1. DESCRIPTION OF THE PLAN

The following description of the DFA of California 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on July 1, 1998, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides benefits for all employees of DFA of California (the Association) who have completed six months of service, as defined, and have attained the age of 21.

Administration – The Association is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Association has delegated certain responsibilities for the operation and administration of the Plan. Administrative and recordkeeping services are provided by Fidelity Management Trust Company. Plan investments are managed by Fidelity Investments, an affiliate of Fidelity Management Trust Company; therefore, the related transactions are party-in-interest transactions.

Contributions – Participants may contribute up to the maximum amount allowed by IRS limitations through pre-tax salary deferrals or Roth contributions, which are after-tax participant deferral contributions. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers).

Matching – On September 24, 2015, the board approved employer matching contributions of 5% of participant compensation for participants who have elected to defer beginning January 1, 2016 forward. Each pay period, participants receive a dollar-to-dollar match on their deferrals of up to 5% of their compensation.

Participant accounts – Individual accounts are maintained for each Plan participant to reflect the participant's contributions and related matching contribution. Income and loss is allocated to the participant's account based on the ratio of the account balance of the individual participant to the aggregate of all account balances of all participants in the fund within the Plan. The vested balance in a participant's account is the benefit to which the participant would be entitled upon termination or retirement.

Vesting – Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Association's matching contributions vest at a rate of 20% per year of service.

Payment of benefits – Benefits are payable upon retirement, termination, disability, hardship, or death. Benefits are paid in either a single lump sum distribution or a rollover to another qualified plan or an individual retirement account.

Notes receivable from participants – Under certain circumstances, participants are allowed to borrow against their vested account balance. Notes receivable must be for a minimum of $1,000 and are capped at the lesser of one-half of the participant's vested account balance or $50,000. All notes receivable must bear a reasonable rate of interest as determined by the Plan administrator based on prevailing interest rates. Notes receivable must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five year period unless it is for the purchase of a principal residence, in which case the note repayment period may not extend beyond 10 years from the date of the note.

Forfeitures – Forfeitures are kept in a separate investment account and are applied first to reduce the employer paid administrative expenses and then employer contributions. The forfeiture account balance was $18,179 and $13,439 at December 31, 2017 and 2016, respectively. In the year ending December 31, 2017, no forfeitures were used to reduce administrative expenses.

Investment options – Plan investments are self-directed by the individual participants. Upon enrollment in the Plan, a participant may direct employee contributions in any selected investment options consisting of mutual funds or common/collective trust of varying risks managed by Fidelity Investments.

Costs of administration – The Plan and participants share all management costs. For 2017, these costs were $324 for the Plan. The Association pays all administrative costs for the record-keeper. For 2017, these costs were $5,770.

Subsequent events have been evaluated for recognition and disclosure through August 29, 2018, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2017, that requires recognition or disclosure in the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income and gains (losses) are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants are valued at the outstanding note balance, plus accrued unpaid interest, which approximates fair market value

Interest on notes receivable from participants is recognized in the period it is assessed.

Benefit payments are recorded when paid.

Income taxes – The Plan obtained its latest determination letter on December 5, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan was subsequently amended effective December 24, 2002, to reflect certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. Additionally, the Plan was amended effective June 30, 2006, to allow

for Roth deferral contributions, 2010 to modify eligibility requirements and in 2015 to modify the employer match. The Association has not yet received a determination letter for the amended and restated Plan. The Association believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administration believes the Plan is no longer subject to income tax examinations for the years prior to 2013.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Association has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will automatically become fully vested in their accounts.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: Valued at the plan's share of the sum of the market value of all of the fund's underlying investments, which include fixed income investments, investment contracts issued by insurance companies and other financial institutions, and money market funds.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

	Assets at Fair Value as of December 31, 2017		
Investment type	**Level 1**	**Level 2**	**Level 3**
Mutual funds	$ 3,950,151		
Stable value fund			$ 23,695
Total	$ 3,950,151	$	$ 23,695

	Assets at Fair Value as of December 31, 2016		
Investment type	**Level 1**	**Level 2**	**Level 3**
Mutual funds	$ 3,062,691		
Stable value fund			$ 29,718
Total	$ 3,062,691	$	$ 29,718

Changes in the Level 3 assets for the year ending December 31, 2017, consist of the following:

	Stable Value Fund
Beginning balance	$ 29,718
Net appreciation (depreciation) in fair value	(141)
Purchases	5,403
Sales	(11,285)
Ending balance	$ 23,695

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

During the years ended December 31, 2017 and 2016, the Plan's investments were held by Fidelity Management Trust Company, the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA:

The stable value fund was certified at contract value of $23,763 and $29,645 at December 31, 2017 and 2016, respectively. Mutual funds of $3,950,151 and $3,062,691 were certified at fair value at December 31, 2017 and 2016, respectively. Net appreciation in fair value of investments as reported by the Trustee was $509,999 for the year ended December 31, 2017. Interest and dividends on investments of $135,404 was reported by the Trustee for the year ended December 31, 2017.

