TORQTEK DESIGN & MANUFACTURING, LLC
401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF PLAN

The following description of the TorqTek Design & Manufacturing, LLC 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of TorqTek Design & Manufacturing, LLC (the "Sponsor") who have at least 6 months of qualified service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code (the "IRC").

As discussed in Note 8, The Sponsor was acquired in 2017 and all employees terminated as of March 31, 2017.

Contributions

Eligible participants may contribute to the Plan a percentage of their compensation, as defined by the Plan, under a salary deferral arrangement, subject to IRC limitations. The Plan also allows participant rollover contributions, which represent distributions from other qualified plans. The Sponsor, at its sole discretion, may make matching contributions of participant deferral contributions. During the year ended December 31, 2017, the Sponsor matched 50% of participant deferral contributions, up to 4% of the participant's annual compensation. The Sponsor, at its sole discretion, may also make profit-sharing contributions on behalf of all participants, without regard to the participants' contributions, equal to a percentage of the participants' compensation. For the year ended December 31, 2017, the Sponsor made no discretionary profit-sharing contributions.

Investment options

The Plan's investment assets were held by Ascensus Trust Company (the "Custodian"), the custodian of the Plan's assets. Under this arrangement with the Custodian and upon enrollment in the Plan, participants direct contributions in any whole percentage or dollar increment into any of the available funds. Participants may change their allocations among the various investment options at any time.

Participant accounts

Each participant's account is credited with (a) the participant's contributions, (b) the Sponsor's contributions on behalf of the participant, and (c) the earnings and losses of the participant's investments and is charged with any expenses incurred as a result of transactions initiated by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's contributions and actual earnings thereon is based on years of qualifying service. A participant is 100% vested after three years of credited service. As discussed in Note 8, all participants became fully vested March 31, 2017.

Forfeitures of nonvested balances are used to pay administrative expenses in the year following the year in which the forfeitures occur or to reduce future Sponsor contributions. Amounts forfeited during the year ended December 31, 2017 totaled $4,687. Forfeitures totaling $7,754 were used to pay administrative expenses and to reduce Sponsor contributions for the year ended December 31, 2017. Accumulated forfeitures available to pay future administrative expenses or to reduce future matching contributions totaled $8 and $2,489 at December 31, 2017 and 2016, respectively.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Terms of loans may not exceed five years, except for loans to purchase a principal residence, which may be longer. The loans are secured by the balance in the participant's account and bear interest at a fixed rate determined by the Plan's administrator at the date of origination. This rate may be no less than prime plus 1%. Principal and interest are paid ratably through periodic payroll deductions. Interest rates on participant loans outstanding at December 31, 2016 ranged from 4.25% to 5.25%. There were no loans outstanding at December 31, 2017.

Payment of benefits
Upon termination of service or for reasons of death or disability, a participant whose vested account balance exceeds $1,000 may request a lump-sum distribution equal to the value of the participant's vested interest in his or her account. If no such request is made, distribution is made at normal retirement age. A terminated participant whose vested account balance does not exceed $1,000 will receive a lump sum distribution of the vested account balance immediately following termination. A participant whose vested account balance exceeds $1,000 but does not exceed $5,000 will have their vested account balance rolled over into an individual retirement account outside of the Plan in their name as soon as administratively feasible following termination of employment. Active employees may withdraw from employee deferrals upon attainment of age 59 ½ or for reasons of financial hardship, as defined by IRC. Active employees may withdraw from vested employer contributions and rollover contributions upon attainment of age 21.

Administrative expenses
Administrative fees associated with certain participant-directed transactions are paid by the Plan. These fees are charged to the accounts of the participants who initiate the transactions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Payment of benefits
Benefits are recorded when paid.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as distributions based upon the Plan's provisions.

Refunds of excess contributions
Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2017 excess contributions totaling $10,239 to the applicable participants before March 15, 2018.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

Subsequent events

The Sponsor has evaluated subsequent events through August 7, 2018, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Ascensus, Inc. (the "Agent"), as agent for the Custodian, except for comparing such information certified by the Agent to information included in the Plan's financial statements and supplemental schedule.

The following information included in the Plan's financial statements and supplemental schedule was prepared and certified to be complete and accurate by the Agent as of December 31, 2017 and 2016, and for the year ended December 31, 2017:

	2017	2016
Investments at fair value:		
Mutual funds	$ 1,741,563	$ 6,686,991
Collective trust	576,771	754,756
	$ 2,318,334	$ 7,441,747

	2017
Investment income:	
Net appreciation in fair value of investments	$ 583,464
Dividends	44,889
	$ 628,353

4. RELATED PARTY TRANSACTIONS

The Sponsor pays certain costs on behalf of the Plan for third party administration, insurance, and audit fees. The Sponsor also provides recordkeeping and administrative services to the Plan at no cost.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the year ended December 31, 2017.

- Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- Collective trust: Valued at the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	Investments at fair value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds:	$ 1,741,563	$ -	$ -	$ 1,741,563
Total assets in fair value hierarchy	$ 1,741,563	$ -	$ -	1,741,563
Investments measured using NAV as a practical expedient				576,771
Investments at fair value				$ 2,318,334

	Investments at fair value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds:	$ 6,686,991	$ -	$ -	$ 6,686,991
Total assets in fair value hierarchy	$ 6,686,991	$ -	$ -	6,686,991
Investments measured using NAV as a practical expedient				754,756
Investments at fair value				$ 7,441,747

6. TAX STATUS

The Plan utilizes a prototype plan document sponsored by the Agent who received a letter from the Internal Revenue Service (the "IRS"), dated March 31, 2014, in which the IRS opined that the prototype plan is acceptable under the applicable sections of the IRC.

The Plan has not obtained a determination from the IRS on its adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2002-6, the Sponsor has chosen to rely on the opinion letter of the prototype plan. Subsequent to this opinion letter, the prototype plan has been amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress, and the Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2014.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. PLAN AMENDMENT AND SPIN OFF

In 2017, the Sponsor was acquired by MPG (Metaldyne Performance Group) who was then purchased by American Axle. Employees of the Sponsor were terminated and the Plan document was amended to remove vesting requirements and terminated participants became fully vested in their accounts effective March 31, 2017. On June 29, 2017 a partial plan transfer was initiated and all participating employees' Plan balances were transferred to American Axle's 401(k) Plan. All terminated non-active employees will be contacted to have their balances rolled out of the Plan.

9. 5500 RECONCILIATION

The following is a reconciliation of net assets available for benefits and changes in net assets available for benefits per the financial statements at December 31, 2017 and 2016, and for the year ended December 31, 2017, to the Form 5500, Annual Return/Report of Employee Benefit Plan.:
