Note #1 – Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements of the Industry Products Company Employees' 401(k) Plan (the Plan) are prepared on the accrual basis of accounting.

Use of Estimates:

Management used estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions and deductions of net assets. Actual results could vary from those estimates that were used.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. For mutual funds, fair value is based on quoted market prices. For collective investment funds, net asset value (NAV) is used as a practical expedient to estimate fair value. NAV is measured at contract value which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net realized/unrealized gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable:

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual method. Participant notes receivable are considered in default if any scheduled repayments are unpaid at the end of the calendar quarter following the quarter the loan becomes past due. Loans are immediately due upon separation of service.

Payment of Benefits:

Benefits are recorded when paid.

Subsequent Events:

The Plan has evaluated subsequent events through the date of the report of these financial statements, which is the date the financial statements were available to be issued.

Note #2 – Description of the Plan

The Plan, established effective January 1, 1992, is a defined contribution plan covering substantially all employees of Industry Products Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Certain administrative expenses of the Plan are paid for by the Company. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Note #2 – Description of the Plan (Continued)

Eligibility Requirements – Employees become eligible to make employee deferrals and receive employer matching and qualified non-elective contributions on the entry date coincident with or next following age 21 and the completion of three months of service. Entry dates are the beginning of each month. Employees are auto enrolled at a 3% deferral rate with a 1% increase annually up to 6%.

Contributions – Participants may elect to defer up to 100% of their salary. These salary deferrals can be pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. A discretionary employer matching contribution may be made equal to a percentage of the Participant's salary reductions, excluding catch up deferrals. The employer matching contribution is 50% of the first 8% of employee salary deferrals. A discretionary non-elective employer contribution may be made and allocated to all eligible participants in the ratio that the participants eligible compensation bears to the total eligible compensation paid to all eligible participants, which was 0% of the participant's salary in 2017 and 2016. In addition, the employer may designate all or a portion of any non-elective contributions for a plan year as qualified non-elective contributions (QNEC) and allocate them to certain non-highly compensated employees to help the Plan pass one or more annually required non-discrimination tests. No discretionary profit sharing or QNEC contribution was made in 2017 or 2016. Participants must be employed at year end or have completed 1,000 hours of service during the year to be eligible for the discretionary non-elective employer contribution. However, a participant will be eligible for the discretionary non-elective employer contribution even if they do not satisfy the last day or annual service requirements due to retirement, death, or disability. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with contributions, as described above, and an allocation of Plan earnings and expenses. Earnings and expenses are allocated based on the investment account and the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loans must be repaid in less than 5 years, unless it is for the purchase of a principal residence. The loans are secured by the balance in the participants account and bear interest at a rate commensurate with local prevailing rates. The interest rate on loans initiated on or after January 1, 2016 is 4.5%. The interest rate on loans initiated prior to January 1, 2016 is 4.25%. Principal and interest is paid ratably through payroll deductions.

Benefit Payments – Benefit payments are available upon normal retirement at age 65, death, disability or termination of employment. Payments are made in the form of a lump-sum payment or installment payments with payments to begin no later than the end of the Plan year in which the participant attains age 70½. If the vested account balance does not exceed a certain threshold, the payment is automatically distributed in the form of a lump-sum payment (\$1,000 or less) or direct rollover to an IRA (\$5,000 or less). Prior to termination of employment, a participant may elect to withdraw all or a portion of his or her deferral account balance upon incurring a hardship, as defined by the Plan. In addition, the Plan allows for in-service withdrawals upon attaining the age of 59½.

Note #5 – Investments (Continued)

Accounting Standards Codification (ASC) 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 consist of unobservable inputs with the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The collective investment fund (Fund) is a Wells Fargo stable value fund invested in a collective trust fund sponsored by Wells Fargo Bank. The Fund does not invest directly in fully benefit-responsive contracts. The Fund is valued as a practical expedient utilizing the NAV, exclusive of the adjustment to contract value. The use of NAV as fair value is deemed appropriate as the Fund does not have a finite life, unfunded commitments, or significant restrictions on redemptions. If the Plan were to initiate a full redemption, the issuer reserves the right to require 12 months' notification.

The yield earned by the Fund at December 31, 2017 was 2.36%. This represents the annualized earnings of all investments in the Fund divided by the fair value of all investments in the Fund at December 31, 2017. The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2017 was 2.14%. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the Fund at December 31, 2017.

Note #6 – Income Tax Status

The Plan is designed in accordance with a standardized prototype by Fidelity Management & Research Co., which received a favorable tax opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the form of the plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan prototype has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable and requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Note #7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note #8 – Adoption of Accounting Standard

In 2016, the Plan adopted Accounting Standards Update (ASU) 2015-07, Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This standard excludes these investments from the fair value hierarchy. Management elected to early adopt the provisions of this new standard to simplify Plan reporting.

