Participants should refer to the Central Florida Equipment Rentals 401(k) Savings and Retirement Plan (the "Plan") agreement for more complete information.

General - The Plan is a defined contribution plan available to substantially all employees of Central Florida Equipment Rentals, Inc. (the "Company") who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions –Participants may contribute a percentage of their salary by means of payroll deductions, subject to certain discrimination tests prescribed by Internal Revenue Code and other limitations specifed in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 100 percent of the first 3 percent and 50 percent of the next 2 percent of base compensation that a participant contributes to the Plan as a safe harbor contribution. All contributions to the Plan are invested into various investment options offered by the Plan as directed by the participant.

The Company may also make additional non-matching contributions to participants' accounts at its discretion. A participant will share in a non-matching contribution only if completed at least 1,000 hours of service during the plan year and is employed on the last day of the plan year. A non-matching contribution was not provided for in fiscal 2017 or 2016.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (b) Plan earnings, and (c) forfeitures. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Participants are also immediately vested in employer contributions. The Company's profit sharing contribution portion of their accounts vest at 20%, 40%, 60%, 80% and 100% after a participant provides two, three, four, five and six years of service, respectively. A year of service is earned in each Plan year in which an employee completes at least 1,000 hours of service.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years, but can be longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For

termination of service due to death, election is to receive the vested interest as either a lump sum or a life annuity with monthly installments over 60 months.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures - Forfeited nonvested accounts approximated $305 and $6,550 as of December 31, 2017 and 2016, respectively. These accounts are first used to pay Plan expenses with the remaining balance used to reallocate to participants employed on the last day of the Plan year. In 2017, $6,557 of forfeitures was used to pay for Plan expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared using the accrual basis of accounting.

Investments Valuation and Income Recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Risks and Uncertainties – The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

3. CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2017 and December 31, 2016, and net appreciation in fair value of investments, and interest for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company, the trustee of the Plan.

4. FAIR VALUE MEASURMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets (Level 1). Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. There were no transfers between Level 1 and Level 2 during the year.

	Assets at Fair Value			
	Quoted Prices in Active Markets for Identical Assets	***Significant Other Observable Inputs***	***Significant Unobservable Inputs***	
	(Level 1)	***(Level 2)***	***(Level 3)***	***Total***
Pooled separate accounts-2017	$ -	$ 2,082,302	$ -	$ 2,082,302
Pooled separate accounts-2016	$ -	$ 1,723,273	$ -	$ 1,723,273

5. GUARANTEED INVESTMENT CONTRACT

As of December 31, 2017 and 2016, the Plan maintained one GIC related investment option, the Voya Fixed Account. The contract underlying this investment option is considered to be fully benefit responsive. As of December 31, 2017 and 2016, the contract value of the investment in the Voya Fixed Account is $258,868 and $231,293, respectively. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the fully benefit responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measurement for fully-benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The crediting interest rate to participants for the contract as of December 31, 2017 was 1.00%.

The Plan's ability to receive amounts due in accordance with fully benefit responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's

ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions (iii) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (v) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines, (ii) a breach of material obligation under the contract, (iii) a material misrepresentation, (iv) a material amendment to the agreement without the consent of the issuer.

6. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosures in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. PARTY IN INTEREST TRANSACTIONS

Plan investments are managed by Voya Retirement Insurance and Annuity Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

8. SUBSEQUENT EVENT

The Plan has evaluated subsequent events through August 30, 2018, the date the financial statements were available to be issued.
