PREFORMED LINE PRODUCTS COMPANY
PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Preformed Line Products Company Profit-Sharing Plan (the "Plan") is a summary of certain provisions of the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participation – The Plan is a defined contribution plan, which covers substantially all domestic employees of the Plan sponsor, Preformed Line Products Company (the "Company"). Employees are eligible to participate in the Plan upon their date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective May 1, 2016, a 401(k) Plan of a wholly-owned subsidiary was merged into the Plan. After the merger, each participant, beneficiary, and alternate payee in the merged Plan has accrued benefits equal to accrued benefits prior to the merger. The assets transferred during 2016 totaled \$912,468.

Administration – The Plan is administered by the Company, which is responsible for controlling and managing the operations and administration of the Plan.

Contributions – Participants may contribute up to 100% of their compensation to the Plan, subject to limitations contained in the Internal Revenue Code ("IRC"), on a pretax basis.

The Company is required to make a matching contribution, for all salaried employees with less than two years of employment with the Plan Sponsor and for all hourly employees, equal to 25% of each participant's contribution up to 8% of the participant's compensation.

The Company may also make discretionary contributions for all salaried and hourly employees with two or more years of experience to the Plan each year. Each employee's portion of the discretionary contribution is awarded based on years of service and salary.

The Company no longer directs a percentage of the annual employer contribution to be invested in the common stock fund for the account of each participant. The common stock fund invests principally in the Company's common shares. Participants may direct contributions (beyond the investment in the common stock fund) in any of the other investment options offered by the Plan. Participants may change their investment options, including investments out of the common stock fund, daily.

Participants' Accounts – The Plan maintains an individual account for each participant. These accounts are credited with participants' contributions, Company contributions, and an allocation of related earnings and expenses. Allocations are based on account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants elect to maintain their aggregate participant contributions in one or more of the investment funds. Separate accounting for each of the funds is made pursuant to the participant's designated election.

The net value of each participant account is established daily through the valuation of the funds at fair value.

PREFORMED LINE PRODUCTS COMPANY
PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Plan Description (Continued)

Vesting – Contributions are fully vested when credited to participant accounts.

Payment of Benefits – Participants, upon retirement, termination, disability, or the attainment of age 70½ or a participant's beneficiary upon the participant's death, may elect to either roll over the funds, or receive a lump-sum amount equal to the value of their account. In the case of a severe financial hardship, the plan administrator may direct distribution of up to 50% of a participant's account, subject to certain restrictions.

Notes Receivable From Participants – Participants may borrow from their accounts up to the lesser of \$50,000 or 50% of their vested account balance, reduced by their highest outstanding note balance during the preceding 12 months. Note transactions are treated as a transfer from the respective investment fund to the loan fund. Note repayment terms range from 1-5 years except for notes used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate based on the prime interest rate as determined daily by Charles Schwab Bank (the "Trustee") on the note origination date plus 1%. Principal and interest are paid ratably through semi-monthly or bi-weekly payroll deductions.

Termination Provisions – The Company anticipates and believes that the Plan will continue indefinitely, however, the Company reserves the right to discontinue its contributions and terminate the Plan at any time by an action of its Board of Directors. In the event of termination of the Plan, the assets in the funds will be allocated and distributed to participants in accordance with the terms and provisions of the Plan and ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Company has evaluated subsequent events through September 11, 2018, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance.

Payment of Benefits – Benefits are recorded when paid.

PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative Expenses – All administrative fees of the Plan are paid by the Plan or by the Company at the option of the Company except fees related to participant loans, which are paid by the affected participants.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3. Unaudited Information

The Trustee holds the Plan investment assets and executes transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investment information and notes receivable from participants in the statements of net assets available for benefits at December 31, 2017 and 2016, the supplemental schedule at December 31, 2017, the related investment and loan interest activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 – Unobservable inputs in which little or no market data exists

PREFORMED LINE PRODUCTS COMPANY
PROFIT-SHARING PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for Plan assets measured at fair value:

- Common stock fund: Valued at fair value as determined by State Street Company, which was determined based upon the unit values of the trust, and is classified as Level 2. Unit values are determined based upon the quoted market value of the underlying investments divided by the total units outstanding.
- Registered investment companies: Valued based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.
- Money market fund: Valued based on its quoted closing market prices in active markets for identical investments, and is classified as Level 1.
- Common stock: Valued at the closing price reported in the active market in which the individual securities are traded, and are classified as Level 1.
- Cash: Interest bearing cash is classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2016 to 2017. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017