Note #1 – Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements of the Industry Products Company Employees' 401(k) Plan (the Plan) are prepared on the accrual basis of accounting.

Use of Estimates:

Management used estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions and deductions of net assets. Actual results could vary from those estimates that were used.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. For mutual funds, fair value is based on quoted market prices. For collective investment funds, net asset value (NAV) is used as a practical expedient to estimate fair value. NAV is measured at contract value which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net realized/unrealized gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable:

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual method. Participant notes receivable are considered in default if any scheduled repayments are unpaid at the end of the calendar quarter following the quarter the loan becomes past due. Loans are immediately due upon separation of service.

Payment of Benefits:

Benefits are recorded when paid.

Subsequent Events:

The Plan has evaluated subsequent events through the date of the report of these financial statements, which is the date the financial statements were available to be issued.

Note #2 – Description of the Plan

The Plan, established effective January 1, 1992, is a defined contribution plan covering substantially all employees of Industry Products Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Certain administrative expenses of the Plan are paid for by the Company. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Note #2 – Description of the Plan (Continued)

Eligibility Requirements – Employees become eligible to make employee deferrals and receive employer matching and qualified non-elective contributions on the entry date coincident with or next following age 21 and the completion of three months of service. Entry dates are the beginning of each month. Employees are auto enrolled at a 3% deferral rate with a 1% increase annually up to 6%.

Contributions – Participants may elect to defer up to 100% of their salary. These salary deferrals can be pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. A discretionary employer matching contribution may be made equal to a percentage of the Participant's salary reductions, excluding catch up deferrals. The employer matching contribution is 50% of the first 8% of employee salary deferrals. A discretionary non-elective employer contribution may be made and allocated to all eligible participants in the ratio that the participants eligible compensation bears to the total eligible compensation paid to all eligible participants, which was 0% of the participant's salary in 2017 and 2016. In addition, the employer may designate all or a portion of any non-elective contributions for a plan year as qualified non-elective contributions (QNEC) and allocate them to certain non-highly compensated employees to help the Plan pass one or more annually required non-discrimination tests. No discretionary profit sharing or QNEC contribution was made in 2017 or 2016. Participants must be employed at year end or have completed 1,000 hours of service during the year to be eligible for the discretionary non-elective employer contribution. However, a participant will be eligible for the discretionary non-elective employer contribution even if they do not satisfy the last day or annual service requirements due to retirement, death, or disability. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with contributions, as described above, and an allocation of Plan earnings and expenses. Earnings and expenses are allocated based on the investment account and the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loans must be repaid in less than 5 years, unless it is for the purchase of a principal residence. The loans are secured by the balance in the participants account and bear interest at a rate commensurate with local prevailing rates. The interest rate on loans initiated on or after January 1, 2016 is 4.5%. The interest rate on loans initiated prior to January 1, 2016 is 4.25%. Principal and interest is paid ratably through payroll deductions.

Benefit Payments – Benefit payments are available upon normal retirement at age 65, death, disability or termination of employment. Payments are made in the form of a lump-sum payment or installment payments with payments to begin no later than the end of the Plan year in which the participant attains age 70½. If the vested account balance does not exceed a certain threshold, the payment is automatically distributed in the form of a lump-sum payment (\$1,000 or less) or direct rollover to an IRA (\$5,000 or less). Prior to termination of employment, a participant may elect to withdraw all or a portion of his or her deferral account balance upon incurring a hardship, as defined by the Plan. In addition, the Plan allows for in-service withdrawals upon attaining the age of 59½.

Note #5 – Investments (Continued)

Accounting Standards Codification (ASC) 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 consist of unobservable inputs with the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The collective investment fund (Fund) is a Wells Fargo stable value fund invested in a collective trust fund sponsored by Wells Fargo Bank. The Fund does not invest directly in fully benefit-responsive contracts. The Fund is valued as a practical expedient utilizing the NAV, exclusive of the adjustment to contract value. The use of NAV as fair value is deemed appropriate as the Fund does not have a finite life, unfunded commitments, or significant restrictions on redemptions. If the Plan were to initiate a full redemption, the issuer reserves the right to require 12 months' notification.

The yield earned by the Fund at December 31, 2017 was 2.36%. This represents the annualized earnings of all investments in the Fund divided by the fair value of all investments in the Fund at December 31, 2017. The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2017 was 2.14%. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the Fund at December 31, 2017.

Note #6 – Income Tax Status

The Plan is designed in accordance with a standardized prototype by Fidelity Management & Research Co., which received a favorable tax opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the form of the plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan prototype has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable and requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Note #7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note #8 – Adoption of Accounting Standard

In 2016, the Plan adopted Accounting Standards Update (ASU) 2015-07, Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This standard excludes these investments from the fair value hierarchy. Management elected to early adopt the provisions of this new standard to simplify Plan reporting.
