IMMEDIATE MAILING SERVICES, INC. 401(k) PROFIT SHARING PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of plan

The following description of the Immediate Mailing Services, Inc. (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Change in Custodian - Effective November 1, 2017, the Company changed Custodians. All of the Plan's assets were transferred from John Hancock Life Insurance Company of New York to Hand Benefits and Trust Company.

General - The Plan is a defined contribution plan, which covers substantially all employees. Employees are eligible to participate upon attaining the age of eighteen. Participants are eligible for employer-matching contributions upon attaining the age of eighteen and completing one credited year of service (1,000 hours of service). The Plan is subject to the provisions of ERISA.

Contributions - Participants are allowed to contribute up to 100% of compensation, as defined by the Plan and subject to Internal Revenue Code limitations. Participants may also rollover amounts from other qualified plans into this plan. Participants direct their contributions into various investment options offered by the Plan. The Company makes matching contributions equal to 50% of the participant's elective contributions, not to exceed 2.5% of the participant's compensation. The Company's matching contributions amounted to $58,165 and $49,963 for the years ended December 31, 2017 and 2016, respectively. The Company may also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions for the years ended December 31, 2017 and 2016.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's matching and profit sharing contribution and plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are always 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant vests at a rate of 20% after two years of service and 20% each year thereafter with full vesting upon completion of six years of service.

Forfeitures - Forfeited non-vested accounts totaled $9,984 and $5,620 at December 31, 2017 and 2016, respectively. These accounts can be used to reduce future employer contributions to the Plan. The Company did not use forfeited accounts to reduce employer discretionary matching contributions for the years ended December 31, 2017 and 2016, respectively.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These notes will bear interest at the Wall Street Journal prime rate plus 2%, fixed at inception. Interest rates ranged from 5.25% to 6.25% at December 31, 2017 and 2016. The notes are collateralized by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions. The notes receivable and interest thereon shall be repaid over a period not to exceed five years, unless the note is used to acquire a personal residence. The plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments (see Note 2).

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the notes receivable from participants program. There were deemed distributions of $8,516 for the year ended December 31, 2017. There were no deemed distributions for the year ended December 31, 2016.

Payment of benefits - Upon termination of service, a participant may elect to receive a lump sum amount equal to the vested value of their account.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment securities in any combination of mutual funds and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of

investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments held by the Plan are stated at fair value (see Note 4) with the exception of common collective trust funds and pooled separate accounts, which are/were valued at the net asset value as a practical expedient as reported by the sponsor of the fund; see below. All fair market values for investments at fair value have been determined by the Custodians of the Plan (see Note 3). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The common collective trust funds of Goldman Sacs Stable Value Fund are funds that are made up of various benefit responsive contracts ("Stable Value Contracts"). Common collective trust funds are valued at net asset value (NAV) per share, which serves as a practical expedient to estimate its fair value. The NAV of each common collective trust fund is not publicly quoted in the active markets and is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no redemption restrictions or unfunded commitments as of December 31, 2017. Investments measured at NAV per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Pooled separate accounts invested primarily in equities, bonds, group annuity contracts, real estate and mutual funds, which were mainly publicly traded securities. Pooled separate accounts were valued at NAV per share, which serves as a practical expedient to estimate its fair value. This practical expedient would not be used if it were determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Included in the pooled separate accounts was a stable value fund, which represented participation units of a collective investment trust for which the NAV was based on the market value of the underlying investments. The stable value fund was composed primarily of fully benefit-responsive investment contracts that were valued at the NAV of units of the bank collective trust. The NAV of each pooled separate account was not publicly quoted in the active markets. Each pooled separate account could have been redeemed at NAV as of the measurement date and could have been redeemed on a daily basis. There were no unfunded commitments or redemption restrictions on these investments as of December 31, 2016. Investments measured at NAV per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Economic dependency and concentration of credit risk - Approximately 74% of the Plan's investments are invested with Vanguard as of December 31, 2017. All of the Plan's investments were invested with John Hancock Investments as of December 31, 2016. Accordingly, the Plan is dependent upon the financial condition of these entities.

Administrative costs - Administrative costs, including legal and accounting costs, are the obligation of the Plan; however, the Company has paid or reimbursed the Plan for such expenses. Costs of maintaining participant accounts and managing the investments are paid directly out of plan assets (see Note 6).

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed ninety days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable becomes material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded as paid.

Excess contributions payable - Excess contributions payable represent excess employee salary deferral contributions and excess employer matching contributions owed to certain participants in order to satisfy the relevant nondiscrimination provisions of the Plan. The excess contributions were recorded in the financial statements when received and reported on Form 5500 when paid for years ended December 31, 2017 and 2016. Corrective distributions are returned to the effected participants subsequent to year end, including any investment earnings thereon (see Note 7).

Subsequent events - Effective January 1, 2018, the Plan was amended and restated to adopt Benefit Plans Administrative Services LLC Adoption Agreement #001 Volume Submitter 401(k) Profit Sharing Plan. Management has evaluated subsequent events through September 7, 2018, the date that the financial statements were available for issue.

Note 3 - Information certified by the Plan's Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations and Disclosure under ERISA. Accordingly, Hand Benefits & Trust Company, the Plan's Custodian as of December 31, 2017, and for the period November 1, 2017 through December 31, 2017, and, John Hancock Life Insurance Company of New York, the Plan's Custodian as of December 31, 2016, and for the period January 1, 2016 through October 31, 2017, have certified that the investments and investment income included in the accompanying financial statements as of and for the years ended December 31, 2017 and 2016, and supplemental schedule as of December 31, 2017, are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair value measurements

The Financial Accounting Standards Board has published authoritative guidance on fair value measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies - The investment portfolios consist of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in valuation methodologies for the year ended December 31, 2017.

The following tables set forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 2,701,123	$ -	$ -	$ 2,701,123
