Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Express 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 3, 2014. The Plan is available to all employees who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The management of Navajo Express, Inc. (the "Company") administers the Plan. Wells Fargo Bank, N.A. ("Wells Fargo") serves as trustee, manages Plan assets, and maintains the Plan's records. Wells Fargo offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, not to exceed $18,000 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who are 50 years of age or will reach the age of 50 by the end of the calendar year may make additional "catch-up" contributions up to $6,000 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a discretionary matching contribution of 33% of elective deferrals up to 1% of compensation. Discretionary matching contributions are funded on a per-payroll basis.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100% of annual eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum, partial payment, or installment payments in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures may be used to pay Plan expenses or reduce employer contributions or shall be allocated to participants in the same manner as the employer's contribution. Forfeitures in the amount of $2,268 were applied to reduce Company contributions for the Plan during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $3,106 and $783, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the years ended December 31, 2017 and 2016, four and five investments accounted for 74% and 60% of investment income, respectively. At December 31, 2017 and 2016, four investments accounted for 55% and 52% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Assets Certified by the Trustee

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,241,914	$ -	$ -	$ 3,241,914
Money market fund	44,720	-	-	44,720
Total investments at fair value	$ 3,286,634	$ -	$ -	$ 3,286,634

Note 3 - Fair Value Accounting (continued)

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,939,617	$ -	$ -	$ 1,939,617
Money market fund	23,352	-	-	23,352
Total investments at fair value	$ 1,962,969	$ -	$ -	$ 1,962,969

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document on March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Reconciliation to Form 5500

Contributions and receivables, for financial reporting purposes, differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Express 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 3, 2014. The Plan is available to all employees who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The management of Navajo Express, Inc. (the "Company") administers the Plan. Wells Fargo Bank, N.A. ("Wells Fargo") serves as trustee, manages Plan assets, and maintains the Plan's records. Wells Fargo offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, not to exceed $18,000 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who are 50 years of age or will reach the age of 50 by the end of the calendar year may make additional "catch-up" contributions up to $6,000 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a discretionary matching contribution of 33% of elective deferrals up to 1% of compensation. Discretionary matching contributions are funded on a per-payroll basis.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100% of annual eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum, partial payment, or installment payments in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures may be used to pay Plan expenses or reduce employer contributions or shall be allocated to participants in the same manner as the employer's contribution. Forfeitures in the amount of $2,268 were applied to reduce Company contributions for the Plan during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $3,106 and $783, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the years ended December 31, 2017 and 2016, four and five investments accounted for 74% and 60% of investment income, respectively. At December 31, 2017 and 2016, four investments accounted for 55% and 52% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Assets Certified by the Trustee

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,241,914	$ -	$ -	$ 3,241,914
Money market fund	44,720	-	-	44,720
Total investments at fair value	$ 3,286,634	$ -	$ -	$ 3,286,634

Note 3 - Fair Value Accounting (continued)

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,939,617	$ -	$ -	$ 1,939,617
Money market fund	23,352	-	-	23,352
Total investments at fair value	$ 1,962,969	$ -	$ -	$ 1,962,969

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document on March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Reconciliation to Form 5500

Contributions and receivables, for financial reporting purposes, differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, not to exceed $18,000 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum, partial payment, or installment payments in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. The Plan allows in-plan Roth conversions. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures may be used to pay Plan expenses or reduce employer contributions or shall be allocated to participants in the same manner as the employer's contribution. Forfeitures in the amount of $2,268 were applied to reduce Company contributions for the Plan during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $3,106 and $783, respectively.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the years ended December 31, 2017 and 2016, four and five investments accounted for 74% and 60% of investment income, respectively. At December 31, 2017 and 2016, four investments accounted for 55% and 52% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Assets Certified by the Trustee

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,241,914	$ -	$ -	$ 3,241,914
Money market fund	44,720	-	-	44,720
Total investments at fair value	$ 3,286,634	$ -	$ -	$ 3,286,634

Note 3 - Fair Value Accounting (continued)

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,939,617	$ -	$ -	$ 1,939,617
Money market fund	23,352	-	-	23,352
Total investments at fair value	$ 1,962,969	$ -	$ -	$ 1,962,969

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's opinion letter, which was issued on the basic Plan document on March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Reconciliation to Form 5500

Contributions and receivables, for financial reporting purposes, differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2017 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.
