Retirement Plan for Hourly Paid Employees of Building Materials Corporation of America

Notes to Financial Statements

December 31, 2013

Note 1. Description of the Plan

The following description of the Retirement Plan for Hourly Paid Employees of Building Materials Corporation of America (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more detailed and complete information of the Plan’s provisions.

General

The Plan is sponsored by Building Materials Corporation of America (doing business as GAF Materials Corporation or GAF) and its subsidiaries (the “Company”) and is a noncontributory defined benefit plan covering eligible hourly employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

Each eligible employee of a participating group of the Company generally becomes eligible to participate in the Plan upon completion of one hour of service, as defined, on or after January 1, 1990.

Vesting

Vesting is based on years of service. A participant is vested after five years of service in which the participant works for more than 1,000 hours a year. If a participant terminates employment with less than five years of service, the participant receives no vested benefits.

Pension Benefits

Generally, normal retirement age is 65. A participant who attains normal retirement shall be 100% vested in the retirement benefit. The retirement benefit represents the applicable benefit rate, as defined, multiplied by the participant’s years of credited service, as defined. Generally, early retirement age is 55 with 10 years of service and retirement due to disability is at age 50. Benefits are paid to the retirees in the form of a monthly annuity payment or a lump-sum distribution.

Notes to Financial Statements (continued)

Note 1. Description of the Plan (continued)

Plan Termination

While it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, the net assets of the Plan shall be used and applied first for the benefit of retired employees and employees who have reached their normal retirement date and second for the benefit of all other employees based on their accrued retirement benefits at the date of termination of the Plan in amounts proportionate to the actuarially determined present value of their retirement benefits at the date of termination of the Plan. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. If the plan is terminated, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors’ pensions.

The PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling, which is adjusted periodically, relating to the maximum amount of an individual’s monthly benefit that the PBGC guarantees. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Purchases and sales transactions are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Benefits are recorded when paid.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and other assets which are highly liquid, have an original maturity of 90 days or less, have high credit quality and are diversified. In 2013, cash equivalents represent an investment in the BIF Money Fund. The fair value of this investment is

Retirement Plan for Hourly Paid Employees of Building Materials Corporation of America

Notes to Financial Statements (continued)

Note 2. Summary of Significant Accounting Policies (continued)

based on net asset value (“NAV”) which reflects the value of the underlying assets owned by the BIF Money Fund, minus liabilities, and then divided by the number of shares outstanding.

Investment Valuation and Income Recognition

In addition to cash equivalent investments, investments are also comprised of private investment funds in 2013 and 2012 and mutual funds in 2013. The fair value of the private investment funds is determined by the trustee based on data received directly from each fund or its fund administrator. These investments include both equity and fixed income securities and may incorporate the use of options, futures and other financial instruments.

The mutual funds are publicly listed funds of Merrill Lynch investments. The fair value is based upon each fund’s NAV as determined by Merrill Lynch investments. The NAV is based on the value of the underlying assets owned by the fund, minus liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in a market that is active. These investments include both equity and fixed income securities and may incorporate the use of options, futures, and other financial instruments. Implementation of this policy involves investments with outside managers who have expertise in these strategies.

All investment transactions, including cash equivalents, are recorded by the Trustee on a trade-date basis. Realized gains and losses on the sale of investments are determined for accounting purposes on a moving average cost basis. Net appreciation and depreciation of investments include both realized and unrealized gains and losses on investments.

Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the “IRS”) dated June 8, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan, as amended, is currently being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt. In addition, the plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan’s operations into compliance with the Code, if necessary.

Retirement Plan for Hourly Paid Employees of Building Materials Corporation of America

Notes to Financial Statements (continued)

Note 2. Summary of Significant Accounting Policies (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Funding Policy

The Company makes contributions to the Plan sufficient to meet the actuarially determined funding requirements of ERISA and the Pension Protection Act of 2006. The Plan has met such requirements for 2013 and 2012.

Subsequent to December 31, 2013, the Highway and Transportation Funding Act (“HATFA”) was enacted, potentially lowering the minimum funding requirements for defined benefit plans. In September 2014, the plan sponsor elected to use the HATFA segmented interest rates for benefit restriction and minimum funding calculations for the plan year beginning January 1, 2013.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Retirement Plan for Hourly Paid Employees of Building Materials Corporation of America

Notes to Financial Statements (continued)

Note 2. Summary of Significant Accounting Policies (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative Expenses

As provided by the Plan, expenses of the Plan are paid by either the Plan or the Company. In 2013 and 2012, expenses were paid by both the Plan and the Company.