Notes receivable from participants as reported by the Trustee were $5,560 and $10,012 at December 31, 2017 and 2016, respectively. Interest on notes receivable from participants was $332 for the year ended December 31, 2017.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

1. DESCRIPTION OF THE PLAN

The following description of the DFA of California 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established on July 1, 1998, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan provides benefits for all employees of DFA of California (the Association) who have completed six months of service, as defined, and have attained the age of 21.

Administration – The Association is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Association has delegated certain responsibilities for the operation and administration of the Plan. Administrative and recordkeeping services are provided by Fidelity Management Trust Company. Plan investments are managed by Fidelity Investments, an affiliate of Fidelity Management Trust Company; therefore, the related transactions are party-in-interest transactions.

Contributions – Participants may contribute up to the maximum amount allowed by IRS limitations through pre-tax salary deferrals or Roth contributions, which are after-tax participant deferral contributions. Participants are also permitted to deposit into the Plan distributions received from other plans (rollovers).

Matching – On September 24, 2015, the board approved employer matching contributions of 5% of participant compensation for participants who have elected to defer beginning January 1, 2016 forward. Each pay period, participants receive a dollar-to-dollar match on their deferrals of up to 5% of their compensation.

Participant accounts – Individual accounts are maintained for each Plan participant to reflect the participant's contributions and related matching contribution. Income and loss is allocated to the participant's account based on the ratio of the account balance of the individual participant to the aggregate of all account balances of all participants in the fund within the Plan. The vested balance in a participant's account is the benefit to which the participant would be entitled upon termination or retirement.

Vesting – Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Association's matching contributions vest at a rate of 20% per year of service.

Payment of benefits – Benefits are payable upon retirement, termination, disability, hardship, or death. Benefits are paid in either a single lump sum distribution or a rollover to another qualified plan or an individual retirement account.

Notes receivable from participants – Under certain circumstances, participants are allowed to borrow against their vested account balance. Notes receivable must be for a minimum of $1,000 and are capped at the lesser of one-half of the participant's vested account balance or $50,000. All notes receivable must bear a reasonable rate of interest as determined by the Plan administrator based on prevailing interest rates. Notes receivable must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five year period unless it is for the purchase of a principal residence, in which case the note repayment period may not extend beyond 10 years from the date of the note.

Forfeitures – Forfeitures are kept in a separate investment account and are applied first to reduce the employer paid administrative expenses and then employer contributions. The forfeiture account balance was $18,179 and $13,439 at December 31, 2017 and 2016, respectively. In the year ending December 31, 2017, no forfeitures were used to reduce administrative expenses.

Investment options – Plan investments are self-directed by the individual participants. Upon enrollment in the Plan, a participant may direct employee contributions in any selected investment options consisting of mutual funds or common/collective trust of varying risks managed by Fidelity Investments.

Costs of administration – The Plan and participants share all management costs. For 2017, these costs were $324 for the Plan. The Association pays all administrative costs for the record-keeper. For 2017, these costs were $5,770.

Subsequent events have been evaluated for recognition and disclosure through August 29, 2018, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2017, that requires recognition or disclosure in the financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income and gains (losses) are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes receivable from participants are valued at the outstanding note balance, plus accrued unpaid interest, which approximates fair market value

Interest on notes receivable from participants is recognized in the period it is assessed.

Benefit payments are recorded when paid.

Income taxes – The Plan obtained its latest determination letter on December 5, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan was subsequently amended effective December 24, 2002, to reflect certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. Additionally, the Plan was amended effective June 30, 2006, to allow

for Roth deferral contributions, 2010 to modify eligibility requirements and in 2015 to modify the employer match. The Association has not yet received a determination letter for the amended and restated Plan. The Association believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administration believes the Plan is no longer subject to income tax examinations for the years prior to 2013.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Association has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will automatically become fully vested in their accounts.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: Valued at the plan's share of the sum of the market value of all of the fund's underlying investments, which include fixed income investments, investment contracts issued by insurance companies and other financial institutions, and money market funds.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

	Assets at Fair Value as of December 31, 2017		
Investment type	**Level 1**	**Level 2**	**Level 3**
Mutual funds	$ 3,950,151		
Stable value fund			$ 23,695

Total	$ 3,062,691	$	$ 29,718

Changes in the Level 3 assets for the year ending December 31, 2017, consist of the following:

	Stable Value Fund
Beginning balance	$ 29,718
Net appreciation (depreciation) in fair value	(141)
Purchases	5,403
Sales	(11,285)
Ending balance	$ 23,695

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

During the years ended December 31, 2017 and 2016, the Plan's investments were held by Fidelity Management Trust Company, the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA:

The stable value fund was certified at contract value of $23,763 and $29,645 at December 31, 2017 and 2016, respectively. Mutual funds of $3,950,151 and $3,062,691 were certified at fair value at December 31, 2017 and 2016, respectively. Net appreciation in fair value of investments as reported by the Trustee was $509,999 for the year ended December 31, 2017.
