1. Description of the Plan

The LifeCare, Inc. 401(k) Plan (the "Plan"), as amended, is a defined contribution plan that was established November 1, 1995, and covers all eligible employees, as defined by the Plan, of LifeCare, Inc. (the "Company" or "Employer").

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement or Summary Plan Description, not included herein, for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

There is no minimum length of service required to participate in the Plan, and employees are eligible to begin participation on designated monthly enrollment dates provided that they have reached 21 years of age. Employees are eligible to receive Employer discretionary matching contributions after one year of service.

Contributions

Plan participants may contribute a portion of their eligible compensation to their employee deferral accounts, on a tax deferred basis. Participant contributions may not exceed the Federal statutory limit as specified by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer may make matching contributions in addition to the safe harbor matching contribution elected. The safe harbor matching contribution is made to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% but do not exceed 5% of the participant's compensation. The Employer may make matching contributions equal to a discretionary percentage, to be determined by the Employer, of the participants elective deferrals. In 2017, the Employer only made the safe harbor matching contribution to the Plan.

Participant Accounts

A participant's account is credited with the participant's contribution and allocations of (a) Employer contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan *(continued)*

Vesting

Participants are immediately vested in their contributions, safe harbor contributions, and actual earnings thereon. Employees are eligible to receive Employer discretionary matching contributions after one year of service and are fully vested in these contributions at that time.

Forfeited Accounts

Forfeited accounts are amounts forfeited by employees with a non-vested portion in their account that have terminated their employment and who have withdrawn from the Plan. Forfeited contributions will be used first to reduce expenses related to the administration of the plan and then to reduce any Employer contributions. At December 31, 2017 and 2016 forfeited non-vested amounts totaled $3,684 and $3,917. During 2017, $300 of forfeitures were used to reduce Plan expenses.

Payment of Benefits and Withdrawals

The Plan is designed to provide benefits at the time of retirement. However, if employment with the Company is terminated because of death, disability, or any other reason, a request for distribution of a participant's account balance is also allowed. If a participant dies while classified as an active member of the Plan, the participant's beneficiary or beneficiaries are entitled to receive 100% of the participant's account balance. Should a participant become totally and permanently disabled while employed by the Company, the full value of the participant's account balance may be distributed upon request.

Upon termination of employment, the vested amount of the participant's account will be distributed to the participant in a lump-sum cash payment if the participant's vested account balance is less than $5,000. If the account balance is greater than $5,000, the participant's written consent will be required for any distribution including the election of a rollover distribution to another qualified plan. Otherwise, the plan administrator will direct the custodian to begin distribution no later than April 1 of the calendar year after the participant attains the age of 70½. Upon reaching age 59½, pursuant to the Internal Revenue Code ("IRC"), participants may elect distributions from their accounts without any tax penalty.

Subject to certain limitations prescribed by the Plan and the IRC, participants may elect hardship withdrawals. In accordance with the IRC, a 10% premature distribution penalty tax may also be imposed on such withdrawals from a participant's account. In addition, the participant cannot make any rollover or employee contributions to the Plan for the six month period following the date of the hardship withdrawal.

Expenses

Administrative fees incurred in connection with loans and participant activity charges are borne by the individual and deducted from their respective Plan assets. Plan administration fees are borne by the Company. Investment related expenses are included in the net asset value of the respective investment vehicle and, consequently, those expenses are not separately reflected but are a component of net appreciation (depreciation) in fair value of investments.

1. Description of the Plan *(continued)*

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The loans bear interest at the prime rate and are secured by the participants account. The loans plus interest are repaid through payroll deduction in equal payments over the term of the loan (up to five years). A participant may have no more than one outstanding loan from the Plan at any time. Upon termination of service, the principal and accrued interest shall be immediately due and payable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 input have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist. At December 31, 2017 and 2016, all investments, that were valued at fair value, were valued using level 1 inputs.

Investment Valuation and Income Recognition

All of the Plan's investments are valued at fair value, except for the insurance company general account which is recorded at contract value. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The insurance company general account is valued at contract value, which represents contributions plus credited interest less participant withdrawals and fees.

2. Summary of Significant Accounting Policies *(continued)*

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Accounting of Uncertainty of Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The plan administrator believes that the Plan is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to December 31, 2014.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is September 5, 2018.

