The Thomas & Betts Pension Plan for Bargaining Unit Employees:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **The Thomas & Betts Pension Plan for Bargaining Unit Employees** (the “Plan”), which comprise the statements of net assets available for benefits as of November 30, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended November 30, 2017 and 2016, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of November 30, 2017 and 2016, and for the years ended November 30, 2017 and 2016, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 3, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Plan Description and Benefits

The following summary discussion of Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees (Plan) is provided for informational purposes only. Participants should refer to the Plan document for information regarding eligibility, vesting and the determination of Plan benefits.

The Plan is a defined benefit pension plan sponsored by Thomas & Betts Corporation (the Corporation and Plan Sponsor). Participants in this Plan include substantially all employees of the Corporation covered by a collective bargaining agreement at its Athens, Tennessee and Mercer, Pennsylvania locations. The Board of Directors of the Corporation has delegated responsibility for the administration of the Plan to the ABB Pension and Benefit Committee. It is the responsibility of the Plan administrator to maintain records of Plan participants, authorize benefit payments and determine employee eligibility and benefit amounts. The Plan offers multiple options for payment including, lump-sum and various annuity options for participants which have satisfied the vesting requirements under the Plan.

The Corporation was acquired by ABB, Ltd. on May 16, 2012. Effective February 3, 2014, the Plan's investment assets were transferred to the ABB Master Trust (Master Trust) with Bank of New York Mellon (BNY Mellon) as trustee.

The Plan is divided into six parts (Parts A through F), each representing a previously merged plan. There are no active participants in Parts A, B, E or F. Part C of the Plan covers employees who are members of Local 175 of the International Brotherhood of Electrical Workers at the Corporation's Athens, Tennessee plant. Part D of the Plan covers employees who are members of Local 5306 of the United Steelworkers of America, AFL-CIO Technical Unit, Production and Maintenance Unit or Clerical Unit at the Corporation's Mercer, Pennsylvania plant.

During the second quarter of 2012, the Corporation and the union representing collectively bargained employees at the Mercer facility approved a plan to discontinue the future accrual of benefits for participants under Part D of the Plan after December 31, 2012. During the second quarter of 2011, the Corporation and the union representing collectively bargained employees at the Athens facility approved a plan to discontinue future accrual of benefits for participants under Part C of the Plan after December 31, 2011. As of December 31, 2012, all Parts of the Plan were frozen.

2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with United States generally accepted accounting principles (US GAAP). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

The Master Trust invests in various types of investment securities and in various companies and/or funds within various markets. The Plan's interest in the Master Trust is exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments in the Master Trust, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions including interest rates and employee demographics, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent Accounting Pronouncements

In February 2017, the FASB issued ASU 2017-06, "*Plan Accounting: Employee Benefit Plan Master Trust Reporting*." The amendments in the ASU clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the Plan's interest in the Master Trust. The amendments also eliminate a redundancy relating to 401(h) account disclosures. The amendments in ASU 2017-06 are effective for plans for fiscal years beginning after December 15, 2018. Management does not expect the new accounting pronouncements to have a material impact on the financial statements.

Master Trust

Investment managers have been granted discretionary authority concerning all purchases and sales of investments in the Master Trust within the investment guidelines established by the ABB Investments Committee. The Plan's interest in the Master Trust and the interest in the net investment income or loss of the Master Trust has been reported to the Plan administrator by BNY Mellon. Fair values of investments are allocated to the participating plans based upon each plan's proportionate interest in the Master Trust.

The Plan's interest in the Master Trust is stated at fair value as described in Note 4. Purchases and sales of securities by the Master Trust are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date.

Interest income is recorded when earned. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought, sold, and held during the year.

Funding Policy

The Corporation generally contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the minimum funding requirements of ERISA.

It is the Company's intention to only make contributions that are tax-deductible. For each of the years ended November 30, 2017 and 2016, the Plan has satisfied the minimum funding requirements of ERISA.

Payment of Pension Benefits

Benefit payments to participants are recorded upon distribution.

