1. DESCRIPTION OF THE PLAN

The following description of the Discovery Communications, LLC Retirement Savings Plan (the "Plan") provides only general information about the Plan's provisions. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a voluntary defined contribution retirement savings plan that features automatic enrollment at 6% and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan covers substantially all employees of Discovery Communications, LLC ("DCL" or the "Company") and its subsidiaries. Employees of the Company who have attained the age of 18 years old and are working at least 30 hours per week are eligible to participate in the Plan immediately. Employees working less than 30 hours per week and temporary employees of the Company who have attained the age of 18 years old are eligible to participate in the Plan on the first day after the employee has worked at least 1,000 hours during the Plan year. Residents of Puerto Rico are not eligible to participate in the Plan.

Contributions

Each year, participants may contribute 1% to 75% of their pre-tax annual compensation, as defined in the Plan document. Effective March 3, 2014, participants may also elect to make after-tax Roth 401(k) contributions. Contributions and earnings for the Roth 401(k) contribution option are not subject to taxation at the time of distribution, as long as the distribution is a "qualified distribution" made no earlier than five years after the first Roth 401(k) contribution to the Plan. A qualified distribution is a distribution after separation of service and due to death, disability or after age 59 ½.

The total combined amount of employee contributions was limited by Federal law to $18,000 for 2017. Participants who attain the age of 50 by the end of the year are also eligible to make catch-up contributions, in addition to regular pre-tax or Roth 401(k) contributions, which were limited by Federal law to $6,000 for 2017. Participants may change the percentage of their compensation contributed to the Plan at any time.

Participants may also contribute amounts representing distributions from other qualified plans or conduit individual retirement accounts ("IRA") upon specific authorization and subject to such terms and conditions as set forth in the Plan document ("rollover contributions").

DCL makes matching contributions for employees that participate in the Plan. For 2017, the Company paid matching contributions equal to 100% of the first 3% of compensation that a participant contributed to the Plan and 50% of the next 3% of compensation contributed to the Plan. Total compensation considered under the Plan, based on Federal law, was limited to $270,000 for 2017. Discretionary contributions may also be made. No discretionary contributions were made to employees in 2017.

The total amount of participant contributions, excluding catch-up contributions and rollover contributions, and employer matching contributions, including additional Company discretionary contributions, if any, was limited by Federal law to the lesser of $54,000 or 100% of pre-tax annual compensation for 2017. All contributions made to the Plan on an annual basis may be further limited due to certain non-discrimination tests prescribed by the Internal Revenue Code (the "Code").

Participants direct their contributions into various investment options offered by the Plan. For 2017, the Plan offered investments in various mutual funds (registered investment companies). The Company's matching contributions and additional discretionary contributions, if any, are allocated in the same manner as that of the participant's contributions. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions and additional discretionary contributions, if any, earnings or losses from the investment options elected by the participant, and certain Plan expenses. Earnings or losses are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of certain Plan expenses are based on the participant's account balances, as defined. Fees related to the processing of notes are charged directly to the individual account of the participant initiating the note. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily.

Vesting

Effective January 1, 2007, active participants vest immediately in their contributions and in the Company's matching contributions and additional discretionary contributions, if any, plus actual earnings or net of losses thereon.

Prior to January 1, 2007, vesting in the Company's matching contributions and additional discretionary contributions, if any, plus actual earnings or net of losses thereon, was based on years of service. If a participant terminated service with the Company prior to January 1, 2007, the portion of the Company's matching contributions and additional discretionary contributions, if any, plus actual earnings or net of losses thereon not fully vested at the time of termination was forfeited when the participant elected a distribution from the Plan. As of December 31, 2017, all participants were fully vested in their account balances.

Forfeited balances may be used to reduce future Company matching contributions or pay Plan expenses. During 2017, there were no unallocated forfeitures used to reduce Company matching contributions or pay Plan expenses. The balance of unallocated forfeitures as of December 31, 2017 and 2016 was $12,529 and $8,136, respectively.

Notes Receivable from Participants

Active participants may borrow from their accounts a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The $50,000 limit is reduced by the participant's highest outstanding notes receivable balance during the preceding 12-month period. The notes receivables are secured by the vested balance in the participant's account. The term of the notes may not exceed five years unless the amount borrowed is used for the purchase of a primary residence, as determined by the Plan Administrator. The notes bear interest at a rate equal to the prime lending rate at the date of issuance plus 1%. Outstanding notes receivable as of December 31, 2017 and 2016 carried interest rates ranging from 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions. If a participant terminates employment with the Company, the participant may continue to repay the entire outstanding principal and accrued interest pursuant to the terms of the promissory note and repayment documents. Additionally, within 60 days of termination, a participant may also elect to roll over the outstanding principal and accrued interest to an eligible retirement plan. The rollover is, however, subject to certain other restrictions as defined by the Plan. If the amount borrowed is not repaid or rolled over to another eligible retirement plan, it will automatically be treated as a distribution to the participant and subject to regular income taxes and an additional 10% Internal Revenue Service (“IRS”) tax penalty if the participant is under the age of 59 ½.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant or beneficiary whose vested account balance exceeds $5,000 may elect to either maintain the account or receive the account balance in a single lump-sum cash payment. If the value of the account balance exceeds $5,000 and the participant or beneficiary does not elect a lump-sum cash distribution, the account balance will be maintained in the investment options selected by the participant. If the value of the account balance is greater than $1,000 but less than $5,000, the participant may elect to roll over the vested account balance either into an IRA or other retirement plan eligible to receive rollover contributions, or receive the value of the account balance in a single lump-sum cash payment. A participant whose account balance is $1,000 or less will automatically receive an immediate lump-sum distribution equal to his or her account balance unless an advanced request is made to roll over the balance into another account or retirement plan eligible to receive rollover contributions.