3. Information Certified (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of Department of Labor's Rules Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company ("MassMutual") and Reliance Trust Company, the custodian and trustee of the Plan, have certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017, and the supplemental Schedule H, Part IV, Line 4i –Schedule of Assets (Held at End of Year) as of December 31, 2017.

4. MassMutual Capital Preservation

The MassMutual Capital Preservation investment option is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the Capital Preservation group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance at contract value. MassMutual reserves the right to impose or not impose the deferral period based on circumstances at the time of notice of termination. Based on current practices, participant withdrawals are permitted during the deferral period provided there is continuity of plan operations, including but not limited to MassMutual's continuing role as the Plan's record-keeper.

Certain events may limit the ability of the Plan to currently transact at contract value and may result in a deferral of the payment at contract value for up to twelve months. Such events include but may not be limited to the following: (1) removal of a group of participants from Plan coverage as a result of temporary absence, change in position or other occurrence qualifying as a temporary break in service under the Plan; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Employer; (3) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Employer's business; (4) removal from the Plan of one or more groups or classifications of participants; (5) partial or complete termination of the Plan; or (6) Plan disqualification.

Since the MassMutual Capital Preservation investment option is fully benefit-responsive, it is stated at contract value on the statements of net assets available for benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the MassMutual Capital Preservation investment option.

5. Party-in-Interest Transactions

Certain Plan investments are managed by MassMutual Retirement Services ("MMRS"). MMRS is a division of MassMutual, the custodian of the Plan, and therefore, these transactions qualify as exempt party-in-interest under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statements of net assets available for benefits.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan has an agreement with MassMutual whereby MassMutual will pay the Plan's investment advisor, UBS Financial Services Inc., on behalf of the Plan. The payments come from MassMutual and are not a plan asset. Each month, MassMutual will calculate the eligible credits by multiplying the value of the Plan's assets as of the last business day of the month by 1/12th of the annual reimbursement credit percentage which is 0.25%. For the year ended December 31, 2017, the eligible credits paid to UBS Financial Services Inc. on behalf of the Plan totaled $35,163.

6. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to Provision of ERISA.

7. Tax Status

The Plan was formed using a prototype plan designed by the custodian. The IRS has determined and informed the custodian by letter dated March 31, 2014 that the prototype plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

1. Description of the Plan

The LifeCare, Inc. 401(k) Plan (the "Plan"), as amended, is a defined contribution plan that was established November 1, 1995, and covers all eligible employees, as defined by the Plan, of LifeCare, Inc. (the "Company" or "Employer").

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement or Summary Plan Description, not included herein, for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

There is no minimum length of service required to participate in the Plan, and employees are eligible to begin participation on designated monthly enrollment dates provided that they have reached 21 years of age. Employees are eligible to receive Employer discretionary matching contributions after one year of service.

Contributions

Plan participants may contribute a portion of their eligible compensation to their employee deferral accounts, on a tax deferred basis. Participant contributions may not exceed the Federal statutory limit as specified by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer may make matching contributions in addition to the safe harbor matching contribution elected. The safe harbor matching contribution is made to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% but do not exceed 5% of the participant's compensation. The Employer may make matching contributions equal to a discretionary percentage, to be determined by the Employer, of the participants elective deferrals. In 2017, the Employer only made the safe harbor matching contribution to the Plan.

Participant Accounts

A participant's account is credited with the participant's contribution and allocations of (a) Employer contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan *(continued)*

Vesting

Participants are immediately vested in their contributions, safe harbor contributions, and actual earnings thereon. Employees are eligible to receive Employer discretionary matching contributions after one year of service and are fully vested in these contributions at that time.

Forfeited Accounts

Forfeited accounts are amounts forfeited by employees with a non-vested portion in their account that have terminated their employment and who have withdrawn from the Plan. Forfeited contributions will be used first to reduce expenses related to the administration of the plan and then to reduce any Employer contributions. At December 31, 2017 and 2016 forfeited non-vested amounts totaled $3,684 and $3,917. During 2017, $300 of forfeitures were used to reduce Plan expenses.

Payment of Benefits and Withdrawals

The Plan is designed to provide benefits at the time of retirement. However, if employment with the Company is terminated because of death, disability, or any other reason, a request for distribution of a participant's account balance is also allowed. If a participant dies while classified as an active member of the Plan, the participant's beneficiary or beneficiaries are entitled to receive 100% of the participant's account balance. Should a participant become totally and permanently disabled while employed by the Company, the full value of the participant's account balance may be distributed upon request.

