We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian is complete and accurate.

401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2017

1. Description of plan

The following description of the FMC Services, L.L.C. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a profit sharing and salary deferral (401(k)) defined contribution plan covering all employees of the Company who are age 21 or older who have completed three months of service, except those covered by a collective bargaining agreement. In addition, the Plan covers the eligible employees of FMC Services, L.L.C. and the affiliated employer groups: Southwest Neuroscience and Spine Center, P.A., Family Medicine Center of Canyon, P.A., Panhandle Pediatric Group, P.A., Cindy Hutson, D.O., P.A., and FMC Medical Foundation, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Company, at its sole discretion, may contribute to the Plan each year an amount which it deems advisable. Participants may contribute up to 100% of their annual compensation subject to certain limitations of the Internal Revenue Code. For the years ended December 31, 2017 and 2016, the Company elected to make a safe-harbor matching contribution equal to 100% of the first 3% of compensation contributed by the participant and 50% of the next 2% of compensation contributed by the participant.

Employees who become participants and do not affirmatively elect to have a specified amount of compensation contributed to the Plan automatically have 1% of their compensation deferred as contributions to the Plan. This provision does not apply to existing participants. There is no escalation of the automatic 1% compensation deferral.

1. Description of plan (cont'd)

Participant accounts - Each participant's account is credited with the participant's contributions and an allocation of (1) the Company's contributions, and (2) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. In addition, participants are immediately vested in the Company's safe harbor matching contributions. Vesting in the Company's discretionary matching contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 25% vested after one year of service increasing 25% per year until 100% vested after four years of credited service.

Investment options - All investments are self-directed. A participant may direct contributions to any of 171 mutual funds offered within the Plan or other self-directed investments. The investment options that held participant balances and were available during 2017 are listed in Notes 3 and 4.

Participants may change their investment options daily. Three participant accounts are managed by a related party that is also a party in interest.

Payment of benefits - On termination of service, a participant may elect to begin distributions from his or her account in amounts less than or equal to the vested value. The participant is not required to immediately withdraw or rollover his or her vested value upon termination. In addition, hardship distributions are permitted if certain criteria are met. Furthermore, in-service distributions are permitted if the participant has reached the qualifying age of 59 1/2.

1. Description of plan (cont'd)

Payment of benefits (cont'd) - Any vested balance of $5,000 or less left in the Plan by a participant after termination of service will be automatically distributed to the participant in a single lump-sum payment. Balances that are greater than $5,000 will remain in the Plan until directed otherwise by the participant.

Forfeitures - Forfeitures of the non-vested balance of participants' accounts reduce employer contributions to the Plan.

Participant loans - Participant loans are not permitted.

2. Summary of accounting policies

Basis of accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates - The preparation of financial statements requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at their quoted market prices. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Administrative expenses - Most administrative expenses of the Plan are paid by the Plan's trust fund. However, the Company may pay such expenses at the Company's discretion.

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Tax status

The Plan is covered by a Volume Submitter Prototype Document which received a letter from the Internal Revenue Service on March 31, 2014, in which it stated that the Plan, as then designed, was in compliance with the applicable requirement of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Transaction with parties in interest

Certain Plan investments are shares of mutual funds managed by the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for investment management services were netted against investment returns. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party in interest transactions.

9. Fair value measurements

Cash and receivables - The carrying amount approximates fair value because of their short maturities or due dates.

Investments - The fair value of all investments are based on quoted market prices for those or similar investments.

The framework for measuring fair value produces a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

9. Fair value measurements (cont'd)

Investments (cont'd)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- quoted inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2017			
	Level 1	Level 2	Level 3	Total
Participant-directed mutual funds	$14,969,907	$ -	$ -	$14,969,907
