Plan amendment – Effective March 31, 2017, the Plan amended the Adoption Agreement to elect to calculate the Matching Employer Contributions each plan year instead of each payroll period. Effective June 6, 2017, the Plan amended the Adoption Agreement to include Seasoned, LLC as a participating employer of the Plan. Effective August 1, 2017, the Plan amended the Adoption Agreement to change the automatic enrollment to 6% beginning on August 31, 2017. Effective September 1, 2017, the Plan amended the Plan Document to note that all reasonable costs and expenses incurred by the Administrator and Trustee for the Plan may be paid from forfeitures or suspense account.

Eligibility – Employees are eligible to participate in the Plan upon attaining three months of service and reaching the age of 21.

Contributions – Once an employee meets the eligibility requirements, the participant becomes automatically enrolled into the Plan at a 3% deferral percentage, as specified in the Plan Document. After enrollment, participants have the option to change deferral percentage at any time. Participants may elect to defer both pre-tax and after tax portions of their annual compensation, up to 100% of his or her annual salary, subject to IRC limitations. Participants with a deferral rate greater than zero, and who are not suspended from making contributions, will have that deferral automatically increased annually by 1% until a deferral rate of 6% is reached.

The Company may make both matching and discretionary contributions. Discretionary contributions will be allocated to the participants’ accounts in the same ratio as each participant’s compensation bears to the total compensation of all qualifying participants and allocated to investment funds, as the participant’s contributions are allocated. If the participant’s account does not allocate to an investment fund, the discretionary contributions are then allocated to a money market account in the participant’s account. Participants are eligible to receive Company matching and discretionary contributions after one year of service.

Participant accounts – Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Notes receivable from participants – Participants may borrow from the Plan a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 10 years from the date of the loan. Notes are secured by the balance in the participant’s account and bear interest at an agreed upon percentage based on prevailing market rates. Principal and interest is paid ratably through monthly payroll deductions. Participants are allowed one outstanding note.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Vesting – All participants' contributions and earnings thereon are fully vested. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is determined by years of continuous service. Participants will become 50% vested after one year of continuous service and 100% vested after two years of continuous service.

Forfeited accounts – Forfeitures of terminated participants' non-vested accounts are used to reduce future Company contributions and pay administrative expenses of the Plan. As of December 31, 2017 and 2016, forfeiture balances were \$98,202 and \$123,347, respectively. No forfeitures were used to pay Plan expenses in 2017. The Plan Administrator expects to use these amounts to reduce Company contributions.

Benefits – The full value of a participant's account is paid when (1) the participant retires at age 59 1/2 or later; (2) the participant becomes permanently disabled; (3) the participant terminates employment; or (4) the participant dies while an active participant in the Plan. Participants who terminate employment with less than two years of service receive the vested portion of their account balance.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of benefits – Benefits are recorded when paid.

Investment valuation and income recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note H for discussion of fair value measurements.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses – Certain expenses of maintaining the Plan are paid the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Administrative fees paid by the Plan were \$65,329 for the year ended December 31, 2017.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess contributions payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. During the year ended December 31, 2017, the Plan had no such liability. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Subsequent events – Subsequent events have been evaluated through August 31, 2018, which is the date the financial statements were available to be issued.

NOTE C – TAX STATUS

The Plan is a volume submitter 401(k) profit sharing plan created by Fidelity Management & Research Co. (Fidelity). The Internal Revenue Service has determined and informed Fidelity by a letter dated March 31, 2014, that the prototype is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE D – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE E – CERTIFIED INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Investments, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- b. Investment activity, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017.
- c. The schedule of assets held as of December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F – PARTIES-IN-INTEREST

Fidelity Management Trust Company is the Trustee and third party administrator as defined by the Plan and, therefore, transactions occurring between the Plan and the Trustee qualify as party-in-interest transactions. Certain administrative fees are deducted from the Plan assets by Fidelity Investment Trust Company. Total administrative fees paid to Fidelity Investment Trust Company for the year ended December 31, 2017 were \$65,329. In addition, the Plan Sponsor paid all other administrative costs of the Plan including the audit fee.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – FAIR VALUE MEASUREMENTS

– FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; and• inputs that are derived principally from or corroborated by observable market data by correlation or other means.• If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE H – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Money market: Valued at cost, which approximates fair value using Level 1 inputs.

