FIRST ADVANTAGE CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

Note 1—Description of the Plan

The following brief description of the First Advantage Corporation 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan that covers substantially all U.S.-based employees of First Advantage Corporation (the “Company” or the “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company’s 401(k) Steering Committee (the “Committee”), which is a committee of senior managers of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions – An employee is eligible to participate in the Plan after the employee reaches 18 years of age and has completed one month of service. During 2015, the Committee voted unanimously to amend the Plan to exclude part-time employees from eligibility, with the understanding that, legally, if a participant completes 1,000 or more hours of service in a Plan year, he/she will become eligible for Plan participation.

Each year, participants may elect to contribute up to 60% of their pre-tax annual compensation, as defined by the Plan, not to exceed \$18,000 in 2017. As allowed by the Internal Revenue Service (“IRS”), the limit on catch-up elective deferrals for participants age 50 and over was an additional \$6,000 for the 2017 Plan year.

The Company may make matching contributions, at its discretion, equal to the declared percentage of participant deferrals for the period. Matching contributions are determined and paid by the Company subsequent to the Plan year. A receivable is recorded at the time the matching contribution has been finalized and approved. For the year ended December 31, 2017, the Company recognized employer matching contributions in the total amount of \$1,000,000 which has been paid into the Plan during 2018. The matching contributions are invested in the same manner as the employee contributions.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

Participant Accounts – Each participant’s account is credited with the participant’s contributions, the Company’s matching contribution, if any, an allocation of the Company’s additional discretionary contribution, if any, and Plan earnings. Each participant’s account is charged with an allocation of Plan losses and any applicable administrative expenses, as defined. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting Requirements – Participants are immediately 100% vested in their salary deferrals, voluntary rollovers, Company’s matching and discretionary contributions, and the actual allocated earnings thereon.

Investment Options – The Plan permits participants to direct the investment of their elective deferrals and Company contributions into various investments offered by the Plan.

FIRST ADVANTAGE CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

Note 1—Description of the Plan (continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate ranging from 4.25% to 5.25% as of December 31, 2017. Principal and interest are paid through payroll deductions.

Benefits Paid to Participants – Upon termination, retirement, attainment of age 59½, death, disability, or financial hardship, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may elect to rollover the vested portion of their account to another qualified Plan. A participant may also elect to receive a single lump sum payment, subject to withholding for income taxes, or receive installment payments.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts in the statements of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment Valuation – The Plan's investments are stated at fair value. The shares of registered investment companies and the money market funds are valued at quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date based on quoted market prices. Realized and unrealized gains and losses represent the change in market value of the investments during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Notes Receivable from Participants – The Plan's notes receivable from participants are stated in accordance with the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Interest income related to the notes receivable from participants has been separately presented as interest income on notes receivable from participants.

Administrative Expenses – The expenses of administering the Plan are paid either by the Company or by the Plan at the discretion of the Company. A majority of the costs were paid by the Company during 2017.

Risks and Uncertainties – The Plan's investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

FIRST ADVANTAGE CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

Note 3—Certification of Plan investments (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31, 2017 and 2016, and for the year ended December 31, 2017:

Statements of net assets available for benefits:	2017	2016
Investments:		
Mutual funds	\$ 35,411,158	\$ 26,960,421
Money market funds	460,108	561,806
Notes receivable from participants	706,955	449,988
Statement of changes in net assets available for benefits:		
Net appreciation in fair value of investments	3,774,769	
Interest and dividend income from investments	1,418,142	
Interest income on notes receivable from participants	23,059	

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

FIRST ADVANTAGE CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

Note 5—Income tax status

Fidelity Management & Research Company, a sponsor of several prototype plan documents, files for a favorable IRS opinion letter for each plan document. The prototype plan document which the Plan adopted in July 2011 received a determination letter from the IRS dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is exempt from taxation under Section 501(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter, however, the Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator and the Plan's tax counsel have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 6—Parties-in-interest

Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net realized and unrealized depreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan paid approximately \$17,000 to an affiliate of Fidelity for record keeping services for the year ended December 31, 2017. These transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA. They are, however, expressly exempted from the prohibited transaction rule. The Company pays other fees related to the Plan's operations.

Note 8—Fair value measurements

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical investments as of the reporting date;
- Level 2 – Inputs to the valuation methodology are other-than-quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and
- Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – These investments are valued at quoted market prices in an exchange and active markets, which represent the NAV of shares held by the Plan at year end, and classified as Level 1 investments.