Securities Lending

As of and for the years ended November 30, 2017 and 2016, the Master Trust participated in the BNY Mellon's securities lending program for securities held in custody at the trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund consisting of high quality short-term investments managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to \$3,655 and \$10,950 at November 30, 2017 and 2016, respectively. The obligation for collateral due to borrower of \$3,744 and \$11,212 at November 30, 2017 and 2016, respectively, inclusive of the liability for collateral deposits of \$89 and \$262 is included net in the balance for each respective investment type with loaned securities with the majority being included in corporate bonds. The realized gain from securities lending activities of \$21 and \$26 for the years ended November 30, 2017 and 2016, respectively, are included as a component of the net appreciation (depreciation) in fair value of investments in Note 4.

Derivatives

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The values of such derivative contracts are included net in the balance for each respective investment type with derivative contracts with the majority being included in the state and foreign bonds.

At November 30, 2017 and 2016, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, “*Derivatives and Hedging*,” are included in the Master Trust’s net assets under state and foreign bonds. The realized gain/(loss) from foreign currency forward exchange contracts of \$285 and \$(662) for the years ended November 30, 2017 and 2016, respectively, are included as a component of the net appreciation (depreciation) in fair value of investments in Note 4.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust’s net exposure to derivative assets and liabilities, available for offset and net of collateral under a netting agreement at November 30, 2017 and 2016.

3 Financial Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from BNY Mellon that all information relating to the Plan's and Master Trust's investments and related investment income (loss) as of and for the years ended November 30, 2017 and 2016 is complete and accurate. Information as to the Plan's interest in the Master Trust and the Plan's interest in the net investment income or loss of the Master Trust was also certified. The information was not audited by independent certified public accountants except for comparing the information to the related information included in the financial statements.

4 Interest in the Master Trust

The Plan's investment assets are held in the ABB Master Trust, established for the investment of the assets of the Plan and other retirement plans sponsored by ABB, Ltd. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At November 30, 2017, the Plan had a 2.8% interest in the net assets of the Master Trust, and at November 30, 2016, the Plan had a 2.8% interest in the net assets of the Master Trust.

The following information presents the net assets of the Master Trust as of November 30, 2017 and 2016:

5 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “*Fair Value Measurements and Disclosures*,” requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust investments, are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3: Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity’s own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at November 30, 2017 and 2016:

- Corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable section of issuers with similar credit ratings.
- State and foreign bonds valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- U.S. government securities valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Corporate stocks valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using closing price reported on the inactive market.
- Registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year-end.
- Collective trusts are valued at net asset value. Partnership/joint venture interests, and 103-12 investment entities are valued at net asset value as reported by the respective fund managers based upon the fair value of the underlying investments less liabilities.
- Short investments primarily consists of interest rate swaps which are valued using the income approach which takes into account contract terms as well as multiple inputs which may be observed in the marketplace.

In accordance with ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in Note 4.

There were no significant transfers among investment levels during the years ended November 30, 2017 and 2016, except for the removal of certain investments that were measured at NAV from the fair value hierarchy in accordance with ASU 2015-07.

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of November 30, 2017:

- a) The partnership/joint venture interests investments are invested within alternative investments such as private equity and fund of funds. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity. Within the limited partnerships, there is also a limited partnership that has an investment objective of seeking to outperform the S&P 500. This fund does require monthly notice to provide liquidity.
- b) The collective trust investments include an international equity fund and emerging market fixed income bond fund. The investment objective of the international equity fund is to seek capital appreciation through investments in a portfolio of securities issued by companies predominantly in companies contained in The MSCI EAFE Index. The investment objective of the emerging market fixed income fund is to seek long-term total return through investment in a diversified portfolio of emerging markets debt securities and currency instruments.
- c) The 103-12 investment entities are invested in alternative investments with specific requirements under ERISA. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity.

6 Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those periodic payments, including lump sum distributions, that are expected to be made in the future pursuant to the Plan's provisions for the years of service employees have rendered through the valuation date.