Mutual funds: Valued at quoted prices in active markets based on the last reported sales price of the fund on the last day of business of the year on a national exchange using Level 1 inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following represent fair value measurements based on inputs as of December 31, 2017 and 2016:

December 31, 2017	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Money market	\$ 568,830	\$ 568,830	\$ -	\$ -
Mutual funds	17,314,246	17,314,246	-	-
	\$ 17,883,076	\$ 17,883,076	\$ -	\$ -

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE A – DESCRIPTION OF PLAN

The following description of Red Book Connect, LLC 401(k) Plan (the “Plan”) is provided for general informational purposes only. More complete information regarding the Plan’s provisions may be found in the Plan Document.

General – The Plan is a defined contribution plan established by Red Book Connect, LLC (the “Company”), under the provisions of Section 401(k) of the Internal Revenue Code (“IRC”). The Plan covers all eligible employees and is administered by the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan amendment – Effective March 31, 2017, the Plan amended the Adoption Agreement to elect to calculate the Matching Employer Contributions each plan year instead of each payroll period. Effective June 6, 2017, the Plan amended the Adoption Agreement to include Seasoned, LLC as a participating employer of the Plan. Effective August 1, 2017, the Plan amended the Adoption Agreement to change the automatic enrollment to 6% beginning on August 31, 2017. Effective September 1, 2017, the Plan amended the Plan Document to note that all reasonable costs and expenses incurred by the Administrator and Trustee for the Plan may be paid from forfeitures or suspense account.

Eligibility – Employees are eligible to participate in the Plan upon attaining three months of service and reaching the age of 21.

Contributions – Once an employee meets the eligibility requirements, the participant becomes automatically enrolled into the Plan at a 3% deferral percentage, as specified in the Plan Document. After enrollment, participants have the option to change deferral percentage at any time. Participants may elect to defer both pre-tax and after tax portions of their annual compensation, up to 100% of his or her annual salary, subject to IRC limitations. Participants with a deferral rate greater than zero, and who are not suspended from making contributions, will have that deferral automatically increased annually by 1% until a deferral rate of 6% is reached.

The Company may make both matching and discretionary contributions. Discretionary contributions will be allocated to the participants’ accounts in the same ratio as each participant’s compensation bears to the total compensation of all qualifying participants and allocated to investment funds, as the participant’s contributions are allocated. If the participant’s account does not allocate to an investment fund, the discretionary contributions are then allocated to a money market account in the participant’s account. Participants are eligible to receive Company matching and discretionary contributions after one year of service.

Participant accounts – Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Notes receivable from participants – Participants may borrow from the Plan a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 10 years from the date of the loan. Notes are secured by the balance in the participant’s account and bear interest at an agreed upon percentage based on prevailing market rates. Principal and interest is paid ratably through monthly payroll deductions. Participants are allowed one outstanding note.

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Vesting – All participants' contributions and earnings thereon are fully vested. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is determined by years of continuous service. Participants will become 50% vested after one year of continuous service and 100% vested after two years of continuous service.

Forfeited accounts – Forfeitures of terminated participants' non-vested accounts are used to reduce future Company contributions and pay administrative expenses of the Plan. As of December 31, 2017 and 2016, forfeiture balances were \$98,202 and \$123,347, respectively. No forfeitures were used to pay Plan expenses in 2017. The Plan Administrator expects to use these amounts to reduce Company contributions.