Money Market Funds – These investments are public investment vehicles valued using the NAV provided by the fund. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

FIRST ADVANTAGE CORPORATION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 AND 2016

Note 1—Description of the Plan

The following brief description of the First Advantage Corporation 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan that covers substantially all U.S.-based employees of First Advantage Corporation (the “Company” or the “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company’s 401(k) Steering Committee (the “Committee”), which is a committee of senior managers of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions – An employee is eligible to participate in the Plan after the employee reaches 18 years of age and has completed one month of service. During 2015, the Committee voted unanimously to amend the Plan to exclude part-time employees from eligibility, with the understanding that, legally, if a participant completes 1,000 or more hours of service in a Plan year, he/she will become eligible for Plan participation.

Each year, participants may elect to contribute up to 60% of their pre-tax annual compensation, as defined by the Plan, not to exceed \$18,000 in 2017. As allowed by the Internal Revenue Service (“IRS”), the limit on catch-up elective deferrals for participants age 50 and over was an additional \$6,000 for the 2017 Plan year.

The Company may make matching contributions, at its discretion, equal to the declared percentage of participant deferrals for the period. Matching contributions are determined and paid by the Company subsequent to the Plan year. A receivable is recorded at the time the matching contribution has been finalized and approved. For the year ended December 31, 2017, the Company recognized employer matching contributions in the total amount of \$1,000,000 which has been paid into the Plan during 2018. The matching contributions are invested in the same manner as the employee contributions.

The Plan accepts rollovers and direct transfers from other tax-qualified plans.

Participant Accounts – Each participant’s account is credited with the participant’s contributions, the Company’s matching contribution, if any, an allocation of the Company’s additional discretionary contribution, if any, and Plan earnings. Each participant’s account is charged with an allocation of Plan losses and any applicable administrative expenses, as defined. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting Requirements – Participants are immediately 100% vested in their salary deferrals, voluntary rollovers, Company’s matching and discretionary contributions, and the actual allocated earnings thereon.

Investment Options – The Plan permits participants to direct the investment of their elective deferrals and Company contributions into various investments offered by the Plan.

DECEMBER 31, 2017 AND 2016

Note 1—Description of the Plan (continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the rate ranging from 4.25% to 5.25% as of December 31, 2017. Principal and interest are paid through payroll deductions.

Benefits Paid to Participants – Upon termination, retirement, attainment of age 59½, death, disability, or financial hardship, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may elect to rollover the vested portion of their account to another qualified Plan. A participant may also elect to receive a single lump sum payment, subject to withholding for income taxes, or receive installment payments.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts in the statements of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment Valuation – The Plan's investments are stated at fair value. The shares of registered investment companies and the money market funds are valued at quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date based on quoted market prices. Realized and unrealized gains and losses represent the change in market value of the investments during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Notes Receivable from Participants – The Plan's notes receivable from participants are stated in accordance with the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Interest income related to the notes receivable from participants has been separately presented as interest income on notes receivable from participants.

Administrative Expenses – The expenses of administering the Plan are paid either by the Company or by the Plan at the discretion of the Company. A majority of the costs were paid by the Company during 2017.

Risks and Uncertainties – The Plan's investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 3—Certification of Plan investments (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31, 2017 and 2016, and for the year ended December 31, 2017:

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5—Income tax status

Fidelity Management & Research Company, a sponsor of several prototype plan documents, files for a favorable IRS opinion letter for each plan document. The prototype plan document which the Plan adopted in July 2011 received a determination letter from the IRS dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is exempt from taxation under Section 501(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter, however, the Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator and the Plan's tax counsel have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 6—Parties-in-interest

Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net realized and unrealized depreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan paid approximately \$17,000 to an affiliate of Fidelity for record keeping services for the year ended December 31, 2017. These transactions qualify as party-in-interest transactions, as defined in Section 3(14) of ERISA. They are, however, expressly exempted from the prohibited transaction rule. The Company pays other fees related to the Plan's operations.

Note 8—Fair value measurements

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical investments as of the reporting date;
- Level 2 – Inputs to the valuation methodology are other-than-quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and
- Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – These investments are valued at quoted market prices in an exchange and active markets, which represent the NAV of shares held by the Plan at year end, and classified as Level 1 investments.

Money Market Funds – These investments are public investment vehicles valued using the NAV provided by the fund. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.