In general, participants must receive a required minimum distribution upon attainment of age 70 ½ unless they are still employed. Rollover contributions may be withdrawn at any time.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available borrowing options and available distributions prior to requesting a hardship withdrawal.

Participant benefit payments may be subject to federal and state income tax.

Plan Expenses

Plan expenses, which primarily include fees related to recordkeeping, legal, and accounting may be paid by the Plan using the revenue share account allocations as described above or may be paid by the Company. Expenses relating to investment management fees as well as costs for purchases, sales or transfers are charged to the particular investment fund to which the expenses relate and are included as an offset to net appreciation in fair value of investments on the accompanying modified cash basis Statement of Changes in Net Assets Available for Benefits. These expenses approximated 60 basis points of the Plan's average investment balance for 2017. Fees related to the processing of notes are charged directly to the individual account of the participant initiating the note. Company personnel also perform various administrative services for the Plan, including maintenance of participant records, for which the Company does not charge the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will remain 100% vested in their accounts and will receive the value of their vested account balance through one of the benefit payment options specified in the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting as permitted under the Department of Labor's Rules and Regulations. Accordingly, certain additions to and deductions from net assets available for benefits are recognized when received or paid rather than when earned or incurred.

Use of Estimates

The preparation of financial statements using the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Such estimates and assumptions include, but are not limited to, fair value estimates and contingencies. Management continually re-evaluates its estimates and assumptions and management's assessments could change. Actual results may differ from those estimates and assumptions and could have a material impact on the financial statements.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Refer to Note 4 for additional disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded when received. Net appreciation or depreciation in the fair value of investments includes realized gains and losses on investments sold during the year and the unrealized appreciation and depreciation on investments held at the end of the year. Gains or losses on sales of securities are calculated using the average cost of the securities sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when paid. Related fees are recorded as Plan expenses and are expensed when paid. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan document.

Contributions

Employee and Company contributions are recorded when received.

Forfeitures

Forfeitures related to the unvested portion of a participant's account are recorded at the time the participant elects a distribution from the Plan.

Payment of Benefits

Benefit payments are recorded when paid.

Plan Expenses

Expenses paid by the Plan are recorded when paid. Certain expenses paid directly by the Company are excluded from the financial statements. Investment related expenses are included as an offset to the net appreciation of fair value of investments.

New Accounting Pronouncements

During the year ended December 31, 2017, the Financial Accounting Standards Board (“FASB”) issued accounting standard updates that were not relevant to the Plan's operations.

3. INVESTMENTS - UNAUDITED

During 2017, the Plan's investments in mutual funds (including investments purchased, sold, and held during the year) appreciated in fair value by $63,102,469 due primarily to an increase in market values.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, all investment information in the financial statements and accompanying notes and supplemental schedule, including investments held and notes receivable from participants at December 31, 2017 and 2016, and net appreciation in fair values of investments, dividends, and interest for the year ended December 31, 2017, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, trustee of the Plan.

4. FAIR VALUE MEASUREMENTS

Fair value is defined as the amount that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants. Investments held by the Plan are stated at fair value. Fair value measurements are classified according to the fair value hierarchy in the following three categories.

Level 1 - Unadjusted quoted prices for identical instruments in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Valuations derived from valuation techniques in which one or more significant inputs are unobservable. The asset's or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present the Plan's financial assets carried at fair value on a recurring basis, by level, within the fair value hierarchy.

	As of December 31, 2017			
	Total	Level 1	Level 2	Level 3
Assets at fair value - Mutual Funds:	$514,927,245	$514,927,245	$ —	$ —

	As of December 31, 2016			
	Total	Level 1	Level 2	Level 3
Assets at fair value - Mutual Funds:	$431,471,814	$431,471,814	$ —	$ —

Investments in mutual funds are valued using quoted market prices in active markets.

The Plan Administrator is responsible for the determination of fair value. Accordingly, it performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan Administrator has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities are exposed to various risks including, but not limited to, interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the modified cash basis Statements of Net Assets Available for Benefits. For the year ended December 31, 2017, there was one individual fund greater than 10% of the Plan's net assets available for benefits. For the year ended December 31, 2016, no individual investment was greater than 10% of the Plan's net assets available for benefits.

6. PARTIES-IN-INTEREST

Certain Plan investments are shares of funds managed by Fidelity Management Trust Company, trustee of the Plan as of December 31, 2017 and 2016 and for the year ended December 31, 2017, and, therefore, qualify as party-in-interest transactions. The fair value of investments held with Fidelity Management Trust Company was $21,280,209 and $22,425,860 as of December 31, 2017 and 2016, respectively. Fees paid by the Plan to the trustee amounted to $28,016 during the year ended December 31, 2017. The Company also qualifies as a party-in-interest and absorbs certain expenses of the Plan. The Company did not pay any expenses on behalf of the Plan during the year ended December 31, 2017. Notes receivable from participants are also considered party-in-interest transactions, which totaled $4,293,424 and $4,326,869 at December 31, 2017 and 2016, respectively. All of these transactions are exempt from the prohibited transaction rules under ERISA.

7. TAX STATUS

The Plan has received a determination letter from the IRS dated April 28, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Management does not believe that any plan amendments made subsequent to April 28, 2014 affect the qualification of the Plan. Therefore, no provision for income taxes has been included in the modified cash basis financial statements.

8. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through August 15, 2018, the date for which the financial statements were available to be issued and determined there were no other items to disclose.
