Note 1. Plan Description

The following brief description of the Eclipse Advantage, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was adopted effective January 1, 2014. The Plan is a defined contribution plan covering all employees of Eclipse Advantage, LLC and Everclear Cleaning Solutions, LLC (together, the Company) who are age 18 or older and have provided at least three months of employment. A minimum of 1,000 hours is required for part-time, temporary or seasonal employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides for automatic enrollment at a deferral rate of 2 percent of compensation, as defined, unless an eligible employee elects otherwise.

Contributions and rollovers: Each year, participants may elect to make contributions on a pre-tax basis or post-tax basis, as defined by the Plan, not to exceed the maximum amount allowed by law, as defined. Contributions are subject to IRS pre-tax contribution limits. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). In addition, participants age 50 or older may contribute catch-up contributions to the Plan. The Company may make a discretionary matching contribution equal to a uniform percentage of the participants' salary deferrals. Participants' contributions are recognized when withheld. The Company made no discretionary contributions during 2017.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company discretionary matching contribution, if any, and an allocation of plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contributions plus actual earnings thereon is based on years of service. A participant vests 20 percent for each year of service and is 100 percent vested after five years of service.

Investment options: Upon enrollment in the Plan, participants may direct their contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Payment of benefits: Upon termination of service for any reason, a participant may elect to receive a lump sum or periodic payments, or to leave the funds in the Plan's trust until a later date, providing the participant's account balance is greater than $5,000.

Forfeited accounts: Upon termination of employment, a participant's non-vested portion of Company contributions and related earnings thereon are forfeited. At December 31, 2017 and 2016, forfeited non-vested accounts totaled $695 and $694, respectively. Forfeited non-vested accounts are used to offset administrative expenses and future company contributions.

Notes receivable from participants: Notes receivable from participants are not permitted by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Other income: Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S), the plan record keeper and an affiliate of the trustee, may receive revenue sharing payments from mutual funds in which the Plan's assets are invested. Effective January 1, 2014, the administrative services agreement between the Plan and MLPF&S provides that to the extent revenue sharing payments received by MLPF&S exceed administrative fees charged to the Plan, the excess will be credited to the Plan. For the year ended December 31, 2017, $130,608 was earned by the Plan under this agreement, net of administrative expenses, all of which is available to pay future administrative expenses or to allocate to participants.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through August 6, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Newport Trust Company, the Plan Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income:

	2017	2016
Shares of registered investment companies	$ 1,566,441	$ 1,107,784
Net appreciation in fair value of investments	$ 99,908	
Dividend income	$ 60,095	
Other income	$ 130,608	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end investments that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Shares of registered investment companies	$ 1,566,441	$ -	$ -	$ 1,566,441
Total assets at fair value	$ 1,566,441	$ -	$ -	$ 1,566,441

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Shares of registered investment companies	$ 1,107,784	$ -	$ -	$ 1,107,784
Total assets at fair value	$ 1,107,784	$ -	$ -	$ 1,107,784

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain plan investments are shares of registered investment companies managed by Newport Trust Company, the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to Newport Trust Company for investment management and administrative services amounted to $34,756 for the year ended December 31, 2017.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan and are not included in these financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

Effective January 1, 2014, the Plan adopted a volume submitter plan sponsored by Newport Trust Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Company believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
