NOTES TO THE FINANCIAL STATEMENTS
OCTOBER 31, 2017

NOTE 1 – Description of the Plan

The following description provides only general information of the Morrow Meadows Corporation (the Company) 401(k) Plan (the Plan). Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers substantially all full-time employees of the Company who have at least three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for oversight of the Plan. The 401(k) Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the trustee of the Plan, who reports to the Board of Directors.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained the age of fifty before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds and a common/collective trust as investment options for participants. The Company will contribute an amount of matching contributions to the Plan as determined by the Company at its discretion. An additional profit-sharing contribution may also be contributed by the Company at its discretion. The Company contributions are invested as directed by the participant. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contributions is 20% after two years and 20% per year thereafter. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined monthly, is set at one percent over the prime rate, as defined, and is fixed for the life of the loan. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals by participants from their accounts are permitted in accordance with the Plan's provisions.

In-Service Withdrawals

Participants who are at least 59-½ years of age are entitled to receive a distribution of all or any portion of their vested account balance.

Forfeited Accounts

At October 31, 2017 and 2016, forfeited nonvested accounts totaled $42,546 and $69,594, respectively. These accounts may be used to pay administrative expenses or to reduce future Company contributions. During the year ended October 31, 2017, the Company used $31,654 in forfeitures to reduce employer contributions.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2017 or 2016.

NOTE 2 – Summary of Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value investments.

Subsequent Events

The Plan has evaluated subsequent events through August 13, 2018, the date the financial statements were available to be issued.

NOTE 3 – Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC, the trustee of the Plan, has certified the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest, dividends, and other income
- Schedule of assets held at end of year

The plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Net Asset Values (NAV) are obtained directly from the fund or a second pricing source, such as Interactive Data Corporation (IDC). The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective trust fund: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. Participant transactions (purchases and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2017 and 2016:

	Fair Value Measurements at October 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 38,281,036			$ 38,281,036
Common/Collective Trust (1)				11,613,105
Total assets at fair value	$ 38,281,036	None	None	$ 49,894,141

	Fair Value Measurements at October 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 31,774,892			$ 31,774,892
Common/Collective Trust (1)				12,509,101
Total assets at fair value	$ 31,774,892	None	None	$ 44,283,993

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 5 – Common/Collective Trust

At October 31, 2017 and 2016, the Plan invested in the Putnam Stable Value Fund, a fully benefit-responsive investment contract that maintains its contributions in a common/collective trust.

This contract is invested in indirect investments in fully benefit-responsive investment contracts and, therefore, is reported at fair value, which is its NAV. The contract's NAV is based on contract value, as contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West Trust Company, LLC during the years ended October 31, 2017 and 2016, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issue or otherwise. The contract value, and NAV, of the investment contract at October 31, 2017 and 2016, was $11,613,105 and $12,509,101, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. Such interest rate is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: complete or partial plan termination or merger with another plan, bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan. The plan administrator believes that any events which would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The fully benefit-responsive investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 – Related-Party Transactions and Party-In-Interest Transactions

Great-West Lifeco Inc. is the parent company of various service providers to the Plan, including the Plan trustee Great-West Trust Company, LLC, its record-keeper Great-West Life & Annuity Insurance Company of New York and investment provider Putnam. During the years ended October 31, 2017 and 2016, the Plan was invested in shares of mutual funds and a common/collective trust managed by Great-West Trust Company, LLC and Putnam. Great-West Trust Company, LLC is a trustee as defined by the Plan and Putnam is related to Great-West; therefore, these transactions qualify as party-in-interest transactions.

Great-West Life & Annuity Insurance Company of New York provides certain record-keeping services to the Plan. Putnam receives revenue from mutual fund and collective trust fund service providers for services Putnam provides to the funds. Pursuant to a service provider payment agreement (SPPA) between the Plan and Putnam, the Plan receives a portion of this revenue. This revenue is used to offset certain amounts owed to Great-West Life & Annuity Insurance Company of New York for its record-keeping services.

If the revenue received by Putnam from such mutual fund or collective trust fund service providers exceeds the amount owed under the SPPA, Putnam remits the excess to the Plan's trust on an annual basis. Fees incurred by the Plan for the investment management services are paid through revenue sharing, rather than a direct payment. Such excess revenue sharing amounts may also be used as provided by the plan document. At October 31, 2017 and 2016, there was a total of $75,971 and $56,632 in excess revenue sharing proceeds, which will be used in future periods.

NOTE 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 – Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