Fair Value Measurements

The accounting guidance on fair value measurements and disclosures establishes a valuation hierarchy that prioritizes the inputs used to measure fair value based on three defined levels or criteria. The hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the reporting entity's market assumptions. The three levels of inputs that may be used to measure fair value are as follows:

- **Level 1** – Quoted prices for identical instruments in active markets;
- **Level 2** – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose significant inputs are observable; and
- **Level 3** – Instruments whose significant inputs are unobservable and for which estimates of fair value are determined using related market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012, as described above (see Investment Valuation and Income Recognition).

Retirement Plan for Hourly Paid Employees of
Building Materials Corporation of America

Notes to Financial Statements (continued)

Note 2. Summary of Significant Accounting Policies (continued)

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table provides the fair value hierarchy of the Plan's investments as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Private investment funds ^(a)	\$ —	\$ —	\$ 43,348,779	\$ 43,348,779

^(a) Investments in Level 3 assets contain certain restrictions as to the full or partial redemption of shares and can be limited depending on the total amount of redemption requests received by the fund. In addition, these restrictions also require redemption only during specified time periods along with minimum notice periods prior to redemption. The Company complies with all such fund redemption requirements. See Note 3 for more detailed information regarding underlying investments.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments calculated based upon the provisions of the Plan. Benefits payable under all circumstances are included to the extent that they are deemed attributable to employee services rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) current employees or their beneficiaries. Benefits to be provided from allocated annuity contracts excluded from Plan assets are excluded from accumulated plan benefits presented in the accompanying financial statements.

The actuarial present value of accumulated plan benefits is determined by Buck Consultants, a Xerox Company, by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the date as of which the benefit information is computed and the expected date of payment.

The actuarial present value of accumulated plan benefits for the Company as of December 31, 2012, and the changes therein for the year then ended are as follows:

	December 31, 2012
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 22,631,577
Other participants	45,187,447
Total vested benefits	67,819,024
Non-vested benefits	1,159,243
Total accumulated plan benefits	<u><u>\$ 68,978,267</u></u>

Retirement Plan for Hourly Paid Employees of
Building Materials Corporation of America

Notes to Financial Statements (continued)

Note 4. Actuarial Present Value of Accumulated Plan Benefits (continued)

	Year Ended December 31, 2012
Changes in the actuarial present value of accumulated plan benefits:	
Actuarial present value of accumulated plan benefits at beginning of year	\$ 59,445,369
Increase (decrease) during the period attributable to:	
Benefits paid to participants	(1,968,975)
Change in average discount period	2,923,644
Changes in actuarial assumptions (discount rate and mortality improvement)	8,734,982
Additional benefits accumulated, including gains and losses	(156,753)
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 68,978,267</u>

The value at December 31, 2012, is based on an actuarial valuation as of January 1, 2013. Had the valuation been performed on December 31, 2012, there would be no material differences. The significant actuarial assumptions used in the valuation as of January 1, 2013, were (a) the life expectancy of participants was determined through the use of the RP-2000 Healthy Employees Mortality Table with Blue Collar adjustment for males and females projected to the valuation date and further projected 7 years for annuitants and 15 years for non-annuitants according to Scale AA, (b) retirement age assumptions (the assumed average retirement age is 64), and (c) a liability discount rate of 4.25%. The liability discount rate utilized in the valuation as of January 1, 2012, was 5.00%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Effective Interest Rate	7.08%
(Based on MAP-21 rates)	

Mortality

Mortality tables for non-disabled participants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. For disabled participants, the mortality rates specified in Revenue Ruling 96-7 were assumed.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan-related expenses to be paid from plan assets during the year.

The Valuation Assets are determined using a method that spreads asset gains/(losses) over two years. The gain/(loss) for the year is determined as the actual return during the year less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. Accrued contributions, if any, are included in the Valuation Assets.

The expected return on plan assets is 8.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2011 measurement period:	6.57%

Schedule SB, line 15 – Adjusted Funding Target Attainment Percentage

The plan sponsor elected to use HATFA assumptions for benefit restriction purposes for 2013. The Enrolled Actuary signed an AFTAP Certification on 12/10/2013. That certification used MAP-21 first, second, and third segment rates of 4.94%, 6.15%, and 6.76%, respectively. It showed these values:

Adjusted Funding Target Attainment Percentage 89.57%, based on

Funding Target	\$ 52,922,283
Actuarial Value of Assets	\$ 47,407,691
Adjusted Funding Target	\$ 52,922,283
Adjusted Actuarial Value of Assets	\$ 47,407,691

The 2013 AFTAP is 93.67% using the HATFA assumptions shown on line 21a and the Funding Target shown in line 3d.

As these result in an immaterial change, the plan sponsor has not requested and the enrolled actuary has not signed a 2013 AFTAP Certification using segment rates constrained by HATFA.
