During 2016, loan repayments only, totaling $15,303, were inadvertently transmitted late to the plan in 2016. When the error was subsequently discovered approximately two months later, the omitted payment was immediately transferred into the plan in 2016. The calculation of lost earnings to the plan due to the late payment amounted to $128, which was put into the plan in 2018. Per IRS instructions to Form 5500, the delinquent payment should be carried over and reported for each subsequent year until the year after the violation has been fully corrected, which correction includes payment of reimbursement for lost earnings. This rule necessitated this schedule being shown in 2017.

Notes to the Financial Statements
For the Year Ended December 31, 2017

NOTE 1—DESCRIPTION OF THE PLAN

The following description of the Food Express, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL: The Plan is a defined contribution plan that became effective September 1, 1989. The Plan was established to provide benefits to certain employees of Food Express, Inc. (the Company) as a Section 401(k) plan under the appropriate provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code.

ELIGIBILITY: All employees with at least six months of employment are eligible to participate in the Plan. Bargaining unit employees are not eligible.

CONTRIBUTIONS: Participants may elect to have part of their compensation deferred and directed annually to their salary contribution accounts. This contribution shall not exceed $18,000 per participant in any calendar year by law, as indexed. Additional catch up contributions up to $6,000 for participants over age 50 are also available.

The Company will match one hundred percent of the first three percent of total wages deferred by the employee, and an additional fifty percent of the next two percent of total wages deferred, for a maximum company match of four percent of the employee's salary. The Plan includes an auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. The Company may elect to make an additional matching contribution as of each December 31 at a total percentage determined by the Company.

PARTICIPANT ACCOUNTS: Each participant's account is credited with the participant's contributions as well as allocations of the Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined.

VESTING: Participants are immediately vested in their contributions. Participants are also fully vested in the Company's matching contributions from the first day of participation in the Plan.

BENEFITS: The participants' vested accounts are used to provide benefits. Upon a participant's attainment of normal retirement age, the participant will receive benefits under the Plan according to the benefit payment option chosen by the participant. In the event of termination of employment before retirement, if the participant's vested account has never exceeded $3,500, the vested account balance will be paid in a lump sum. Otherwise, the participant may leave the account under the Plan or elect to have the vested account paid out. There may be a penalty charge for amounts taken out of the account in a single sum.

FORFEITURES: Since participants are fully vested in both employer and employee contributions to the Plan, there are no plan forfeitures.

NOTE 1—DESCRIPTION OF THE PLAN (Continued)

NOTES RECEIVABLE FROM PARTICIPANTS: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of the participant's account balance. The loans are secured by the balance in the participant's account. The maximum number of loans a participant may have outstanding is one. The maximum number of loans that may be approved in any 12 month period is two. The maximum term of any loan is five years. Principal and interest are paid ratably through monthly payroll deductions.

LIFE INSURANCE: Participants may elect to have a portion of the contributions made to their accounts used to purchase life insurance. Federal law limits the amount of contributions used for this purpose.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING: The financial statements of the Plan are prepared using the accrual basis of accounting.

ADMINISTRATIVE: The Plan is administered by Food Express, Inc., as advised by the trustees of the Plan.

INVESTMENT VALUATION AND INCOME RECOGNITION: Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Interest income is recorded on the accrual basis.

NOTES RECEIVABLE FROM PARTICIPANTS: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or December 31, 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan is reduced and a benefit payment is recorded.

PAYMENT OF BENEFITS: Benefits are recorded when paid.

EXPENSES: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS: Certain Plan investments are pooled separate accounts managed by the Principal Life Insurance Company, the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

USE OF ESTIMATES: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

TAX STATUS: The Plan is a word-for-word adoption of a volume submitter document, and relies on an IRS lead letter approval issued March 31, 2014. The Plan has been amended since receiving the IRS lead letter approval. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed, and is being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. Generally, the Plan's Federal tax returns remain open for income tax examinations for three years after they are filed.

RISKS AND UNCERTAINTIES: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

ACCOUNTING POLICIES: In 2015, FASB issued ASU 2015-07 Fair Value Measurement (Topic 820). The The ASU removed the requirement to categorize investments measured at fair value using net asset value (NAV) as a practical expedient within the fair value hierarchy. In 2015, FASB also issued ASU 2015-12 Plan Accounting. The ASU makes contract value the relevant value for fully benefit responsive investment contracts.

SUBSEQUENT EVENTS: Subsequent events were evaluated through August 30, 2018, which is the date the financial statements were available to be issued.

NOTE 3—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4—POOLED SEPARATE ACCOUNTS

Participants in the Plan hold "unit" shares in pooled investment accounts managed by the Principal Mutual Life Insurance Company (The Principal). The dollar value of one unit is determined by The Principal at the close of each business day by dividing the value of the entire aggregate account by the total number of units in the account. The value of one participant's account is determined by multiplying the number of units held by the participant times the unit value at the close of the business

While the underlying assets in the investment accounts are owned by The Principal, investment accounts are separate accounts and are not part of The Principal's general account, therefore, realized and unrealized gains and losses in the investment accounts are independent of other income, gains, or losses of the Principal Mutual Life Insurance Company.

The value of the Plan is affected only by the change in market value of the pooled accounts, not by realized or unrealized gains or losses on the assets held by the pooled investment accounts. The Pooled Separate Accounts are valued using the net asset value (NAV) practical expedient, as shown in Note 8, at $9,964,807. There were no unfunded commitments, and the redemption period is daily, with a one day redemption notice period.

NOTE 5—GUARANTEED INTEREST ACCOUNT

The Guaranteed Interest Account ($93,907 as shown in Note 8) is part of The Principal's general fund account. There is a possible surrender charge when funds are withdrawn prior to their maturity. Thus, the Guaranteed Interest Accounts are considered non-benefit-responsive, and are shown at fair value. For these guaranteed interest accounts, most participant and Plan sponsor transactions that occur prior to maturity are realized at an adjusted contract value that takes into account the current rates of interest available in the marketplace for similar contracts. There are no unfunded commitments.

NOTE 6 —GUARANTEED INTEREST CONTRACT WITH INSURANCE COMPANY

In 2017, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Insurance totaling $586,484. Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 6 —GUARANTEED INTEREST CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the Plan's ability to transact at contract value with the insurer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 8—FAIR VALUE MEASUREMENT (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value.

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

U.S. generally accepted accounting principles establish a fair market value hierarchy that prioritizes the inputs for valuation techniques used to measure fair market value. The hierarchy consists of three broad levels:

Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets, and have the highest priority. The mutual funds are valued at the daily closing price reported by the fund.

Level 2 inputs include directly or indirectly observable inputs, other than the quoted prices included in Level 1, for valuing the asset or liability. Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market-observable inputs.

Level 3 inputs are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

Further details of the Level 3 fair value measurements are provided on the next page.
