Kreisers 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following is a brief description of the Kreisers 401(k) Plan (the Plan) and is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established on August 1, 1973, and was a defined contribution plan covering all qualified employees of Kreisers, Inc. (the Company). The Company merged with two other companies effective April 1, 2016 and formed Concordance Healthcare Solutions, LLC. The Plan was merged into the Concordance Healthcare Solutions 401(k) Retirement Plan effective February 1, 2018 (see Note 7). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees of the Company whose regularly scheduled service was greater than 1,000 hours were eligible to participate in the Plan upon reaching the age of 18 and completing two months of service for elective deferrals, and one year of service for employer matching and nonelective contributions, as defined in the Plan. Employer nonelective contributions also required that the participant was employed on the last day of the Plan year. Entrance dates were the first day of each month.

Contributions: Participants were permitted to contribute up to 100 percent of their pretax annual compensation, as defined in the plan document, up to the maximum allowed by the Internal Revenue Code (IRC). Additional employer matching and nonelective contributions were contributed at the option of the Company's Board of Directors. Participants received an employer matching contribution equal to 50 percent of the first 3 percent of employee compensation contributed for the period ended February 1, 2018 and for the year ended December 31, 2017. There were no nonelective contributions for the period ended February 1, 2018 or the year ended December 31, 2017. Participants were also permitted to make rollover contributions from other qualified plans.

Participant accounts: Each participant's account was credited with the participant's contributions and discretionary employer matching and nonelective contributions, if any, and plan earnings. Participant accounts were charged with an allocation of administrative expenses paid by the Plan. Allocations were based on participant earnings, account balances, or specific transactions, as defined in the Plan document. The benefit to which a participant was entitled was the benefit provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant could direct contributions in a variety of investment options. All funds varied in types of investments, rates of return, and investment risk and were described in more detail in the Plan's literature. Participants could elect on a daily basis to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting: Participants vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on a graded scale over six years of continuous service. A participant was 100 percent vested after six years of credited service. A participant became 100 percent vested upon death, permanent disability, or reaching normal retirement age.

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Participants were able to borrow from their individual accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The note terms generally ranged up to five years, unless it was for the purchase of a home. The notes were secured by the balance in the participant's account and bear interest at the prime rate published in The Wall Street Journal on the first business day of each month, plus 1 percent. The rate of interest on existing notes at December 31, 2017, was 4.25 to 5.25 percent. Principal and interest payments were received ratably from participants through monthly payroll deductions. Notes receivable from participants were transferred to the Concordance Healthcare Solutions 401(k) Retirement Plan effective February 1, 2018.

Benefits paid to participants: Upon death, permanent disability, retirement or other termination of employment, participants were entitled to receive the vested balance of their account. Vested benefits were distributed in the form of a lump-sum amount, or installment payments if subject to lifetime required minimum distributions. The Plan allowed participants to withdraw funds from their account without a minimum service period after the age of 59½ as defined in the Plan Document. The Plan also allowed hardship distributions subject to certain restrictions. A participant with a balance of less than \$5,000 may have been automatically paid out by the Plan upon termination, retirement, death or permanent disability.

Forfeitures: Upon termination of employment, participants forfeited their nonvested balances. These accounts were used to reduce employer contributions. As of December 31, 2017 and 2016, forfeited unvested accounts totaled \$0 and \$202, respectively. During the year ended December 31, 2017, \$4,510 of forfeitures were used to reduce employer contributions. There were no forfeitures during the period ended February 1, 2018.

Note 2. Significant Accounting Policies

Basis of presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Notes receivable from participants: Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Note 2. Significant Accounting Policies (Continued)

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded upon distribution.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Other expenses are paid by the Plan. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included as an offset to net investment results.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments have occurred since December 31, 2017, or will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2017 statement of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 7, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by EMJAY Corporation

The Plan Administrator has obtained certifications from EMJAY Corporation (the custodian) that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified or provided by the custodian.

There were no Plan assets as of February 1, 2018. The following table presents the value of the assets in this Plan that were certified by the custodian as of December 31, 2017 and 2016:

	2017	2016
Mutual funds, at fair value	\$ 4,744,256	\$ 4,172,011
Collective investment fund, at fair value	372,608	366,600
Notes receivable from participants	36,543	54,631
	<u>\$ 5,153,407</u>	<u>\$ 4,593,242</u>

EMJAY Corporation also certified to the completeness and accuracy of \$800,134 of net appreciation in fair value of investments, \$166,961 of interest and dividends related to the aforementioned investments, and \$1,994 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Accounting standards establish the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds: Shares of mutual funds are valued at the quoted market price of shares held by the Plan as of year-end, as determined in active markets.

Collective investment fund: Shares of the collective investment are valued at the net asset value (NAV) as reported by the custodian. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

There were no Plan investments as of February 1, 2018. The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,744,256	\$ -	\$ -	\$ 4,744,256
Total assets in the fair value hierarchy	\$ 4,744,256	\$ -	\$ -	4,744,256
Investments at net asset value (a)				372,608
Total assets at fair value				\$ 5,116,864

	2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,172,011	\$ -	\$ -	\$ 4,172,011
Total assets in the fair value hierarchy	\$ 4,172,011	\$ -	\$ -	4,172,011
Investments at net asset value (a)				366,600
Total assets at fair value				\$ 4,538,611

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net asset available for benefits.

Net asset value: The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance is determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable that the investment will be sold at something other than NAV. There were no Plan investments as of February 1, 2018. The following table includes categories of investments where NAV is available as a practical expedient as of December 31, 2017 and 2016.

	Fair Value as of December 31, 2017	Fair Value as of December 31, 2016	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment fund	\$ 372,608	\$ 366,600	None	Daily	Daily

Note 5. Related-Party Transactions and Party-in-Interest Transactions

Fees of \$854 and \$3,814 were paid to service providers of the Plan for administrative and investment management services for the period from January 1, 2018, to February 1, 2018, and the year ended December 31, 2017, respectively. Investment related expenses are included as an offset to net investment results.

Note 6. Tax Status

The Plan adopted a prototype standardized profit sharing plan. The prototype plan's latest Internal Revenue Service (IRS) determination letter, dated March 31, 2014, stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The prototype plan's opinion letter has been relied upon by the Plan. The Plan has been amended subsequent to the version covered by the prototype plan's determination letter. However, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon IRS determination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Transfer Out—Merger

As discussed in Note 1, the Company merged with two other companies effective April 1, 2016 and formed Concordance Healthcare Solutions, LLC. Concordance Healthcare Solutions, LLC made a decision during 2017 to merge the Plan into the Concordance Healthcare Solutions 401(k) Retirement Plan effective February 1, 2018. All assets of the Plan were transferred, and Concordance Healthcare Solutions 401(k) Retirement Plan had legal control and responsibility of the transferred plan assets as of February 1, 2018, the effective date of the merger. Accordingly, the Plan recognized a transfer out to the Concordance Healthcare Solutions 401(k) Retirement Plan of \$5,416,207 in its statement of changes in net assets available for benefits for the period from January 1, 2018, to February 1, 2018.
