General

The Plan is a single-employer defined contribution plan meeting the requirements of Section 401(k) of the Internal Revenue Code covering all employees of the Company who complete at least 1,000 hours and one year of service and are 21 years of age or older. If 1,000 hours are not met by an employee in first year of employment, he or she will be eligible the first plan year beginning after his or her hire date in which 1,000 hours of service is completed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute from 2 to 100 percent of pretax annual compensation, as defined in the Plan. Participant contributions are subject to Internal Revenue Code limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions and the Company's matching contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a group annuity contract as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. This provision has a default deferral rate set at 3% of eligible compensation. Contributions are automatically invested in a designated fund until changed by the participant. The Company contributes 40% of the first 6% of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations. In 2017, the Company made no profit sharing contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution, the Plan's earnings (losses), and certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant's account is charged a distribution fee for participant distributions.

(1) DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or due to other reasons, distributions under the Plan are made in a lump-sum amount equal to the value of the participant's vested interest in his or her account. Benefit payments are distributed to participants or their beneficiaries as soon as practicable.

Forfeited Accounts

Forfeitures of discretionary employer contributions will first be used to reduce Plan expenses, and any remaining forfeiture amount will be used to reduce the discretionary employer contributions.

The forfeiture account had a balance of $5,305 at December 31, 2016. There were no forfeiture balances at December 31, 2017. Forfeiture balances are included in the group annuity contract investment on the accompanying statement of net assets available for benefits. During the year ended December 31, 2017, $17,991 of forfeitures were used to reduce employer matching contributions.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Valuation of Investments and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Certain expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Date of Management Review

Management has evaluated subsequent events through August 20, 2018, the date which the financial statements were available to be issued.

(3) FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

(3) FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017:

	2017			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 9,389,715	$ -	$ -	$ 9,389,715
Investments at fair value	$ 9,389,715	$ -	$ -	$ 9,389,715

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	2016			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds	$ 7,505,808	$ -	$ -	$ 7,505,808
Investments at fair value	$ 7,505,808	$ -	$ -	$ 7,505,808

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2017 are reported in net appreciation in fair value of investments.

(4) GROUP ANNUITY CONTRACT

The Key Guaranteed Portfolio Fund is a group annuity contract the Plan entered into with Great-West Insurance Company (Great-West). The account is credited with the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(4) GROUP ANNUITY CONTRACT (CONTINUED)

Certain events limit the Plan's ability to transact at contract value with Great-West. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsors events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(5) PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(6) RELATED PARTY TRANSACTIONS

The plan holds a group annuity contract managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is the custodian as defined by the Plan. Transactions with this contract qualify as party-in-interest transactions. For the year ended December 31, 2017, the plan paid fees amounting to $51,889 to parties-in-interest for recordkeeping, brokerage, and investment advisory services. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

(7) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(8) TAX STATUS

The Plan uses a prototype plan document sponsored by Great-West Trust Company LLC. Great-West Trust Company received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Management has analyzed the Plan's tax positions taken on Federal income tax returns for all open tax years (current and prior three years) and has concluded that as of December 31, 2017, no provision for income tax is required in the Plan's financial statements. The Plan's Federal tax return for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service.
