NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Freeway Motors, Inc. 401(k) Profit Sharing Plan and Trust ("the Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Freeway Motors, Inc. ("the Company"). Employees are eligible to participate in the Plan once they have reached the age of 21 and completed six months of service. Management of the Company manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

In general, participants can make deferrals (pre-tax or Roth) up to 100% of eligible annual compensation, subject to the applicable limits of the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company makes matching contributions to the Plan equal to 20% of the participant's contribution up to 6% of their compensation, subject to regulatory limitations. In addition, profit sharing contributions may be made at the Company's discretion. There were no profit sharing contributions made by the Company in 2017.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and losses, and is charged with administrative expenses. Allocations are based on participant compensation, participant contributions, or account balances, as defined. A participant is entitled to the benefit that can be provided from the participant's vested account. Participants direct their proportionate share (vested and non-vested) of Plan assets to a variety of investment funds.

Vesting

Employee contributions and related net earnings are 100% vested at all times. Employer contributions and related net earnings become vested to the participant based on the following schedule of years of service:

Completed Years of Service	Percentage Vested		
Less than 2	0%		
2	20		
3	40		
4	60		
5	80		
6 or more	100		

Additionally, a participant becomes 100% vested when the participant reaches normal retirement age (65), dies, or becomes disabled while in the service of the Company.

Forfeitures

Provisions of the Plan provide that upon termination of employment, participants are entitled to receive their vested portion of the net assets of the Plan. Any amounts not vested at the time of termination are forfeited and available to reduce future employer contributions. Forfeitures were \$12,403 in 2017. Forfeitures used to reduce employer contributions in 2017 were \$15,999. At December 31, 2017 and 2016, unused forfeitures available to reduce future employer contributions totaled \$4 and \$3,600, respectively.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates determined by the Plan administrator on the date of the loan (resulting in rates of 5.25% to 6.25% at December 31, 2017). Loan terms cannot exceed five years unless the loan is for purchasing a primary residence, and then a longer term can be determined. Loan repayments are generally required through payroll deductions each pay period. As of December 31, 2017, 48% of notes receivable from participants was due from four participants. As of December 31, 2016, 17% of notes receivable from participants was due from one participant.

Payment of Benefits

Upon termination of service, a participant or the participant's beneficiary is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Distributions can also be made during a participant's employment upon attainment of age 59½ or under certain hardship provisions as defined within the Plan document.

Administrative Expenses

Administrative expenses primarily relate to Plan administration and custodianship of investments and may be paid by the Company on a discretionary basis. In 2017, the Plan paid \$28,736 of administrative expenses and the remainder was paid by the Company.

Plan Changes

The Companies reserve the right to amend or terminate the Plan at any time. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. In the event of Plan termination, participants will become fully vested in their accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of management estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching and profit sharing contributions from the Company are recorded in the period in which the related participant contributions are recorded.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value (see below). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels that prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities:
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for investments measured at fair value.

- Mutual funds Valued at the daily closing price as reported by the fund. Mutual funds held by
 the Plan are open-end mutual funds that are registered with the SEC. These funds are required to
 publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are
 deemed to be actively traded.
- Collective trust funds Reported at fair value using the net asset value ("NAV"), which is determined by the administrators of the funds and is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets held by the collective trust fund (primarily investment contracts), less any liabilities, and then divided by the number of units outstanding. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount significantly different than the reported NAV. The objective of the collective trust fund is to preserve capital while maximizing current income. The underlying assets of the collective trust fund are guaranteed investment contracts, which may invest in fixed income instruments, stable value investment contracts, and other collective trust funds with similar objectives. The fund has no restrictions on redemptions and no unfunded commitments.

The following tables present information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2017 and 2016, and indicates the classification by level of input within the fair value hierarchy described above.

The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued, which was August 10, 2018.

Note 3. Tax Status

The Plan has adopted a non-standardized prototype sponsored by their third-party administrator. The prototype received a favorable determination letter from the Internal Revenue Service on March 31, 2014. The Company has not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Note 4. Information Prepared and Certified by Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan, Fidelity Management Trust Company ("Fidelity"), had certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of investments, and dividend and interest income reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 5. Party-in-Interest Transactions

Fidelity served as the custodian during the years ended December 31, 2017 and 2016, and also manages some of the funds in which the Plan invests. As a result, transactions involving Fidelity qualify as exempt party-in-interest transactions.
