INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Restated Contributory
Retirement Plan for Cooperatives
(Participating Employer—First Cooperative Association, Group 071):

Report on the Financial Statements

We have audited the accompanying financial statements of The Restated Contributory Retirement Plan for Cooperatives (Participating Employer—First Cooperative Association, Group 071) (the "Plan"), which comprise the statement of net assets available for benefits as of October 1, 2017 and March 31, 2017, and the related statements of changes in net assets available for benefits for the period from April 1, 2017 through October 1, 2017 and the year ended March 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. Except as explained in the Basis for Disclaimer of Opinion paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the statement of net assets available for benefits as of March 31, 2017 and the statement of changes in net assets available for benefits for the year then ended and its financial status as of March 31, 2017 and the changes therein for the year then ended.

Basis for Disclaimer of Opinion on the Financial Statements as of October 1, 2017 and for the Period from April 1, 2017 through October 1, 2017

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the Financial Statements as of October 1, 2017 and for the Period from April 1, 2017 through October 1, 2017

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the Financial Statements as of October 1, 2017 and for the Period from April 1, 2017 through October 1, 2017 paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017. Accordingly, we do not express an opinion on the financial statements as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017.

Opinion

In our opinion, the statement of net assets available for benefits as of March 31, 2017 and the statement of changes in net assets available for benefits for the year then ended present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of March 31, 2017, and the changes therein for the year then ended, and its financial status as of March 31, 2017, and the changes therein for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The supplemental schedules listed in the Table of Contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the Financial Statements as of October 1, 2017 and for the Period from April 1, 2017 through October 1, 2017 paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With Department of Labor Rules and Regulations for the Financial Statements

The form and content of the information included in the financial statements and supplemental schedules as of October 1, 2017 and for the period from April 1, 2017 through October 1, 2017, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

AS OF OCTOBER 1, 2017 AND MARCH 31, 2017 AND FOR THE PERIOD FROM APRIL 1, 2017 THROUGH OCTOBER 1, 2017 AND THE YEAR ENDED MARCH 31, 2017

1. DESCRIPTION OF THE PLAN

The following description of The Restated Contributory Retirement Plan for Cooperatives (Participating Employer—First Cooperative Association, Group 071) (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General— The Plan is a noncontributory defined benefit plan administered by Associated Benefits Corporation (the "Plan Administrator") that covers substantially all full-time employees of First Cooperative Association. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21 and 4 months of service. Eligible employees make contributions equal to 3% of their compensation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Prior to October 18, 2016, the Plan invested in The Retirement Trust for Cooperatives (the "Prior Trust"). The Plan's funds were commingled with other plans participating in the Prior Trust. The investments held in the Prior Trust and related net investment income reported prior to October 18, 2016 represent the Plan's allocable portion of such investments and net investment income. On October 18, 2016, the investments in the Prior Trust were allocated and transferred or sold with the proceeds allocated to individual trusts for each participating plan. Subsequent to the allocation and transfer of assets on October 18, 2016, the Plan's investments were held in its own trust.

Pension Benefits—Participants can retire with their full pension on the first day of the month coincident with or immediately following their 65th birthday (normal retirement), attainment of age 62 with at least 5 years of service, or upon satisfying the Rule of 85 by reaching a combined total of age and years of service of 85 total years.

The monthly pension benefit under the Plan is equal to 1.55% of average monthly earnings, as defined, multiplied by years of credited service effective on and before June 30, 2016 and is equal to 1.75% of average monthly earnings, as defined, multiplied by years of credited service effective on and after July 1, 2016. The normal form is a pension payable for the participant's lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants are immediately vested in their contributions and earnings thereon and become vested in the employer contributions and earnings thereon at the rate of 20% after completion of two years of service and 20% for each year of service thereafter. Participants become fully vested after six years of service.

Accumulated employee contributions and interest thereon, net of applicable benefit payments, at April 1, 2017 and 2016, were \$307,662 and \$271,655, respectively. The interest rates were 2.55% and 1.74% as of April 1, 2017 and 2016, respectively. Participants become 100% vested in employer contributions after completion of five years of service.