Upon termination of employment, the vested amount of the participant's account will be distributed to the participant in a lump-sum cash payment if the participant's vested account balance is less than $5,000. If the account balance is greater than $5,000, the participant's written consent will be required for any distribution including the election of a rollover distribution to another qualified plan. Otherwise, the plan administrator will direct the custodian to begin distribution no later than April 1 of the calendar year after the participant attains the age of 70½. Upon reaching age 59½, pursuant to the Internal Revenue Code ("IRC"), participants may elect distributions from their accounts without any tax penalty.

Subject to certain limitations prescribed by the Plan and the IRC, participants may elect hardship withdrawals. In accordance with the IRC, a 10% premature distribution penalty tax may also be imposed on such withdrawals from a participant's account. In addition, the participant cannot make any rollover or employee contributions to the Plan for the six month period following the date of the hardship withdrawal.

Expenses

Administrative fees incurred in connection with loans and participant activity charges are borne by the individual and deducted from their respective Plan assets. Plan administration fees are borne by the Company. Investment related expenses are included in the net asset value of the respective investment vehicle and, consequently, those expenses are not separately reflected but are a component of net appreciation (depreciation) in fair value of investments.

1. Description of the Plan *(continued)*

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The loans bear interest at the prime rate and are secured by the participants account. The loans plus interest are repaid through payroll deduction in equal payments over the term of the loan (up to five years). A participant may have no more than one outstanding loan from the Plan at any time. Upon termination of service, the principal and accrued interest shall be immediately due and payable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 input have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist. At December 31, 2017 and 2016, all investments, that were valued at fair value, were valued using level 1 inputs.

Investment Valuation and Income Recognition

All of the Plan's investments are valued at fair value, except for the insurance company general account which is recorded at contract value. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The insurance company general account is valued at contract value, which represents contributions plus credited interest less participant withdrawals and fees.

2. Summary of Significant Accounting Policies *(continued)*

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Accounting of Uncertainty of Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The plan administrator believes that the Plan is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to December 31, 2014.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is September 5, 2018.

3. Information Certified (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of Department of Labor's Rules Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company ("MassMutual") and Reliance Trust Company, the custodian and trustee of the Plan, have certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017, and the supplemental Schedule H, Part IV, Line 4i –Schedule of Assets (Held at End of Year) as of December 31, 2017.

4. MassMutual Capital Preservation

The MassMutual Capital Preservation investment option is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the Capital Preservation group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance at contract value. MassMutual reserves the right to impose or not impose the deferral period based on circumstances at the time of notice of termination. Based on current practices, participant withdrawals are permitted during the deferral period provided there is continuity of plan operations, including but not limited to MassMutual's continuing role as the Plan's record-keeper.

Certain events may limit the ability of the Plan to currently transact at contract value and may result in a deferral of the payment at contract value for up to twelve months. Such events include but may not be limited to the following: (1) removal of a group of participants from Plan coverage as a result of temporary absence, change in position or other occurrence qualifying as a temporary break in service under the Plan; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Employer; (3) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Employer's business; (4) removal from the Plan of one or more groups or classifications of participants; (5) partial or complete termination of the Plan; or (6) Plan disqualification.

Since the MassMutual Capital Preservation investment option is fully benefit-responsive, it is stated at contract value on the statements of net assets available for benefits. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the MassMutual Capital Preservation investment option.

5. Party-in-Interest Transactions

Certain Plan investments are managed by MassMutual Retirement Services ("MMRS"). MMRS is a division of MassMutual, the custodian of the Plan, and therefore, these transactions qualify as exempt party-in-interest under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statements of net assets available for benefits.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan has an agreement with MassMutual whereby MassMutual will pay the Plan's investment advisor, UBS Financial Services Inc., on behalf of the Plan. The payments come from MassMutual and are not a plan asset. Each month, MassMutual will calculate the eligible credits by multiplying the value of the Plan's assets as of the last business day of the month by 1/12th of the annual reimbursement credit percentage which is 0.25%. For the year ended December 31, 2017, the eligible credits paid to UBS Financial Services Inc. on behalf of the Plan totaled $35,163.

6. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to Provision of ERISA.

7. Tax Status

The Plan was formed using a prototype plan designed by the custodian. The IRS has determined and informed the custodian by letter dated March 31, 2014 that the prototype plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
