NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of The Artesyn Embedded Technologies, Inc. 401(k) Plan (the Plan), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 2013 by Artesyn Embedded Technologies, Inc. (the Company), to provide benefits to eligible employees, as defined in the plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2016, the Plan changed its name from The Artesyn Technologies, Inc. 401(k) Plan, to The Artesyn Embedded Technologies, Inc. 401(k) Plan.

In November 2013, Emerson Electric Co. (Emerson) completed the divestiture of a 51% controlling interest in the Company, formerly Embedded Computing & Power. As a result of the divestiture, the Company established the Plan effective December 2, 2013, and plan assets related to Emerson employees employed by the Company were transferred into the Plan from The Emerson Employee Savings and Investment Plan (the Emerson Plan) in January 2014. In conjunction with this transaction, certain contribution benefits continued for a transitional period under the Plan (Note 4).

Administration – The Company has appointed an Investment Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with Vanguard Fiduciary Trust Company (Vanguard) to act as the trustee, and an affiliate of Vanguard to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Plan.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts may first be used to pay plan administrative expenses and then used to reduce employer contributions.

Investment valuation and income recognition – The investments are reported at fair value. The Plan's trustee, Vanguard, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Income taxes – The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events – The Plan has evaluated subsequent events through July 24, 2018, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation technique used needs to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation technique used for assets measured at fair value. There have been no changes in the technique used at December 31, 2017 and 2016.

Registered investment companies: Valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 100,062,766	$ -	$ -	$ 100,062,766
Total assets at fair value	$ 100,062,766	$ -	$ -	$ 100,062,766

	2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 87,166,721	$ -	$ -	$ 87,166,721
Total assets at fair value	$ 87,166,721	$ -	$ -	$ 87,166,721

NOTE 3 – RELATED-PARTY TRANSACTIONS

Certain plan investments are managed by an affiliate of Vanguard, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPATION AND BENEFITS

Participant contributions – Participants may elect to have the Company contribute their eligible pre-tax or after-tax compensation (as Roth contributions) to the Plan up to the amount allowable under the plan document and current income tax regulations. The Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 6% of eligible pre-tax compensation, unless the employee affirmatively elects otherwise. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable or taxed compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions – The Company is allowed to make contributions in the form of discretionary profit sharing and employer matching contributions, as defined in the Plan and as approved by the Board of Directors. There were no discretionary profit sharing contributions during 2017.

In 2017, the Company provided a matching contribution to all eligible participants equal to 50% of the first 6% of compensation deferred.

In addition, the Plan provides for certain transition contributions to certain employees who were participants under the Emerson Plan as follows:

- Former employees of Motorola, who were eligible to receive the transition contribution from the Motorola Traditional Pension Plan in the Emerson Plan on November 19, 2013, will continue to receive the contribution of 5% of compensation, paid quarterly as soon as administratively possible after the end of the quarter, through December 31, 2017. Participants must be employed on the last day of each quarter to receive the contribution.

- Former employees of Motorola, who were eligible to receive the transition contribution from the Motorola Portable Pension Plan in the Emerson Plan on November 19, 2013, will continue to receive the contribution of 2% of compensation, paid quarterly as soon as administratively possible after the end of the quarter, through December 31, 2017. Participants must be employed on the last day of each quarter to receive the contribution.

Vesting – Participants are immediately vested in their contributions. Participants are fully vested in employer contributions allocated to their accounts after five years of credited service.

Participant accounts – Each participant's account is credited with the participant's contribution, plan earnings or losses, and an allocation of the Company's contributions, if any. Allocation of the Company's contribution is based on participant contributions or eligible compensation, as defined in the Plan.

Payment of benefits – Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. Partial withdrawals or installment payments are allowed for required minimum distributions under Code Section 401(a)(9). The Plan allows for the automatic distribution of participant vested account balances that do not exceed $5,000.

Notes receivable from participants – The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the participant's vested balance. Such notes receivable bear interest at the prime rate plus 1% on the date the notes receivable are issued, and must be repaid to the Plan within a five-year period, unless the proceeds are used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such notes receivable are established by the Committee. Outstanding notes receivable at December 31, 2017, carry interest rates ranging from 4.25% to 5.25%.

NOTE 5 – CERTIFIED INFORMATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of investments, dividends, and interest (which includes interest income from notes receivable) reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2017.

NOTE 7 – PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