Benefits – The full value of a participant's account is paid when (1) the participant retires at age 59 1/2 or later; (2) the participant becomes permanently disabled; (3) the participant terminates employment; or (4) the participant dies while an active participant in the Plan. Participants who terminate employment with less than two years of service receive the vested portion of their account balance.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of benefits – Benefits are recorded when paid.

Investment valuation and income recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note H for discussion of fair value measurements.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses – Certain expenses of maintaining the Plan are paid the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Administrative fees paid by the Plan were \$65,329 for the year ended December 31, 2017.

NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess contributions payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. During the year ended December 31, 2017, the Plan had no such liability. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Subsequent events – Subsequent events have been evaluated through August 31, 2018, which is the date the financial statements were available to be issued.

NOTE C – TAX STATUS

The Plan is a volume submitter 401(k) profit sharing plan created by Fidelity Management & Research Co. (Fidelity). The Internal Revenue Service has determined and informed Fidelity by a letter dated March 31, 2014, that the prototype is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE D – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE E – CERTIFIED INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Investments, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- b. Investment activity, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017.
- c. The schedule of assets held as of December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F – PARTIES-IN-INTEREST

Fidelity Management Trust Company is the Trustee and third party administrator as defined by the Plan and, therefore, transactions occurring between the Plan and the Trustee qualify as party-in-interest transactions. Certain administrative fees are deducted from the Plan assets by Fidelity Investment Trust Company. Total administrative fees paid to Fidelity Investment Trust Company for the year ended December 31, 2017 were \$65,329. In addition, the Plan Sponsor paid all other administrative costs of the Plan including the audit fee.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – FAIR VALUE MEASUREMENTS

– FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; and• inputs that are derived principally from or corroborated by observable market data by correlation or other means.• If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE H – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Money market: Valued at cost, which approximates fair value using Level 1 inputs.

Mutual funds: Valued at quoted prices in active markets based on the last reported sales price of the fund on the last day of business of the year on a national exchange using Level 1 inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following represent fair value measurements based on inputs as of December 31, 2017 and 2016:

December 31, 2017	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Money market	\$ 568,830	\$ 568,830	\$ -	\$ -
Mutual funds	17,314,246	17,314,246	-	-
	\$ 17,883,076	\$ 17,883,076	\$ -	\$ -
December 31, 2016	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs

Mutual funds	12,367,633	12,367,633	-	-

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE A – DESCRIPTION OF PLAN

The following description of Red Book Connect, LLC 401(k) Plan (the “Plan”) is provided for general informational purposes only. More complete information regarding the Plan’s provisions may be found in the Plan Document.

General – The Plan is a defined contribution plan established by Red Book Connect, LLC (the “Company”), under the provisions of Section 401(k) of the Internal Revenue Code (“IRC”). The Plan covers all eligible employees and is administered by the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan amendment – Effective March 31, 2017, the Plan amended the Adoption Agreement to elect to calculate the Matching Employer Contributions each plan year instead of each payroll period. Effective June 6, 2017, the Plan amended the Adoption Agreement to include Seasoned, LLC as a participating employer of the Plan. Effective August 1, 2017, the Plan amended the Adoption Agreement to change the automatic enrollment to 6% beginning on August 31, 2017. Effective September 1, 2017, the Plan amended the Plan Document to note that all reasonable costs and expenses incurred by the Administrator and Trustee for the Plan may be paid from forfeitures or suspense account.

Eligibility – Employees are eligible to participate in the Plan upon attaining three months of service and reaching the age of 21.

Contributions – Once an employee meets the eligibility requirements, the participant becomes automatically enrolled into the Plan at a 3% deferral percentage, as specified in the Plan Document. After enrollment, participants have the option to change deferral percentage at any time. Participants may elect to defer both pre-tax and after tax portions of their annual compensation, up to 100% of his or her annual salary, subject to IRC limitations. Participants with a deferral rate greater than zero, and who are not suspended from making contributions, will have that deferral automatically increased annually by 1% until a deferral rate of 6% is reached.

