#### Note 1 – Description of Plan

The following description of the Pacific Fibre Products, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

**General** – The Plan is a 401(k) profit sharing plan covering substantially all employees of Pacific Fibre Products, Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility** – Employees not covered by a collective bargaining agreement, and 18 years of age or older, may make salary deferrals into the plan. Employees who meet the criteria for the employee deferral, and who have completed one year of service are eligible for profit sharing contributions, in accordance with plan provisions.

#### Contributions

Participant contributions – Each year, participants may contribute between 1–100% of eligible compensation, as defined in the Plan, subject to the annual limit allowable under the Internal Revenue Code. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

*Employer match* – The Company may make discretionary matching contributions up to \$0.10 multiplied by the number of hours of service for which the participant made an elective deferral, limited to 80 hours per pay period. For the years ended December 31, 2017, the Company made matching contributions of \$21,401.

*Employer profit sharing* – At the attainment of one year of service and regardless of the Company's profit status, the Company may, at its discretion, make a profit sharing contribution. For the year ended December 31, 2017, this profit sharing contribution was 4% of each participant's compensation (excluding bonuses and overtime) and totaled \$243,345.

Contributions are subject to regulatory limitations.

**Participant accounts** – Each participant's account is credited with the participant's voluntary contribution plus employer match contributions and an allocation of the Company's contributions and Plan earnings. Allocations are based on the participant's earnings or account balances as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### Note 1 – Description of Plan (continued)

**Vesting** – Participants are immediately vested in their voluntary salary reduction contributions plus earnings thereon, as well as in their rollover contributions to the Plan. Vesting in the Company match and profit sharing contributions is based on years of continuous service or certain other events. The vesting percentage schedules for Company matching and profit sharing contributions are as follows:

Company Match	Vested Percentage
Years of service	
Less than 1	0%
1 year (but less than 2)	20%
2 years (but less than 3)	40%
3 years (but less than 4)	60%
4 years (but less than 5)	80%
5 or more	100%
	Vested
Profit Sharing	Percentage
Years of service	
Less than 2	0%
2 years (but less than 3)	20%
3 years (but less than 4)	40%
4 years (but less than 5)	60%
5 years (but less than 6)	80%
6 or more	100%

Participants are 100% vested in all Company contributions upon reaching age 65 while employed by the Company, or in the event of disability. Participants also become 100% vested in all Company contributions in the event the Plan terminates.

**Notes receivable from participants** – Participants may borrow from their accounts up to a maximum equal to the lesser of 50,000 or 50% of their vested account balance, as defined by the loan policy. The loan is secured by the balance in the participant's account and bears interest at an amount established by the Plan administrator, which is currently the prime rate. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed ten years. Principal and interest are to be paid ratably through payroll deductions. As of December 31, 2017, the rates of interest on outstanding loans ranged from 3.25 - 4.25% with various maturities through April 2025.

#### Note 1 – Description of Plan (continued)

**Payment of benefits** – Upon retirement, termination of services, disability or death, participants may elect to receive the vested amount of their accounts in (1) a joint and survivor annuity, (2) a joint and contingent survivor annuity, (3) a certain life annuity, (4) an annuity for a period certain, (5) periodic payments, (6) a lump sum, or (7) a partial distribution provided their account balance is in excess of \$5,000. Account balances less than \$5,000 will automatically be distributed in a lump sum.

**Forfeitures** – All forfeitures of non-vested employer contributions made on behalf of participants who have severed employment with the Company will be used by the Company to fund a portion of employer contributions. No forfeitures were available as of December 31, 2017 and 2016. Forfeitures of \$7,791 were allocated towards profit sharing and matching contributions during the year ended December 31, 2017.

#### Note 2 – Summary of Significant Accounting Policies

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Investment valuation** –The investments are reported at fair value and contract value. The Plan's custodian, Standard Insurance Company, certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date.

Units held in the pooled separate account (PSA) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The PSA has no unfunded commitments and can be redeemed daily.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

#### Note 2 – Summary of Significant Accounting Policies (continued)

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Notes receivable from participants** – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of benefits – Benefits are recorded when paid.

**Expenses** – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through July 24, 2018, which is the date the financial statements were available to be issued.

#### Note 3 – Deposit Administration Contract with Standard Insurance Company

The Plan's Stable Asset Fund II is a benefit-responsive deposit administration group annuity contract with Standard Insurance Company. This account is credited with interest at the rate specified in the contract and charged with participant withdrawals. As the deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit administration group annuity contract. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, less applicable penalties.

#### Note 3 – Deposit Administration Contract with Standard Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting rates on the investment contract are based on a formula agreed upon with the issuer, but may not be less than 0%. Interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) not abiding by state and federal law, (2) not rendering the performance necessary to comply with the terms of the contract, (3) balance of investment funds falls below \$25,000, (4) the Internal Revenue Service disqualifies the Plan, or (5) the Plan has not been adopted within a reasonable period of time.

#### Note 4 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

#### Note 6 – Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of investments and interest income, excluding interest income on notes receivable from participants, reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the supplemental schedule of assets (held at end of year) as of December 31, 2017, excluding notes receivable from participants.

#### Note 7 – Party-in-Interest Transactions

As of December 31, 2017 and 2016, certain underlying Plan investments were units of sub-accounts held in a pooled separate account managed by Standard Insurance Company, the custodian and, therefore, purchases and sales of these investments qualify as party-in-interest transactions. Indirect fees netted from investment earnings for recordkeeping services were approximately \$41,000 for the year ended December 31, 2017. In addition, CFP Financial Advisors, receives payment from The Standard Insurance Company for their services as investment advisor to the plan.

#### Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

#### Note 9 – Reconciliation to Form 5500

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500 as of December 31:
