Note 1 - Description of the Plan and Significant Accounting Policies

The following description of George T. Sanders Co. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1976 and amended May 1, 2018. The Plan is available to all employees age 21 years or older who have completed 1,000 hours of service during the first 12 months of consecutive employment or during any subsequent Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of George T. Sanders Co. (the "Company") administers the Plan. John Hancock Retirement Plan Services ("John Hancock") serves as custodian and manages Plan assets. TPA Services, Inc. maintains the Plan's records and provides administrative services to the Plan. John Hancock offers Plan participants a variety of investment options through various pooled separate accounts and a guaranteed income fund. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 100% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a matching contribution of 100% of elective deferrals up to 3% of eligible compensation and 50% of elective deferrals between 3% and 5% of compensation. Matching contributions are funded each pay period. The Company contributed matching contributions of $182,668 for the year ended December 31, 2017.

The Plan also allows the Company to make a discretionary profit sharing contribution equal to a uniform percentage of each participant's compensation. The Company made a $300,000 discretionary profit sharing contribution for the year ended December 31, 2017. The discretionary profit sharing contribution to the Plan is contributed on an annual basis.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Profit sharing contributions and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or termination of the Plan.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump-sum payment in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

If the vested account balance is $1,000 or less, the benefit will be paid automatically to the participant as soon as administratively feasible following termination of employment. If the vested account balance is more than $1,000, but less than $5,000, the vested account will be distributed from the Plan. The participant may elect to receive this distribution in cash or to roll over the distribution to an individual retirement account ("IRA") or the qualified plan of a new employer. The benefit will automatically roll into an IRA if no election is made by the participant.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. At December 31, 2017 and 2016, forfeited non-vested accounts totaled $0 and $548, respectively. These amounts can be used to reduce future employer contributions. Forfeitures in the amount of $8,262 were applied to employer contributions during the year ended December 31, 2017.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by John Hancock are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

At both December 31, 2017 and 2016, three investments accounted for 54% of total investments at fair value. During the year ended December 31, 2017, three investments accounted for 58% of net realized/unrealized appreciation in fair value of investments.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. With the exception of the matter discussed below, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Subsequent Events (continued)

Effective May 1, 2018, the Plan was amended to allow participants to defer eligible compensation on an after-tax basis through regular payroll deductions as Roth 401(k) deductions.

Note 2 - Assets Certified by the Custodian

John Hancock has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the custodian, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Plan's investments are all measured at net asset value ("NAV"); therefore, there are no investments to report within the fair value hierarchy as of December 31, 2017 and 2016.

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts are recorded at NAV as reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the pooled separate accounts, changes in market condition and economic environment may significantly impact the NAVs of the pooled separate accounts and, consequently, the fair values of the pooled separate accounts. The fair value of these investments has been measured using the NAV per share of the Plan's ownership interest in pooled separate accounts.

The guaranteed income fund is designed to provide safety of principal and liquidity and a competitive rate of return. The valuation technique used to measure fair value of the guaranteed income fund was the NAV. A significant portion of the underlying investments in this guaranteed income fund have individually observable market prices.

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually. There were no changes to the valuation techniques used during the years presented.

Reported Net Asset Values

The following table for December 31, 2017 and 2016 sets forth a summary of the Plan's investments with a reported NAV.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the custodian's opinion letter, which was issued on the basic Plan document on March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts and a guaranteed income fund, which are managed by John Hancock. John Hancock is the asset custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.