The Company may make both matching and discretionary contributions. Discretionary contributions will be allocated to the participants’ accounts in the same ratio as each participant’s compensation bears to the total compensation of all qualifying participants and allocated to investment funds, as the participant’s contributions are allocated. If the participant’s account does not allocate to an investment fund, the discretionary contributions are then allocated to a money market account in the participant’s account. Participants are eligible to receive Company matching and discretionary contributions after one year of service.

Participant accounts – Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Notes receivable from participants – Participants may borrow from the Plan a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms are for a period not exceeding five years unless for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 10 years from the date of the loan. Notes are secured by the balance in the participant’s account and bear interest at an agreed upon percentage based on prevailing market rates. Principal and interest is paid ratably through monthly payroll deductions. Participants are allowed one outstanding note.

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Vesting – All participants' contributions and earnings thereon are fully vested. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is determined by years of continuous service. Participants will become 50% vested after one year of continuous service and 100% vested after two years of continuous service.

Forfeited accounts – Forfeitures of terminated participants' non-vested accounts are used to reduce future Company contributions and pay administrative expenses of the Plan. As of December 31, 2017 and 2016, forfeiture balances were \$98,202 and \$123,347, respectively. No forfeitures were used to pay Plan expenses in 2017. The Plan Administrator expects to use these amounts to reduce Company contributions.

Benefits – The full value of a participant's account is paid when (1) the participant retires at age 59 1/2 or later; (2) the participant becomes permanently disabled; (3) the participant terminates employment; or (4) the participant dies while an active participant in the Plan. Participants who terminate employment with less than two years of service receive the vested portion of their account balance.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of benefits – Benefits are recorded when paid.

Investment valuation and income recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note H for discussion of fair value measurements.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses – Certain expenses of maintaining the Plan are paid the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Administrative fees paid by the Plan were \$65,329 for the year ended December 31, 2017.

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess contributions payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. During the year ended December 31, 2017, the Plan had no such liability. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Subsequent events – Subsequent events have been evaluated through August 31, 2018, which is the date the financial statements were available to be issued.

NOTE C – TAX STATUS

The Plan is a volume submitter 401(k) profit sharing plan created by Fidelity Management & Research Co. (Fidelity). The Internal Revenue Service has determined and informed Fidelity by a letter dated March 31, 2014, that the prototype is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE D – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE E – CERTIFIED INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Investments, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- b. Investment activity, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017.
- c. The schedule of assets held as of December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE F – PARTIES-IN-INTEREST

Fidelity Management Trust Company is the Trustee and third party administrator as defined by the Plan and, therefore, transactions occurring between the Plan and the Trustee qualify as party-in-interest transactions. Certain administrative fees are deducted from the Plan assets by Fidelity Investment Trust Company. Total administrative fees paid to Fidelity Investment Trust Company for the year ended December 31, 2017 were \$65,329. In addition, the Plan Sponsor paid all other administrative costs of the Plan including the audit fee.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – FAIR VALUE MEASUREMENTS

– FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; and• inputs that are derived principally from or corroborated by observable market data by correlation or other means.• If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

RED BOOK CONNECT, LLC 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE H – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Money market: Valued at cost, which approximates fair value using Level 1 inputs.

Mutual funds: Valued at quoted prices in active markets based on the last reported sales price of the fund on the last day of business of the year on a national exchange using Level 1 inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following represent fair value measurements based on inputs as of December 31, 2017 and 2016:

December 31, 2017	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Money market	\$ 568,830	\$ 568,830	\$ -	\$ -
Mutual funds	17,314,246	17,314,246	-	-
	\$ 17,883,076	\$ 17,883,076	\$ -	\$ -
December 31, 2016	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Money market	\$ 512,909	\$ 512,909	\$ -	\$ -
