TRW Automotive 401(k) Savings Plan

Notes to Financial Statements

December 31, 2017

1. Description of the Plan

The following description of the TRW Automotive 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined-contribution benefit plan designed to provide eligible employees of a participating plant, division, subsidiary, or affiliate of TRW Automotive U.S. LLC, the sponsor of the Plan (as applicable, the Company or TRW), with a vehicle to systematically save funds to supplement their retirement benefits. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Salaried or nonunion hourly employees of the specified locations in the plan document are eligible to participate in the Plan on the first day of employment with the Company.

Employees are eligible to participate in the Plan for purposes of receiving the Company match after completing one year of service.

Employee Contributions

Each year, participants may contribute a percentage of annual compensation on a pretax and/or Roth basis, not to exceed the applicable Internal Revenue Code (IRC) limitations. Participants may also elect to contribute up to 10% of after-tax compensation, as defined in the Plan. Total participant contributions are limited to \$18,000 for 2017 and 2016. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. A participant who was 50 years old on or before the last day of the plan year-end was eligible to make an additional catch-up contribution of \$6,000 for 2017 and 2016.

Upon enrollment, a participant may direct contributions in 1% increments to any of the Plan's investment options. Participants may change their investment options or transfer assets between investment options at any time during the year.

1. Description of the Plan (continued)

Employer Contributions

The Company matches an amount equal to 100% of the participant's pretax contribution up to 6% of the participant's compensation. Matching contributions are made in cash and allocated based on the participant's elective deferrals.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, if applicable, an allocation of administrative expenses and the earnings on invested contributions. Allocations of administrative expenses are based on the participant's account balance. The benefit to which a participant is entitled cannot exceed the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon.

Forfeitures

Nonvested employer contributions of employees who terminated prior to January 1, 2011, became forfeitures of the Plan and will be used to reduce future employer contributions or administrative expenses. Forfeited funds are transferred to the Fidelity Managed Income Portfolio II fund when a nonvested employee takes a distribution. During 2017, \$3,337 of forfeited funds were used to reduce employer contributions. Forfeiture amounts were also used to pay administrative expenses during 2017. At December 31, 2017 and 2016, \$1,379 and \$3,324, respectively, of forfeited funds were available.

Participant Loans

Participants may borrow an amount limited to a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime interest rate on the last business day of the preceding calendar month plus one percentage point. Principal and interest are paid ratably through regular payroll deductions.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Payment of Benefits

Upon termination of service due to retirement, death, or disability, a participant or the participant's beneficiary may receive a lump-sum amount equal to the vested value of the participant's account. Financial hardship withdrawals and in-service withdrawals are permitted as defined by the Plan.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

In-service withdrawals are available either from the participant's after-tax contributions and/or rollover contributions or upon attainment of age 59 1/2 under certain provisions of the Plan.

Administrative Expenses

Certain administrative expenses of the Plan related to loan setup, withdrawals, and qualified domestic relations orders are paid by the participants. All other administrative expenses are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts, and distributions to participants and beneficiaries will be made at such time after termination of the Plan as provided by the plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan had no excess contribution payable for the 2017 plan year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncement

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical expedient in accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments.

The Plan adopted ASU 2018-09 for the year ended December 31, 2017. In connection with the adoption, the Plan has prospectively included certain investments in the fair value hierarchy disclosure that were previously excluded from such disclosure because those investments previously used the net asset value per share practical expedient.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held, and notes receivable from participants at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest, dividends and interest income on notes receivable from participants for the year ended December 31, 2017, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

The inputs to valuation techniques used to measure fair value are prioritized into a three-level hierarchy. This hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs as follows:

Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 – Inputs are other than quoted prices that are observable for the asset or liability, either directly or indirectly.

Level 3 – Unobservable inputs are supported by little or no market activity. The unobservable inputs represent the Company's best assumptions of how market participants would price the assets or liabilities.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following valuation techniques and inputs were used to determine the fair value of investments recorded at fair value in the statements of net assets available for benefits.

Mutual funds, including those held within participant's self-directed brokerage accounts: Valued at quoted market prices, which represent net asset value (NAV) of shares.

Common/collective trust fund: Valued at NAV provided by the administrator of the fund.

Common stock (within self-directed brokerage accounts): Valued at quoted market prices.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 907,640,083	\$ —	\$ —	\$ 907,640,083
Self-directed brokerage accounts	25,449,737	—	—	25,449,737
Common/collective trust fund	53,724,910	—	—	53,724,910
Total	\$ 986,814,730	\$ —	\$ —	\$ 986,814,730

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 762,939,372	\$ —	\$ —	\$ 762,939,372
Self-directed brokerage accounts	18,977,214	—	—	18,977,214
Total	\$ 781,916,586	\$ —	\$ —	\$ 781,916,586

Common/collective trust fund measured at net asset value ^(a)	54,894,488
Total investments at fair value	\$ 836,811,074

^(a)The common/collective trust fund is designed to preserve principal and accumulate earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

5. Related-Party Transactions

Certain plan investments are units of participation in a common/collective trust fund and shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

6. Risks and Uncertainties

The Plan allows for investments in various investment securities. Investment securities are exposed to various risks such as interest rate, foreign currency exchange, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Income Tax Status

The Plan has received a determination letter from the IRS dated December 12, 2013, stating that the Plan is qualified under Section 401(a) of the IRC and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

Management evaluated subsequent events for the Plan through August 8, 2018, the date the financial statements were available to be issued.

In April 2018, the Plan sponsor executed the sale of the Body Control Systems (BCS) business unit. Active plan participants who were part of the BCS entities sold had their participant accounts transferred in accordance with the successor plan on May 1, 2018 for a total amount of approximately \$79 million.

On May 3, 2018, the Plan was amended to eliminate the requirement of a year of service in order to become eligible to receive the Company matching contribution, effective as of the payroll period commencing April 30, 2018.