Transfer of Assets Due to Merger—Effective October 1, 2017, the Plan merged into the Co-op Retirement Plan as administered by United Benefits Group, with JPMorgan Chase Bank as its trustee. The net assets available for benefit of \$6,432,452 were rolled out of the Plan and are shown as transfer of assets due to merger in the statements of changes in net assets available for benefits. Due to the merger, the actuarial present value of accumulated plan benefits of \$4,591,209, including accumulated employee contributions plus interest of \$307,662, rolled out of the Plan as of October 1, 2017.

Transfer of Assets Due to Merger—Effective March 31, 2017, Participating Employer—Farmers Coop Elevator Company of Kingsley, Group 71, merged into the Plan. The net assets available for benefit of \$3,418,498 were rolled into the Plan and are shown as transfer of assets due to merger in the statements of changes in net assets available for benefits. Due to the merger, the actuarial present value of accumulated plan benefits of \$2,247,177 rolled in to the Plan as of April 1, 2017.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilizes various investment securities including cash and money market funds, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition—Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Expenses—Investment expenses consisting of trustee fees and investment management fees are paid from Plan assets. Trustee fees and investment management fees are deducted from investment income or loss.

Administrative Expenses—Administrative expenses consisting of actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the Participating Employer.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Subsequent Events—Subsequent events have been evaluated through August 10, 2018, the date the financial statements were available to be issued. The Plan has determined that there are no material events that require adjustment to or disclosure in these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan for the period from April 1, 2017 through October 1, 2017, included in the Plan's financial statements and supplemental schedules, that was prepared by Wells Fargo Bank, N.A., the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that such information is complete and accurate.

Statements of changes in net assets available
for benefits:

Investment income	\$ 34,357
Net appreciation in fair value of investments	370,877

Supplemental schedules: All information included in the schedules.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Participating Employer. The Participating Employer's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Participating Employer met the minimum funding requirements of ERISA for the years ended March 31, 2018 and 2017. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' compensation and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present

employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. Accumulated plan benefits are presented using beginning of year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of April 1, 2017, which is a proxy for March 31, 2017. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of April 1, 2017 and 2016 were as follows:

	April 1, 2017	April 1, 2016
Interest rate	6.84%	7.50%
Mortality	RP2014 separate annuitant/nonannuitant mortality tables projected with improvement based on Scale MP2016	RP2014 separate annuitant/nonannuitant mortality tables projected with improvement based on Scale MP2015
Salaries	Will increase according to an age-related table ranging from 7.50% down to 2.75%	Will increase according to an age-related table ranging from 7.50% down to 2.75%

In addition, eligible employees will retire according to the following schedule—employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2017 and 2016, the rates of retirement assumed were as follows:

Age	First Year	Ultimate
55–60	6 %	3 %
61		10
62		30
63		25
64		25
65		40
66		25
67		25
68		25
69		25
70 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The actuarial present value of accumulated plan benefits as of April 1, 2017, using the aggregate cost method, is as follows:

Vested:	
Active participants	\$ 2,070,258
Beneficiaries and retirees	1,517,936
Other participants (including participants active at other groups)	<u>943,147</u>
	4,531,341
Nonvested active participants	<u>59,868</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 4,591,209</u>

The changes in the actuarial present value of accumulated plan benefits from April 1, 2016 to April 1, 2017 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 1,674,728</u>
Increase (decrease) during the year attributable to:	
Benefit accumulations	166,886
Increase for change in actuarial assumption and actuarial gains and losses	376,199
Increase for interest due to the decrease in the discount period	300,685
Transfer due to merger	2,247,177
Benefits paid	<u>(174,466)</u>
Net change	<u>2,916,481</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 4,591,209</u>

6. FAIR VALUE MEASUREMENTS

In accordance with GAAP, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value.

