INDEPENDENT AUDITOR'S REPORT

Plan Administrator of the
Denison University Tax Deferred Annuity Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Denison University Tax Deferred Annuity Plan (the Plan), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association of America – College Retirement Equity Fund (TIAA-CREF), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that TIAA-CREF Trust Company, FSB, and TIAA-CREF hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from TIAA-CREF as of December 31, 2017 and 2016 and for the year ended December 31, 2017, that the information provided to the plan administrator by TIAA-CREF is complete and accurate. The TIAA-CREF certification as insurance companies extends to investments of the Plan held by TIAA-CREF Trust Company, FSB, as directed trustee or custodian, as of December 31, 2017 and 2016 and for the year ended December 31, 2017, that are recordkept

Basis for Disclaimer of Opinion (continued)

by TIAA-CREF and is provided on behalf of TIAA-CREF Trust Company, FSB pursuant to an agreement providing TIAA-CREF with specific authority to certify plan records as required by 29 CFR 2520.103-5(d).

As described in Note 2, the Plan has excluded from investments in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016 certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying 2017 statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. The modified cash basis of accounting requires that these accounts and related income and distributions be included in the accompanying financial statements.

As described in Note 2, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Because of inadequacies in the Plan's prior year records, we were unable to obtain sufficient appropriate audit evidence with respect to individual participant account balances accumulated from the inception of the Plan or the basis on which participant's equity (i.e., net assets available for benefits) is stated as of December 31, 2017 and 2016, or the propriety of investment income and the benefit payments to participants during 2017.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Other Matter

The supplemental Schedule H, line 4a – Schedule of Delinquent Participant Contributions (modified cash basis) for the year ended December 31, 2017 and Schedule H, line 4i – Schedule of Assets (Held At End of Year) (modified cash basis) as of December 31, 2017 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2017

1. Description of the Plan

The following description of the Denison University Tax Deferred Annuity Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

Denison University (the “University”) established the Plan to help employees save for retirement. Employees of the University, unless a specifically excluded student of the University as defined in the Plan and in accordance with the universal availability standards, are immediately eligible to contribute a portion of their pay to the Plan, as soon as administratively feasible. The Plan is a defined contribution plan subject to the provisions of the Employee retirement Income Security Act of 1974 (“ERISA”).

Plan Contributions

The primary contributions to the Plan are participant pre-tax elective deferral contributions made from eligible compensation. By so designating on an agreement for salary reduction under Section 403(b) form, participants may also make Roth (after-tax) elective deferral contributions to the Plan. Participants may contribute amounts up to the annual limit established by the Plan. Participants who have attained age 50 by the end of the plan year or are eligible for special 403(b) catch-up contributions based on years of service may contribute additional amounts as specified in the Plan. Contributions are subject to certain non-discrimination tests prescribed by the Internal Revenue Code and other limitations specified in the Plan.

Effective during December 2016, the Plan established an auto-enrollment feature, which provides a 3% automatic deferral rate for all newly eligible participants, and active eligible participants who were either not making deferrals or had a deferral percentage or amount that represented less than 3% of eligible compensation. The changes to the Plan for participants who are auto-enrolled and do not opt out, include an annual escalation of deferral percentages of 1% per year until a total of 7% deferral rate is attained, unless the escalation is opted out of by the participant. In addition, the Plan changes eliminated the election of flat dollar amount deferrals and all deferrals were converted to and will be maintained going forward as a percentage of eligible compensation.

Participant Investment Rollovers

Participants are allowed to rollover funds into the Plan from other qualified retirement plans, 403(b) plans, government 457(b) plans or a traditional IRA.

Notes to Financial Statements (Modified Cash Basis) (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with participant's pre-tax elective deferral contributions, Roth (after-tax) elective deferral contributions, catch-up contributions, eligible rollovers and allocations of Plan gains or losses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts. All amounts in participant accounts are participant-directed.

Investment Options

Participants may direct the investment of their pre-tax elective deferral contributions, Roth (after-tax) elective deferral contributions, catch-up contributions and their rollovers into a fixed-dollar annuity contract or various investments in registered investment companies offered under variable annuity contracts or held in custodial accounts offered by the Plan. A pooled separate account investment is also offered under by the Plan.

Vesting

Participants are immediately 100% vested in their pre-tax elective deferral contributions, Roth (after-tax) elective deferral contributions, catch-up contributions and rollover contributions and all actual earnings thereon.

Distributions

Upon retirement at age 65, disability or death, a participant or beneficiary with proper consents when required receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in the form of an annuity contract or other distribution options available under the Plan. Individual annuity contracts held may contain additional distribution restrictions. Upon the earlier of the attainment of age 59 and one-half or termination of employment, a participant becomes eligible to receive the current value of the participants' vested account in a lump-sum or, at the participant's election, in the form of an annuity contract or other distribution options available under the Plan. Hardship withdrawals are available under the terms described in the Plan.

