Note 1. Description of the Plan

The following description of the Eileen Fisher, Inc. 401(k) Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a tax deferred savings plan covering all eligible employees of Eileen Fisher, Inc. and EF Ninth Street, Inc. (collectively referred to as the Company). The Plan was established effective January 1, 1996, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees are eligible to become participants in the Plan on the first day of the following payroll period, provided they have attained the age of 21 and are not covered by a collective bargaining agreement.

Contributions: Each year, participants may contribute up to a dollar limit, which is set by law, as stated in the Internal Revenue Code (the IRC). The maximum amount participants were allowed to contribute for the year ended December 31, 2016 was $18,000. Employees 50 years of age and older are also allowed to contribute an additional $6,000 to the Plan for 2016.

The Company may also make discretionary matching contributions. At December 31, 2016, the Company accrued $760,300 for 2016 employer match contributions based on a match of 15% of participants' contributions up to 10% of employees' compensation.

An additional discretionary amount (a nonelective contribution) may be contributed as determined each year by the Company. In 2016, the Company did not make any additional discretionary contributions.

Participant accounts: Each participant's account is credited and debited with the participant's contributions and withdrawals, as applicable, and an allocation of (a) the Company's matching contribution, (b) the Company's nonelective contribution and (c) Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: A participant in the Plan always has a fully vested interest in the value of his or her contributions and rollover accounts and any earnings on those contributions. He or she also has a nonforfeitable right to the value of his or her Company match account and nonelective contribution account upon the latter of the attainment of age 60 or the fourth anniversary of the first day of the Plan year in which he or she became eligible. Upon termination of employment, a participant vests in the funds held in his or her Company match account and nonelective contribution account in accordance with the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0%
At least 1, but less than 2	25%
At least 2, but less than 3	50%
At least 3, but less than 4	75%
4 or more	100%

Note 1. Description of the Plan (Continued)

Upon termination of employment for reasons other than disability or death of a participant who was not fully vested in his or her Company match account, the nonvested portion of the participant's Company match account shall be forfeited. Any account forfeited shall be used to reduce the Plan's future employer contributions and then to reduce expenses.

Promissory notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. Participants may borrow from their funded account the lesser of: (a) $50,000 (reduced by the highest outstanding balance of loans from the Plan during the one-year period ending on the day before such loan was made) or (b) up to 50% of their vested account balance. The minimum amount of any loan is $1,000. Loans are secured by the balance in the participant's account and must be repaid in no more than five years, unless the loan is to purchase a primary residence. If a loan is for a primary residence, then the repayment date may be extended up to twenty years. Interest is charged by the Plan at the rate a bank or other professional lender would charge for making a loan in a similar circumstance. Interest rates on notes receivable from participants at December 31, 2016, range between 4.25% and 9.25%.

Payment of benefits: Upon termination of employment, for reason of disability or death, the participant or his or her beneficiary shall receive the value of his or her account. However, if the termination of employment is for reasons other than disability or death, the participant shall receive only the value of the vested funds in his or her account.

In accordance with the procedures established by the Administrative Committee and the terms of the Plan, terminated employees may elect to defer final distribution from the Plan. Upon such election, the amount of such participants' vested interest in the Plan is entitled to continue to receive investment income and losses until the date of distribution as elected by the participants. Prior to termination of employment, the participant may withdraw amounts from the participant's accounts in accordance with the provisions of the Plan.

Forfeited accounts: Forfeitures are applied as a reduction of future employer contributions. Forfeitures of $16,579 were used during 2016 to offset Employer contributions. At December 31, 2016 and 2015, the forfeited nonvested account was $0, based on the forfeitures that occurred in 2016 and 2015.

Note 2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 11, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee and related to the following assets is complete and accurate, to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the investment assets, promissory notes receivable from participants and related income.

The trustee certified the completeness and accuracy, to the best of their knowledge and belief, of investments totaling $76,162,243 and $65,331,103 as of December 31, 2016 and 2015, respectively, and certified the completeness and accuracy, to the best of their knowledge and belief, of promissory notes receivable from participants as of December 31, 2016 and 2015, totaling $1,604,087 and $1,453,401, respectively.

The trustee also certified to the completeness and accuracy, to the best of their knowledge and belief, of $4,278,821 of net appreciation in fair value of investments, $1,027,397 of dividends on investments and $62,082 of interest on notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Cash reserve accounts: The carrying amount approximates fair value because the instruments are liquid in nature.

Mutual funds (registered investment companies): Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Common collective trust: The underlying investment of the common collective trust is primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. The fair value has been estimated using the net asset value (NAV) per share of the underlying investments, valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

	Investments at fair value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Cash reserve account	$ 16,579	$ -	$ -	$ 16,579
Mutual funds (registered investment companies)	68,065,606	-	-	68,065,606
Total assets in the fair value hierarchy	$ 68,082,185	$ -	$ -	68,082,185
Investments measured at NAV [(a)]				8,080,058
Total investments at fair value				$ 76,162,243

	Investments at fair value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Cash reserve account	$ 11,325	$ -	$ -	$ 11,325
Mutual funds (registered investment companies)	58,268,021	-	-	58,268,021
Total assets in the fair value hierarchy	$ 58,279,346	$ -	$ -	58,279,346
Investments measured at NAV [(a)]				7,051,757
Total investments at fair value				$ 65,331,103

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share:

	2016 Fair Value	2015 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust [(b)]	$ 8,080,058	$ 7,051,757	$ -	Immediately	N/A

(b) This common collective trust seeks to provide safety of principal and consistency of returns while attempting to maintain minimal volatility.

Note 5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6. Tax Status

The Internal Revenue Service issued a determination letter on July 8, 2010, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, it is the opinion of the Plan Administrator and Plan counsel that the Plan remains qualified and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements as of December 31, 2016 and 2015, and for the year ended December 31, 2016. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan's management also believes that the Plan is no longer subject to income tax examinations by U.S. federal, state, or local tax authorities for years before 2013.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the board of directors of the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8. Exempt Party-in-Interest Transactions

Some of the Plan's expenses, including trustee, custodial, and certain record-keeping fees, are paid by the Plan. Personnel and facilities of the Company are used by the Plan at no charge. Certain Plan investments are shares of various funds managed by the trustee or the record-keepers of the Plan and, therefore, any transactions between the Plan and the trustee or record-keepers are considered exempt party-in-interest transactions.