Certain investments in mutual funds are valued based upon quoted prices from active markets. These investments in mutual funds are categorized as Level 1.

Money market funds held are primarily short-term money market commingled funds that are categorized as Level 2. They are valued at cost plus accrued interest, which approximates fair value.

Certain funds are valued at the net asset value of units of a bank collective trust. The net asset value (NAV) as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the bank collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As the practical expedient is utilized, these certain funds are not included in the fair value leveling table, but are included as a reconciling line item to the statements of net assets.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at March 31, 2017.

	Fair Value Measurements at March 31, 2017, Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 2,140,155	\$ -	\$ -	\$ 2,140,155
Money market funds		99,116		99,116
	<u>\$ 2,140,155</u>	<u>\$ 99,116</u>	<u>\$ -</u>	2,239,271
Funds valued at NAV				<u>3,809,972</u>
Total				<u>\$ 6,049,243</u>

Transfers Between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the period from April 1, 2017 through October 1, 2017 or the year ended March 31, 2017.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share—The Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV as of March 31, 2017. The following tables set forth a summary of the Plan’s investments with a reported NAV as of March 31, 2017.

Fair Value Estimated Using Net Asset Value per Share March 31, 2017						
Investment		Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Domestic stock funds	(a)	\$ 2,158,116	\$ -	Immediate	None	None
International stock funds	(b)	297,819		Immediate	None	None
Domestic fixed income funds	(c)	1,232,755		Immediate	None	None
International fixed income funds	(c)	<u>121,282</u>	<u> </u>	Immediate	None	None
Total		<u>\$ 3,809,972</u>	<u>\$ -</u>			

* The fair values of the investments have been estimated using the NAV of the investment.

- (a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a “multi-style, multi-manager” approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.

- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.

7. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Prior to October 18, 2016, the Plan was invested and a participant in the Prior Trust, managed by Wells Fargo Bank, N.A., as trustee, and on behalf of the Plan under the terms of the trust agreement between Wells Fargo Bank, N.A. and the Plan. The authority to invest was vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The changes in investments of the Prior Trust were reported to the Plan by the trustee and determined through the use of fair values. Since the Plan's funds were commingled with other plans participating in the Prior Trust, the net investment income reported from April 1, 2016 through October 17, 2016 reflect only the Plan's allocable portion based on the relationships of the interest of each plan to the total interests of the participating plans. From October 18, 2016 and subsequent, the Plan's investments are held in its own trust, managed by Wells Fargo Bank, N.A., as trustee.

The changes in net assets of the Prior Trust for the year ended March 31, 2017, is summarized below:

	2017
NET ASSETS AVAILABLE FOR BENEFITS—	
Beginning of year	<u>\$ 721,699,785</u>
Investment income:	
Interest and dividend income	973,805
Net appreciation	38,163,948
Investment expenses	<u>(631,438)</u>
Net investment income	38,506,315
Expenses	451,342
Transfer of assets:	
To Prior Trust (contributions)	19,910,308
From Prior Trust (benefit payments, disbursements, and transfers)	<u>(779,665,066)</u>
Net change	<u>(721,699,785)</u>
NET ASSETS AVAILABLE FOR BENEFITS—	
End of year	<u>\$ -</u>
Plan's allocable portion of net investment income of The Retirement Trust for Cooperatives	<u>\$ 123,327</u>

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds which are managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Participating Employer and the Plan Administrator by a letter dated February 16, 2017, that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter.; The Participating Employer and the Plan Administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Participating Employer and the Plan Administrator believe it is no longer subject to income tax examinations for years prior to 2015.

10. PLAN TERMINATION

The Participating Employer has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. The participating employer exercised this right effective October 1, 2017, as part of its transfer to the Co-op Retirement Plan, administered by United Benefits Group. The termination and transfer to the successor plan has no impact on participant benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Schedule SB, Part V – Summary of Plan Provisions

Mercer has used and relied on the plan documents, including amendments, and interpretations of plan provisions, supplied by Associated Benefits Corporation as summarized below. Associated Benefits Corporation is solely responsible for the validity, accuracy and comprehensiveness of this information. If any plan provisions supplied are not accurate and complete, the results of any calculation may differ significantly from the results that would be obtained with accurate and complete information. Moreover, plan documents may be susceptible to different interpretations, each of which could be reasonable, and the results of estimates under each of the different interpretations could vary.