Notes to Financial Statements (Modified Cash Basis) (continued)

1. Description of the Plan (continued)

Plan Loans

Participants of the Plan may borrow directly from TIAA. Such plan loans are not reported in the Plan's net assets available for benefits. However, participants are required to maintain 110% of their outstanding plan loan balances, which are not deemed distributed, as collateral in their TIAA Traditional contract balance within the Plan. Outstanding plan loans deemed distributed result in 100% of such plan loans being held as collateral within the Plan's net assets invested in the TIAA Traditional contract, in a plan loan default fund pending a distributable event. Participants had outstanding Plan loans of approximately \$239,000 and \$292,000 at December 31, 2017 and 2016, respectively, which were collateralized by approximately \$260,000 and \$317,000 of Plan assets held in the insurance company general account traditional fixed-dollar annuity contract fund option at December 31, 2017 and 2016, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States. Consequently, contributions are recognized when received rather than when earned, and expenses and benefits are recognized when paid rather than when the obligation is incurred.

Excluded Contracts and Accounts

The plan administrator has elected to exclude certain contracts and accounts from plan assets in accordance with DOL FAB 2009-02 due to the fact that:

- The contract or account was issued to a current or former employee before January 1, 2009;
- The employer ceased to have any obligation to make contributions (including employee salary reduction contributions) and in fact stopped making contributions to the contract or account before January 1, 2009;

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

2. Summary of Significant Accounting Policies (continued)

Excluded Contracts and Accounts (continued)

- All the rights under the contract or account are legally enforceable against the insurer or custodian by the individual owner of the contract or account without any involvement by the employer; and
- The individual owner of the contract is fully vested in the contract or account.

Transfers of participant account balances from these excluded contracts or accounts into the contract and accounts that are included in the Plan are reported as additions in the statement of changes in net assets available for benefits, if any occur during the plan year.

Availability of Plan Accounting Records

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Plan level accounting records such as individual participant account valuations are not available prior to January 1, 2008. The extent to which the 2017 and 2016 financial statements may have been affected by these conditions is not determinable.

Investment Valuation and Income Recognition

At December 31, 2017 and 2016, the Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The net appreciation in the fair value of investments includes realized and unrealized gains and losses on the fair value of investments held by the Plan. Net appreciation in fair value of investments is reported net of investment expenses and offsetting servicing credits. Purchases and sales of investments are recorded on a settlement date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date.

Investment contracts held by a defined-contribution plan (except for fully benefit-responsive investment contracts, which are reported at contract value) are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits for a defined-contribution plan attributable to fully benefit-responsive

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive and non benefit-responsive investment contracts such as the TIAA Traditional fixed-dollar annuity contract. As of December 31, 2017 and 2016 the non benefit-responsive TIAA Traditional fixed-dollar annuity contract are valued at fair value, which approximates contract value. The statements of net assets available for benefits presents the non benefit-responsive TIAA Traditional fixed-dollar annuity contract at fair value, which because of the relationship between fair value and contract value requires no adjustment from fair value to contract value as of December 31, 2017 and 2016.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Contributions are recorded in the period in which the participants make the contribution.

Distributions

Distributions are recorded when paid.

Expenses

The Plan's administrative expenses not paid by the Plan are paid by the University.

Subsequent Events

The plan administrator has evaluated subsequent events through July 18, 2018, the date the financial statements were available to be issued.

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments at fair value and at contract value held at December 31, 2017 and 2016, and net appreciation in fair value of investments and interest and dividend income for the year ended December 31, 2017 were obtained or derived from information provided to the plan administrator and certified as complete and accurate by Teachers Insurance and Annuity Association of America – College Retirement Equities Fund (“TIAA-CREF”). The TIAA-CREF certification as insurance companies extends to investments of the Plan held by TIAA-CREF Trust Company, FSB, as a directed trustee or custodian, as of December 31, 2017 and 2016 and for the year ended December 31, 2017, that are recordkept by TIAA-CREF and is provided on behalf of TIAA-CREF Trust Company, FSB pursuant to an agreement providing TIAA-CREF with specific authority to certify plan records as required by 29 CFR 2520.103-5(d).

4. Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

4. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the plan administrator for assets measured at fair value.

Shares of registered investment companies, which are mutual funds, are valued at the quoted net asset value (NAV) of the shares held by the Plan at year end. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The traditional annuity contract (investment in insurance company general account) non benefit-responsive are valued at fair value by TIAA-CREF by discounting the related cash flows using an appropriate risk-adjusted market discount rate which correlates closely with the TIAA traditional annuities historical crediting rates and considering the creditworthiness of the issuer. Contract value approximates discounted cash flow fair value calculated in this manner. See Note 5. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and data, and overall credit ratings.

