NOTE A - DESCRIPTION OF PLAN

The following description of the MT Industries Inc 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature covering all eligible employees of MT Industries, Inc. d/b/a Sunless Inc. (the Company, Plan Administrator, and Plan Sponsor). Employees who have attained the age of 21 are eligible to participate in the Plan after completing one month of eligibility service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer up to 92% of their compensation as defined by the Plan on either a pre-tax or after-tax basis, or the maximum contribution allowable by law. Effective January 1, 2017, the Company amended the Plan document to provide a safe harbor matching contribution of 100% of participants' elective deferral contributions up to 3% of compensation, plus 50% of their elective deferral contributions from 3% up to 5% of compensation. The Plan also provides for discretionary employer matching and profit sharing contributions. Participants must complete 500 hours of service during the Plan year and be employed on the last day of the Plan year to receive a profit sharing contribution. There were no discretionary employer contributions made during 2017. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (IRC). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year. Participants direct the investment of their contributions into various options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of the Company's discretionary contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based upon participant account earnings, compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled to receive is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferral contributions, rollovers, and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service after one year at a rate of 20% per year. Participants are 100% vested after six years of credited service.

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of: \$50,000 reduced by the participants' highest outstanding notes receivable balances during the previous twelve months; 95% of 50% of their vested account balances; or 95% of their vested account balances excluding participants' after-tax deferrals. Notes receivable terms range from 1 - 4.5 years, or longer for the purchase of a primary residence. Notes receivable are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25% to 5.25% at December 31, 2017. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Participants or their beneficiaries are eligible to receive benefits upon reaching age 59½, termination, early retirement, retirement, disability, or upon the death of a participant. A participant may elect to receive a distribution in the form of a lump sum equal to the value of his or her vested account, installments, or an annuity contract. An active participant who reaches age 59½ can take his or her distribution in the form of a partial withdrawal, installments, or an annuity contract. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be automatically distributed to the participant without the participant's consent. If the value of the vested benefits credited to a participant's account is greater than \$1,000 but not exceeding \$5,000, the participant may elect to receive a lump-sum distribution directly or receive the distribution in the form of a direct rollover to another qualified plan. If the participant does not elect a form of distribution, the entire amount will be distributed, without the participant's consent, in the form of a direct rollover to an individual retirement account as designated by the Plan Administrator.

Forfeited Accounts

Forfeitures may be used to reduce the Company's discretionary matching and profit sharing contributions to the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note D for discussion of fair value measurements.

MT INDUSTRIES INC 401(K) PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make payments on a note receivable and the Plan Administrator deems the note receivable to be in default, the balance on the note receivable is reclassified to benefits paid to participants.

Contributions

Participant and employer contributions are recorded and credited to each participant's account when received by the trustee from the Company. Any contributions attributable to the Plan year but not received by the trust by the last day of the Plan year are recorded as a receivable.

Other employer contributions of \$4,411 at December 31, 2017 include employer qualified non-elective contributions to correct non-highly compensated participant accounts for excess contributions not distributed timely to highly compensated employees in a prior year. These corrections were remitted to the Plan in April 2017.

Income Taxes

The Company adopted a prototype non-standardized profit sharing plan with cash or deferred arrangement which received an opinion letter from the Internal Revenue Service (IRS) dated April 10, 2014, stating that the Plan and related trust were designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Payment of Benefits

Benefits are recorded when paid.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The Plan distributed \$-0- and \$22,321 in excess contributions payable at December 31, 2017 and 2016, respectively, to the applicable participants prior to March 15, 2018 and 2017, respectively.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through August 30, 2018, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION

Investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in the fair value of investments, interest, and dividends for the year ended December 31, 2017 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustee.

NOTE D - FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

MT INDUSTRIES INC 401(K) PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2017 are summarized below:

Mutual funds	\$ 1,355,903

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total participant account balances.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest transactions include the investment in the funds of the trustee, and the related dividend income, interest, and the payment of administrative expenses by the Plan. Such transactions are exempt from being prohibited transactions.