Willis Towers Watson & Company performs consulting and actuarial functions for the Plan. The actuarial present value of the accumulated Plan benefits as determined by Willis Towers Watson & Company is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations for the Plan year ending November 30, 2016 were: (a) mortality rates based on the Blue Collar RP-2006 Mortality Tables with Scale MP-2017 generational projection; (b) moderate rate of employee withdrawal; (c) assumed rate of return on investments (funding interest rate) of 5.7% and (d) a weighted average assumed retirement age at 60. Assumption changes totaling \$248, were primarily the result of the change in the mortality table used to determine present value of accumulated benefits as of November 30, 2016.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present values of accumulated Plan benefits as of November 30, 2016, the Plan's measurement date, are presented below.

7 Plan Termination

Although the Corporation has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. Upon termination of the Plan, each affected participant's accrued benefit as of the date of termination becomes fully vested to the extent funded. Under provisions of ERISA, if the Plan is terminated, the Corporation may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC).

Refer to the Plan document for a detailed description of the order of allocation of Plan net assets among participants and beneficiaries of the Plan in the event of the termination of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees that is adjusted periodically. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

8 Federal Income Taxes

The IRS has determined and informed the Company by a letter dated February 25, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax-exempt. The Commonwealth of Puerto Rico has issued a determination letter dated February 24, 2014, stating that the Plan is a qualified plan in accordance with applicable sections of the Puerto Rico Internal Revenue Code.

Accounting principles general accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. As of November 30, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9 Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by BNY Mellon. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10 Subsequent Events

Plan management evaluated subsequent events through September 7, 2018, which is the date the Plan financial statements were available to be issued, and has concluded that, there were no subsequent events requiring recognition or disclosure in these financial statements.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430(h), lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Mortality (Healthy & Disabled)	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were selected based on a published table for pension participants believed to have similar characteristics to the plan population.
Disability	This assumption was selected based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
Retirement	Retirement rates were selected based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Percent married	The assumed percentage married was selected based on general population statistics on the marital rates of individuals of retirement age.
Form of payment	The percentage of terminating participants assumed to take lump sums is based on observed experience over the period 2014 through 2015.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

In addition to the prescribed change in the mortality table, the following changes in assumptions and methods were made as part of this valuation:

- The assumed plan-related expenses added to the target normal cost were changed from \$280,000 to \$240,000.
- The plan’s effective interest rate decreased 20 basis points compared to the prior year (6.01% vs. 6.21%).
- The retirement rates were extended from age 65 to age 70 in order to better represent the plan sponsor’s best estimate of future experience.
- The termination rates were updated to the union termination rates from the 2003 Society of Actuaries Turnover Study.
- The marital assumption was changed from 80% to 70% of participants being married, so as to better represent the plan sponsor’s best estimate of future experience.
- The lump sum election rate for both plans was changed to 50% based on an analysis of the actual lump sum election experience over the past two years.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part VI Summary of Plan Provisions

Benefit Structures

The following summarizes important information about the different benefit structures in the Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees. The plan was restated effective 12/1/2015. There have been no plan amendments since the restatement and before the valuation date.

Five different bargaining agreements have been merged to form The Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees and are referred to as Parts A, B, C, D, and E. Parts A, B, and E cover only former employees from these bargaining agreements.

Former employees from Parts A, B, and E are valued using their previously determined accrued benefits (or actual benefits being paid).

Plan Provisions for Parts C and D are outlined below. Part C applies to employees at the Athens, Tennessee plant and Part D applies to the employees at the Mercer, Pennsylvania plant, also referred to as Reznor participants.

Athens Hourly Participants (Part C)

Plan Provisions

The plan was originally effective January 1, 1973 and was most recently restated as of December 1, 2015.

Coverage and Participation	Employees represented by Local 175, International Brotherhood of Electrical Workers at the plant in Athens, Tennessee prior to the participation freeze date. Participation was frozen effective July 17, 2006.
-----------------------------------	---

Definitions

Vesting service	One year of service is credited for each calendar year during which the participant works at least 1,000 hours.
------------------------	---

Credited service	One year of Credited Service is earned for each calendar year prior to 2012 in which the participant completes 1,000 or more hours of service. No partial years of Credited Service are granted for a calendar year in which the participant works less than 1,000 hours. No Credited Service is provided after 2011.

