the form of a lump sum distribution or an annuity. Normal retirement age is 65; early retirement age is 55 with three years of service. In-service withdrawals are permitted for participants who have reached age 59½.

For termination of service due to other reasons, a participant may receive the value of the vested interest of his or her account as a lump sum distribution or in the form of an annuity.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$13,329 and \$14,538, respectively. These accounts will be used to reduce future employer contributions. During 2017 and 2016, employer contributions were reduced by \$8,773 and \$1,277 from forfeited nonvested accounts, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, participants will become 100% vested in employer contributions credited to their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Fahlgren, Inc.
Retirement Savings Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the Statements of Changes in Net Assets Available for Plan Benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Administrative Fees

The Plan paid administrative expenses of \$851 and \$1,970 to Bank of America, N.A. for the years ended December 31, 2017 and 2016, respectively. Certain professional fees for the administration and audit of the Plan are either paid by the Plan and rebated back to the Plan by the trustee or paid by the Company.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances, plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Recent accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value (NAV) per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for Plan benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for plan years beginning after December 15, 2016. The Plan adopted this ASU during the year ended December 31, 2017, with retrospective application to the year ended December 31, 2016.

Reclassification

Certain 2016 amounts have been reclassified to conform to the 2017 financial statement presentation.

Subsequent Events

The Plan has evaluated events and transactions that occurred between January 1, 2018 and July 31, 2018 which is the date that the financial statements were available to be issued for potential recognition or disclosure in the financial statements.

3. Summary of Financial Data Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Bank of America, N.A. has certified as complete and accurate the following information at December 31, 2017 and 2016 including the comparable information in the accompanying supplemental schedule:

<i>December 31,</i>	2017	2016
Cash, noninterest-bearing	\$ 75	\$ 100
Investment, at fair value	19,080,602	16,480,912
<i>Year Ended December 31,</i>	2017	2016
Net appreciation in fair value of investments	\$ 1,291,381	\$ 183,952
Interest on notes receivable from participants	3,906	3,455
Dividends	1,318,185	936,287
Investment Income	\$ 2,613,472	\$ 1,123,694

As directed by the plan administrator, no auditing procedures have been performed on the above certified information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

Fahlgren, Inc.

Retirement Savings Plan

Notes to Financial Statements

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common and collective trust: This fund is composed primarily of fully benefit-responsive investment contracts and is valued at the net asset value ("NAV") of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The fund invests in conventional and synthetic investment contracts issued by various companies and institutions, with the objective of providing a high level of return that is consistent while also providing stability of investment return, preservation of capital, and liquidity to pay plan benefits of its retirement plan investors. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Fahlgren, Inc.
Retirement Savings Plan

Notes to Financial Statements

The Plan's assets are held by the trustee of the Plan, Bank of America, N.A., which provides recordkeeping, investment services, and executes transactions for the Plan. As such, Bank of America N.A. is considered a party-in-interest.

Administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan. Administrative expenses for certain trustee fees are paid directly by the Company at no cost to the Plan.

6. Plan Risks and Uncertainties

The Plan invests in various investment options. The underlying investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Income Tax Status

Although the Plan has not requested determination from the Internal Revenue Service, the master prototype plan from which the Plan was drafted has received a favorable determination letter dated March 31, 2014, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Operational Defect

In 2017, it was discovered that certain deferrals for two participants were not withheld and contributed to the Plan, along with the related employer contributions. The corrective contributions, including lost earnings, of \$17,818, were included in the financial statements in contributions receivable as of December 31, 2017.