Investments in registered investment companies, which are College Retirement Equities Fund (CREF) accounts under variable annuity contracts, are valued at the accumulation unit value (AUV) of the accumulation units held of the respective account. The AUV as provided by TIAA-CREF is used as a practical expedient (an equivalent to NAV) to estimate fair value of accumulation units held at the end of the year. The AUV is based on the fair value of the underlying investments of the accounts. The AUV for financial reporting purposes may differ from the AUV for processing transactions. The pooled separate account invests in real estate properties and real estate-related investments. Investments in the pooled separate account are valued at the NAV of the accumulation units held. The NAV as provided by TIAA-CREF and reported in the account's audited financial statements included in its annual report on Form 10-K filed with the Securities and Exchange Commission is used as a practical expedient to estimate fair value of the accumulation units held at the end of the year. The NAV is determined each business day based on the estimated fair value of the underlying investments of the account. The

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

4. Fair Value Measurements (continued)

NAV per accumulation unit for financial reporting purposes may differ from the NAV per accumulation unit used for processing transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

4. Fair Value Measurements (continued)

- (c) The CREF Money Market Account R2 seeks high current income consistent with maintaining liquidity and preserving capital.
- (d) The CREF Global Equities Account R2 seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks.
- (e) The CREF Stock Account R2 seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.
- (f) The CREF Growth Account R2 seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- (g) The CREF Equity Index Account R2 seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the U.S., as represented by a broad stock market index.
- (h) The CREF Social Choice Account R2 seeks a favorable long-term rate of return that reflects the investment performance of financial markets while giving special consideration to certain social criteria.
- (i) The TIAA Real Estate Pooled Separate Account seeks favorable long-term returns primarily through rental income and capital appreciation of real estate and real estate-related investments owned by the account.
- (j) Effective March 31, 2011, internal transfers by individual participants into the TIAA Real Estate Pooled Separate Account are limited, if after giving effect to such transfer, the total value of such participant's account accumulation under all contracts issued to such participant would exceed \$150,000. The purpose of this limitation is to ensure more predictable account inflows and outflows, which is expected to facilitate investing and managing the portfolio with a long-term perspective.

Denison University Tax Deferred Annuity Plan

Notes to Financial Statements (Modified Cash Basis) (continued)

5. Investment in Insurance Company General Account

The Plan maintains fully benefit-responsive and non benefit-responsive fixed-dollar traditional annuity contract with Teachers Insurance and Annuity Association of America (TIAA), an insurance company. Contributions to the TIAA Traditional Annuity contract purchase a contractual or guaranteed amount of future benefits for the participant. Investments in the TIAA Traditional Annuity are secured by the general assets of TIAA and maintained in a general account. The account is credited with earnings on underlying investments and charged for participant withdrawals. TIAA is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan and the potential for additional interest if declared by TIAA. Additional interest is not guaranteed for future years.

Contract value as reported to the Plan by TIAA-CREF, represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of their investment in the fully benefit-responsive contract at contract value. Participants may ordinarily direct the withdrawal or transfer of their investment in the non benefit-responsive contract at contract value, subject to the liquidity restrictions provided in the contract, which may require amounts to be paid over a period of up to ten annual installments. See Note 2. When a participant's account is annuitized based on available options, the present value of the stream of payments is equal to the account balance. Such annuitized benefits are reflected in the statement of changes in net assets available for benefits as annuity settlement option payments.

There are no reserves against contract value for credit risk of the contract issuer (TIAA) or otherwise. The crediting interest rate may not be less than 3 percent. Such interest rates are reviewed periodically for resetting. Average yields under the contract were 4.13% and 4.20% for non benefit-responsive amounts for 2017 and 2016, respectively, based on actual earnings and on interest rate credited to participants.

The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

7. Income Tax Status

The Plan's terms have been drafted in reliance on the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its tax-exempt status. Plan management believes the Plan is currently designed in compliance with the applicable requirements of the Code and will be taking the steps necessary to correct operational matters that have come to their attention to maintain the tax-exempt status of the Plan. See Note 10. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require the recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Transfer of Assets into this Plan

During the Plan's external limited scope audit of the plan year ended December 31, 2016 (the prior year), it was determined that the \$190,985 transfer of assets from this Plan, initiated by a participant from their account balance in the Denison University Tax Deferred Annuity Plan and reflected in the 2016 statement of changes in net assets available for benefits, was not a permissible transaction under terms of the Denison University Core Retirement Plan, the plan to which the funds were transferred. Accordingly, Plan management worked with the participant and the Plan's service providers to reverse the effects of the transfer, plus earnings thereon, as a \$226,981 transfer of assets into this Plan reported during the 2017 plan year and reflected in the 2017 statement of changes in net assets available for benefits.

10. Delinquent Employee Deferral Transmittals

During the Plan's external limited scope audit of the plan year ended December 31, 2017, it was determined that there were \$597,623 of delinquent employee deferral transmittals. With the exception of \$818, which was remitted in March of 2018, all of these delinquent employee deferrals have been remitted to the Plan prior to December 31, 2017 and are included in the determination of net assets available for benefits reported as of December 31, 2017. The University is in the process of determining the extent of lost earnings on the delinquent transmittals, which are estimated to be less than \$750 in total, which the University will remit to the Plan on behalf of affected participants, and have posted to their individual participant accounts during 2018.