Preretirement death

The eligible spouse will be entitled to a monthly lifetime pension equal to 50% of the pension the participant would have received had he retired the day prior to his death and elected a joint and survivor annuity with 50% continuation to his or her spouse. If the participant was not at early retirement age at the time of his death, the pre-retirement survivor annuity will be deferred until the date of which he would have qualified for early retirement had he lived.

Other Plan Provisions

Form of payment

Normal Form of Payment:

The normal form of payment is a monthly life annuity. However, a married participant shall normally receive an actuarially reduced joint annuity with a 50% continuation after the participant's death to his or her spouse, if surviving.

Optional Forms of Retirement Income in Lieu of Normal Form:

A participant may elect one of the following forms of payment of equivalent value:

- Life Annuity
- Joint and Survivor Annuity (50%, 66 2/3%, 75%, and 100%)
- Period certain and Life Benefit (5 years, 10 years, and 15 years)
- Lump sum (available for 6 months following termination)

Maximum limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect. Increases in the dollar limits are not assumed for funding or AFTAP purposes.

Future Plan Changes

No future plan changes were recognized in determining funding requirements. Willis Towers Watson is not aware of any future plan changes that are required to be reflected.

Mercer (Reznor) Hourly Participants (Part D)

Plan Provisions

The plan was originally effective March 1, 1966 and was most recently restated as of 12/1/2015.

Coverage and Participation

Employees represented by Local 5306 of the United Steelworkers of America, AFL-CIO (Technical Unit, Production and Maintenance Unit and Clerical Unit) become participants in the plan upon attaining age 21 and completing at least one year of service. Participation was frozen for all employees effective May 21, 2008.

Definitions

Credited Service

For employment after June 1, 1973, one year of Credited Service is earned for each calendar year prior to 2013 in which the participant completes 1,680 or more hours of service. Participants receive one tenth of a year of Credited Service for each 168 hours that are worked during a calendar year in which they complete less than 1,680 hours of service. Prior to June 1, 1973, one year of Credited Service was granted for each year of employment. No credited service is provided after 2012.

Vesting service

One year of service is credited for each calendar year during which the participant works at least 1,000 hours or is on an authorized leave of absence.

Eligibility for Benefits

Normal retirement

Retirement as of age 65 with 5 years of vesting service.

Early retirement

Retirement before NRD and on or after both attaining age 60 with 20 years of Vesting Service.

Deferred vested termination

Termination for reasons other than death or retirement after completing five years of vesting service

Disability

Permanent and total disability prior to NRD, and participant is age 50 with 15 years of vesting service

Benefits Paid Upon the Following Events

Normal retirement

Participants receive an accrual based on a multiplier per month per year of Credited Service. The multipliers for each year of Credited Service are shown below for terminations on or after June 1, 2008.

Credited Service	Multipliers
Prior to May 31, 1963	\$5.00
June 1, 1963 – June 30, 1990	16.25
July 1, 1990 and Later	23.00

Early retirement

The monthly accrued benefit as of Early Retirement, reduced by 1/180th for each month by which the commencement of benefits precedes the earlier of the normal retirement date or the attainment of age 62 with 40 years of service. If a participant is at least age 62 with at least 40 years of service, the monthly accrued benefit is unreduced.

Deferred vested termination

The monthly accrued benefit as of the date of termination with payments beginning at age 65. The benefit is available for early retirement as described above with 20 years of Vesting Service at termination.

Disablement

The monthly accrued benefit as of the date of disablement unreduced for early retirement. If a participant is awarded an Employer-provided Public Disability benefit, then the disability benefit under the plan is reduced by the Public Disability benefit.

Schedule SB, Line 24 Change in Actuarial Assumptions

In addition to the prescribed change in the mortality table, the following changes in assumptions and methods were made as part of this valuation:

- The assumed plan-related expenses added to the target normal cost were changed from \$280,000 to \$240,000.
- The retirement rates were extended from age 65 to age 70 in order to better represent the plan sponsor's best estimate of future experience.
- The termination rates were updated to the union termination rates from the 2003 Society of Actuaries Turnover Study.
- The marital assumption was changed from 80% to 70% of participants being married, so as to better represent the plan sponsor's best estimate of future experience.
- The lump sum election rate for both plans was changed to 50% based on an analysis of the actual lump sum election experience over the past two years.
