A.J. ROSE MANUFACTURING CO.
RETIREMENT AND 401(k) PLAN FOR NON-UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the A.J. Rose Manufacturing Co. Retirement and 401(k) Plan for Non-Union Employees (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering all non-bargaining unit employees of A.J. Rose Manufacturing Co. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees become eligible to make pretax contributions to the Plan and receive Company matching contributions and non-elective contributions after completion of sixty days of employment.

Participant Accounts and Contributions

Eligible employees may elect to contribute up to the maximum amount allowed which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC), as defined in the Plan. Historically, participants, upon attaining eligibility status, were automatically enrolled at a 3% deferral rate unless they elected not to participate or to participate at a different deferral percentage. Due to a plan amendment in 2017, participants with an entry date on or after February 17, 2017 are automatically enrolled in the Plan at a 5% deferral rate unless they elect not to participate or to participate at a different deferral percentage.

The Company contributions consist of discretionary non-elective and matching contributions. For the years ended December 31, 2017 and 2016, the Company made non-elective contributions of 3% of eligible compensation and a matching contribution equal to 2% of the participant's eligible compensation.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Each participant directs the manner in which their account balances are to be allocated among the investment options available under the Plan.

Vesting

Participants are immediately vested in all contributions and related earnings.

Notes Receivable from Participants

The Plan allows for participants to borrow from their account a maximum of 50% of their vested account balance up to $50,000. Loans outstanding are charged interest at a reasonable rate, determined at the loan issue date, commensurate with rates charged for similar loans by lending institutions. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence. The interest rate on the loans outstanding at December 31, 2017 ranged from 4.25% to 5.25%.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. In addition, participants who have attained age 59½ may elect to withdraw from their accounts while still employed by the Company. Benefit payments are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Investments
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The net investment gain (loss) on the statements of changes in net assets available for benefits reflects the gains and losses on investments bought and sold, as well as held during the year, and represents the net appreciation (depreciation) of investments.

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for non-public entities for fiscal years, and interim periods within those years, beginning after December 15, 2016. Management adopted the provisions of this standard and the guidance was retrospectively applied resulting in investments in collective trust funds and pooled separate accounts that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient not being categorized in the fair value hierarchy.

Plan Expenses
The Plan pays substantially all of the administrative expenses of the Plan.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The trustee has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment gain (loss) and interest, dividends and other on the Plan's financial statements and the accompanying supplemental Schedule of Assets (Held at End of Year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trust: Valued at the net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments or significant restrictions on redemptions.

Pooled Separate Accounts: Valued at net unit value as determined by the trustee. The value is based on a pro rata share of the market value of the underlying funds in the separate account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total
December 31, 2017				
Mutual Funds	$ 5,406,607	$ -	$ -	$ 5,406,607
Measured at net asset value				12,252,733
				$ 17,659,340
December 31, 2016				
Mutual Funds	$ 3,382,652	$ -	$ -	$ 3,382,652
Measured at net asset value				12,387,195
				$ 15,769,847

5. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are units of funds managed by the trustee, and therefore, these transactions qualify as party-in-interest transactions.

6. FEDERAL INCOME TAXES

On March 31, 2014, the Internal Revenue Service (IRS) stated that the volume submitter 401(k) profit sharing plan adopted by the Plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through September 11, 2018, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