The following is a summary of what we understand to be the most relevant plan provisions for purposes of our valuation; these provisions should not be used for purposes of determining benefits under the plan.

First 5 years	4.16%	1.65%
Next 15 years	5.72%	3.82%
Over 20 years	6.48%	4.76%

These rates were updated since the prior valuation, as prescribed by the IRS.

Expenses

Administrative related expenses (actuarial fees, PBGC premiums, and legal fees) assumed to equal \$69 per participant plus 0.08% of the market value of assets. This is based on analysis of expenses paid in the 2013-2014 plan year. The per participant expense assumption is equal to the current year flat-rate PBGC premium, and is updated annually.

Mortality

Section 430(h)(3) prescribed separate static annuitant and nonannuitant tables for the valuation year. Based on sponsor elections, these tables are based on the RP 2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

Turnover

Based on select rates of turnover for the first four years of service and ultimate rates thereafter. Turnover rates reflect findings from the analysis of plan experience for the 2007-2010 valuation years and the expectation that future termination patterns and the circumstances of the employers will not differ significantly from the period studied. Sample rates are shown below.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

For employees who become eligible to retire prior to age 55, turnover rates are used.

For frozen groups 177 and 201, same assumptions until eligible for unreduced retirement, but then 100% at unreduced retirement age

Retirement rates reflect findings from the analysis of plan experience for the 2007-2010 valuation years and the expectation that future retirement patterns and the circumstances of the employers will not differ significantly from the period studied.

Spouse's benefit

80% of all employees are assumed married with husbands two years older than their wives.

This assumption is based on an examination of historical election patterns as of March 31, 2012.

Form of payment

1/3 of participants are expected to commence benefits as a Life Only annuity, 1/3 as a 100% J&S annuity, and 1/3 as a 5-Year Certain annuity

This assumption is based on an examination of historical election patterns as of March 31, 2012.

<u>Year</u>	<u>Interest rate</u>	
2017	2.50%	Previously 4.50%
2018	3.00%	Previously 5.00%
2019	3.50%	Previously 5.50%
2020	4.00%	for 2019 and later
2021	4.50%	
2022	4.75%	
2023 and later	5.00%	

Historically, the required interest rate for employee contributions has been substantially similar to yields on five-year corporate bonds of high quality. These rates are based on five-year bond yields implied from the IRS Funding Yield Curve for January 2017.

Inflation

The inflation assumption used to project the maximum salary limitation for future years is 2.2%. This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook with adjustments to reflect historical average inflation rates.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

Actuarial Methods

An actuarial valuation is only a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict the plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of estimates to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that, if used, in our judgment, would not have significantly affected our results. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

Valuations do not affect the ultimate cost of the plan, only the timing of when benefit costs are recognized. Cost recognition occurs over time. If the costs recognized over a period of years are lower or higher than necessary, for whatever reason, normal and expected practice is to adjust future cost levels to recognize the entire cost of the plan over time.

Asset Valuation Method

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- (a) **Participants included:** Associated Benefits Corporation provides us with data on only those employees who have completed the eligibility requirements so only participants are included in the valuation of the liabilities.
- (b) **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- (c) **Insurance contracts:** The plan does not have any insurance contracts.
- (d) **Transferred participants:** The liabilities for benefits earned prior to their transfer by employees who have transferred to another Associated Benefits Corporation employer

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

have been included with the liabilities for terminated vested participants at their former employer.

- (e) **Nonvested terminated participants:** Benefits for return of employee contributions were estimated for four nonvested terminated participants. These participants are included in the data exhibits as vested terminations.

Actuarial Cost Method

Minimum Funding Method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