NOTE A - DESCRIPTION OF PLAN

The following description of the MT Industries Inc 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature covering all eligible employees of MT Industries, Inc. d/b/a Sunless Inc. (the Company, Plan Administrator, and Plan Sponsor). Employees who have attained the age of 21 are eligible to participate in the Plan after completing one month of eligibility service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer up to 92% of their compensation as defined by the Plan on either a pre-tax or after-tax basis, or the maximum contribution allowable by law. Effective January 1, 2017, the Company amended the Plan document to provide a safe harbor matching contribution of 100% of participants' elective deferral contributions up to 3% of compensation, plus 50% of their elective deferral contributions from 3% up to 5% of compensation. The Plan also provides for discretionary employer matching and profit sharing contributions. Participants must complete 500 hours of service during the Plan year and be employed on the last day of the Plan year to receive a profit sharing contribution. There were no discretionary employer contributions made during 2017. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (IRC). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year. Participants direct the investment of their contributions into various options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of the Company's discretionary contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based upon participant account earnings, compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled to receive is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferral contributions, rollovers, and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service after one year at a rate of 20% per year. Participants are 100% vested after six years of credited service.

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of: \$50,000 reduced by the participants' highest outstanding notes receivable balances during the previous twelve months; 95% of 50% of their vested account balances; or 95% of their vested account balances excluding participants' after-tax deferrals. Notes receivable terms range from 1 - 4.5 years, or longer for the purchase of a primary residence. Notes receivable are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25% to 5.25% at December 31, 2017. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Participants or their beneficiaries are eligible to receive benefits upon reaching age 59½, termination, early retirement, retirement, disability, or upon the death of a participant. A participant may elect to receive a distribution in the form of a lump sum equal to the value of his or her vested account, installments, or an annuity contract. An active participant who reaches age 59½ can take his or her distribution in the form of a partial withdrawal, installments, or an annuity contract. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be automatically distributed to the participant without the participant's consent. If the value of the vested benefits credited to a participant's account is greater than \$1,000 but not exceeding \$5,000, the participant may elect to receive a lump-sum distribution directly or receive the distribution in the form of a direct rollover to another qualified plan. If the participant does not elect a form of distribution, the entire amount will be distributed, without the participant's consent, in the form of a direct rollover to an individual retirement account as designated by the Plan Administrator.

Forfeited Accounts

Forfeitures may be used to reduce the Company's discretionary matching and profit sharing contributions to the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note D for discussion of fair value measurements.

MT INDUSTRIES INC 401(K) PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make payments on a note receivable and the Plan Administrator deems the note receivable to be in default, the balance on the note receivable is reclassified to benefits paid to participants.

Contributions

Participant and employer contributions are recorded and credited to each participant's account when received by the trustee from the Company. Any contributions attributable to the Plan year but not received by the trust by the last day of the Plan year are recorded as a receivable.

Other employer contributions of \$4,411 at December 31, 2017 include employer qualified non-elective contributions to correct non-highly compensated participant accounts for excess contributions not distributed timely to highly compensated employees in a prior year. These corrections were remitted to the Plan in April 2017.

Income Taxes

The Company adopted a prototype non-standardized profit sharing plan with cash or deferred arrangement which received an opinion letter from the Internal Revenue Service (IRS) dated April 10, 2014, stating that the Plan and related trust were designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Payment of Benefits

Benefits are recorded when paid.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

MT INDUSTRIES INC 401(K) PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The Plan distributed \$-0- and \$22,321 in excess contributions payable at December 31, 2017 and 2016, respectively, to the applicable participants prior to March 15, 2018 and 2017, respectively.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through August 30, 2018, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION

Investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in the fair value of investments, interest, and dividends for the year ended December 31, 2017 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the trustee.

NOTE D - FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

MT INDUSTRIES INC 401(K) PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2017 are summarized below:

	<u>Level 1</u>
Mutual funds	\$ 1,355,903
Money market fund	<u>64,809</u>
Total	<u><u>\$ 1,420,712</u></u>

The Plan's investments accounted for at fair value as of December 31, 2016 are summarized below:

	<u>Level 1</u>
Mutual funds	\$ 803,419
Money market fund	<u>85,887</u>
Total	<u><u>\$ 889,306</u></u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds and the money market fund are valued at the net asset value of shares held by the Plan at year end, as reported on the active markets in which the investments are traded.

Notes to Financial Statements

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total participant account balances.

NOTE F - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest transactions include the investment in the funds of the trustee, and the related dividend income, interest, and the payment of administrative expenses by the Plan. Such transactions are exempt from being prohibited transactions.
