1. Description of Plan

The following description of AAA Refrigeration Service, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employee of AAA Refrigeration Service, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee is eligible to participate upon completion of one Year of Service and attaining age 20. An employee is credited with a Year of Service at the end of the twelve month period beginning on his date of hire if he has been credited with at least 1,000 Hours of Service during such period. If the employee has not been credited with 1,000 Hours of Service by the end of such period, he will have completed a Year of Service at the end of any following twelve month period, based on his date of hire and anniversaries thereof, during which he was credited with 1,000 Hours of Service.

Participant Contributions

Participants of the Plan can contribute on a pre-tax basis a percentage of their compensation up to the maximum amount allowed under the Internal Revenue Code (“IRC”), $18,000 in 2017. Participants that are at least age 50 or they attain age 50 before the end of a calendar year may elect to defer additional amounts (called "catch-up contributions") to the plan for that year. The additional amounts may be deferred regardless of any other limitations on the amount that the participants may defer to the plan. The maximum "catch-up contribution" for 2017 is $6,000.

Employer Contributions

The employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participants’ elective deferrals each Plan Year. There was no discretionary contribution in 2017.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the employer discretionary contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their employee contributions and share of employer contributions into investment options offered by the Plan.

1. Description of Plan *(continued)*

Vesting
Participants are fully vested in their employee contributions plus actual earnings thereon. Vesting in employer contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account. Generally, the term of your loan may not exceed five years. However, if the loan is for the purchase of the participant's principal residence, the Plan may permit a longer repayment term. The loan must be repaid through payroll deduction.

Benefit Distributions
Benefit distributions are based on the vested interest of the participants' account upon retirement (age 65), death, disability, or termination of employment. The Plan also allows for hardship distributions, subject to certain plan provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income which is reinvested. Realized gains and losses on investments are recognized upon the sale of the related investments, and unrealized appreciation or depreciation is recognized at year end when the carrying values of the related investments are adjusted to their estimated fair value.

2. Summary of Significant Accounting Policies *(continued)*

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Accounting for Uncertainty in Income Taxes
The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition. The Plan is no longer subject to audits by the applicable taxing jurisdictions for tax periods prior to 2014.

Subsequent Event Evaluation by Management
Management has evaluated events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is July 24, 2018.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the new trustee has certified to the completeness and accuracy of all the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017, the supplemental Schedule H, Part, IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017 and the related investment activity reflected in the statement of changes in net assets available for benefits for the period June 1, 2017 to December 31, 2017. Reliance Trust Company, the trustee for the period until May 31, 2017, has certified to the completeness and accuracy of all the investments and related investment activity reflected in the statement of changes in net assets available for benefits for the period January 1, 2017 to May 31, 2017.

4. Investments and Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund (CCT) is valued at the net asset value (NAV) of units of the CCT. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV of the CCT is based on the CCT's underlying investment assets. The Plan's CCT is a stable value fund that holds guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs), which are fully benefit-responsive contracts. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like- quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service.

4. Investments and Fair Value Measurements *(continued)*

In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments at December 31, 2017 and 2016 are as follows:

December 31, 2017			
	Level 1	Level 2	Total
Mutual funds	4,453,485	$ -	$ 4,453,485
Common collective trust	-	172,606	172,606
	$ 4,453,485	$ 172,606	$ 4,626,091

December 31, 2016			
	Level 1	Level 2	Total
Mutual funds	$ 2,640,021	$ -	$ 2,640,021
Common collective trust	-	1,148,496	1,148,496
	$ 2,640,021	$ 1,148,496	$ 3,788,517

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Company believes that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Party-in-Interest

The Plan is managed by the Plan's record keeper, ADP until May 31, 2017 and Alliant, Inc. beginning June 1, 2017. Reliance Trust Company until May 31, 2017 and Fidelity Management Trust Company beginning June 1, 2017 are the Plan's trustee and custodian of funds. Accordingly, these transactions qualify as party-in-interest transactions.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
