Notes to Financial Statements

Note 1. Plan Description

The following description of GFG Agriproducts, LLC 401(k) Plan (the Plan) which was created and began operating January 1, 2014, provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General and eligibility: The Plan was a defined contribution plan covering all employees of GFG Agriproducts, LLC and subsidiaries (the Company) who were considered to be full-time and were not covered under the terms of a collective bargaining agreement. Participants could enter the Plan on the first day of the month following employment with the Company. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the applicable current Internal Revenue Code provisions.

Contributions and investment options: Employees who were eligible to participate in the Plan could make elective deferral contributions up to 85 percent of compensation up to the annual limit set by the Internal Revenue Service. The Company made nonelective contributions each pay period based on a percentage of a participant's earnings. The Company could make matching contributions and nonelective contributions.

Participants directed the investment of their contributions and any employer contributions into various investments offered by the Plan. The Plan offered common collective trust funds and mutual funds as investment options for participants. Participants could change their investment options daily.

Participant accounts: Each participant's account was credited with the participant's contribution, the Company's nonelective contribution and an allocation of Plan earnings and administrative expenses. Allocations were based upon participant's compensation or account balances, as defined by the plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Vesting: Participants were 100 percent vested in their elective deferral contributions and employer's non-elective contributions, plus actual earnings thereon. The Company's matching contribution began vesting after two years of service and vest at 20 percent for each successive year until 100 percent vested after six years of service.

Payment of benefits: Upon retirement, death, approved hardship, reaching age 59 ½, an ad-hoc distribution or termination of employment, participants or their beneficiaries could elect to receive a lump-sum payment or installments. If the participant's vested benefit in the plan did not exceed \$5,000, the benefit would be distributed in a single lump sum as soon as administratively feasible following the event that entitled the participant to a distribution.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance as of the last valuation date. The notes receivable were secured by the value of the vested balance in the participant's account. Notes receivable terms ranged from one to five years, or longer for the purchase of a primary residence. Principal and interest were paid ratably through payroll deductions. Interest rates applicable to outstanding loans were between 5.25 percent and 6.25 percent as of December 31, 2016. All loans and balances were transferred into the Lever1 Plan on November 1, 2017.

Forfeitures: Forfeitures were used to pay for Plan expenses and reduce Company contributions. There were no forfeitures available as of December 31, 2016. During the period ended November 1, 2017, no forfeitures were used to reduce matching contributions.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies were as follows:

Basis of accounting: The financial statements of the Plan were prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year. Management and operating expenses charged to the Plan for investments in the mutual funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of investment return for such investments.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans were treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefit payments were recorded when paid.

Accounting estimates and assumptions: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and disclosure through August 28, 2018, the date of the financial statements were available to be issued.

Note 3. Administrative Expenses

Certain administrative functions were performed by employees of the Company. No such employee received compensation from the Plan. Certain other administrative expenses were paid directly by the Plan.

Note 4. Information Certified and Provided by Reliance Trust Company

The following is a summary of the Plan's asset information as of November 1, 2017 and December 31, 2016, and for the period ended November 1, 2017, included throughout the Plan's financial statements that was prepared or derived from information provided by the Reliance Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following assets:

	November 1, 2017	December 31, 2016
Assets at fair value:		
Mutual funds	\$ -	\$ 2,532,390
Common collective trust funds	-	500,406
	<u>\$ -</u>	<u>\$ 3,032,796</u>

For the period ended November 1, 2017, the trustee also certified to the completeness and accuracy of \$29,024 of interest and dividends, \$426,392 net appreciation in fair value investments (including investments bought, sold and held during the year) and \$587 of interest income on notes receivable from participants.

Note 5. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. The fair value hierarchy is as follows:

- Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2:** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
- Level 3:** Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Note 5. Fair Value Measurements (Continued)

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below:

Mutual funds: Mutual funds are reported at fair value based on the quoted market price of the fund and are classified within Level 1 of the valuation hierarchy.

Common collective trusts: Common collective trust funds are composed of investment contracts that are valued at the net asset value of units of the common collective trust. The net asset value is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur immediately. If the plan initiates a full redemption of the collective trust, no notice to the issuer is required.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2016. No assets were held by the Plan as of November 1, 2017.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust funds	\$ 500,406	\$ -	Immediate	None

The common collective trust funds contract allows it to achieve a total rate of return to match the return of the index it was set up to mirror and allow for its principal value to remain stable regardless of the volatility of the financial markets. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

Financial assets measured at fair value on a recurring basis as of December 31, 2016, are as follows. No assets were held by the Plan as of November 1, 2017.

Description	2016 Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	\$ 2,532,390	\$ 2,532,390	\$ -	\$ -
Total assets in the fair value hierarchy	2,532,390	2,532,390	-	-
Investments measured at net asset value*	500,406			
Total investments, at fair value	<u>\$ 3,032,796</u>			

*In accordance with ASC 820-10, certain investments that were measured at net asset value per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 6. Plan Merger

In April 2017, management of the Plan Sponsor approved a resolution to become an adopting employer of the Lever1 Retirement Savings Plan (a Professional Employer Organization (PEO) Plan), effective July 1, 2017. The Plan was merged into the Lever1 Retirement Savings Plan on November 1, 2017. Approximately \$4,031,000 was transferred to the Lever1 Retirement Savings Plan on November 1, 2017. Participants in the Plan were vested 100 percent before and after the effective date of the merger.

GFG Agriproducts, LLC 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by ADP Retirement Services. The prototype plan received an opinion letter from the Internal Revenue Service as to the prototypes plan's qualified status. The prototype opinion letter was relied on by this Plan. The Plan Administrator believed that the Plan was designed and was being operated in compliance with the applicable requirements of the Code.

The Plan applied applicable guidance on accounting for uncertainty in income taxes. Management evaluated the Plan's tax position and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that required adjustments to the financial statements. Therefore, no provision or liability for income taxes was included in the financial statements.

Note 8. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at November 1, 2017 and December 31, 2016, to the Form 5500:
