401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Medical Billing Experts, LLC 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. For a more complete description of the Plan, participants should refer to the Plan Agreement and its related provisions.

General

The Plan is a single employer defined contribution plan covering substantially all employees of Medical Billing Experts, LLC (the "Company") who have reached the age of 21. The Plan Trustees control the operations of the Plan. Matrix Trust Company is the custodian of the Plan assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants shall be permitted to make pre-tax and Roth contributions to the Plan in any amount up to 100 percent of their pretax annual compensation subject to certain Internal Revenue code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan Sponsor will make safe harbor contributions of 3 percent of participant wages, and are proportionate to the elective contributions made on behalf of a participant. The Plan Sponsor may make an elective contribution to participant accounts equal to 50 percent of participant elective deferrals that do not exceed 10 percent of eligible compensation for the Plan year. The Plan Sponsor, at its discretion, may also make profit sharing contributions. During the year ended December 31, 2017, the Company made matching safe harbor contributions of \$190,796 and profit sharing contribution \$286,194 to the Plan.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Plan's matching contributions and Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participant contributions and Plan Sponsor matching profit sharing contributions are allocated among the available investment options as directed by each participant. By designating these investment alternatives for participants, allowing frequent fund transfers, and providing the necessary fund information to participants, it is intended that the Plan be treated as an ERISA 404(c) Participant-Directed Account Arrangement. The Plan currently offers various mutual funds and a collective trust as investment options for participants.

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Payment of Benefits

The participant's vested account balance may be paid out using a variety of payment options selected by the participant after termination of employment, retirement, death, or total disability. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59 ½.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and the safe harbor matching contribution. Vesting in the Plan Sponsor's elective profit sharing contribution portion of their accounts is based on years of continuous service. Employer profit sharing contributions become 100% vested after three years of service or reaching normal retirement age.

Upon death, disability, or normal retirement age, participants become fully vested. Participants will forfeit the non-vested portion of their account balance upon the earlier of: (1) termination, if 0% vested; (2) distribution, if partially vested; or (3) after five consecutive one-year "breaks in service". In the event of re-hire prior to five consecutive "breaks in service", forfeited balances will be restored to employees upon meeting certain conditions. Forfeitures are first applied to reduce administrative expenses of the Plan, then any remaining forfeitures shall reduce matching contributions.

Forfeitures

As of December 31, 2017, forfeited non-vested accounts totaled \$43,421. Forfeitures in the amount of \$43,421 were used to reduce employer contributions for the year ended December 31, 2017, and \$1,951 of forfeitures were used during 2017 to reduce the employer contributions for the year ended December 31, 2016.

Year-end

The Plan has a calendar year end.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Medical Billing Experts, LLC

401(k) Profit Sharing Plan

Notes to Financial Statements

Summary of Significant Accounting Policies (Continued)

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value as determined by the custodian of the Plan assets for the year ended December 31, 2017, as discussed in Note 7. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Receivables

The Plan has not recorded an allowance for uncollectible receivables because management believes all amounts are fully collectable.

Payment of Benefits

Benefits are recorded when paid. There were no benefits payable to accounts of persons who have elected to withdraw from the Plan but have not yet been paid at December 31, 2017.

Administrative Expenses

As allowed in the Plan document, administrative expenses of \$9,003 were paid from the Plan assets for the year ended December 31, 2017. Investment related expenses are included in net appreciation of fair value of investments.

Note 3: Information Certified by Matrix Trust Company

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the unaudited information regarding the Plan as of December 31, 2017, and for the year then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Matrix Trust Company, the custodian of the Plan assets, and furnished to the Plan administrator. Investments are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. The custodian of the Plan assets has certified that such information is complete and accurate.

Net appreciation (depreciation) in fair value of collective investment funds	645

Note 4: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Matrix Trust Company. Matrix Trust Company is the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred and paid by the Plan for the investment management services were \$9,003 for the year ended December 31, 2017.

Note 5: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

Note 7: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Medical Billing Experts, LLC

401(k) Profit Sharing Plan

Notes to Financial Statements

Note 7: Fair Value Measurements (Continued)

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

401(k) Profit Sharing Plan

Notes to Financial Statements

Note 9: Tax Status

The Plan utilizes the Milliman, Inc. Volume Submitter Profit Sharing Plan, an IRS approved prototype plan document with the latest determination letter on March 31, 2014. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS, DOL, or the various state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In the course of its assessment, the Plan Administrator has determined that it is subject to examination of its income tax filings for the prior three years. In the event that the Plan is assessed penalties and/or interest, penalties and interest will be charged to administrative expense.

Note 10: Supplemental Schedules Not Required

The following schedules are not required for the Plan for the year ended December 31, 2017:

- Schedule of Loans or Fixed Income Obligation in Default or Classified as Uncollectible
- Schedule of Leases in Default or Classified as Uncollectible
- Schedule of Nonexempt (Prohibited) Transactions
- Schedule H, Line 4j – Schedule of Reportable Transactions

Note 11: Subsequent Events

Management of the Plan evaluated subsequent events through August 23, 2018, which was the date the financial statements were available to be issued. Subsequent to year end, the Company began a restructuring process that will bring changes to the overall structure. The extent of those changes is not currently known. There were no other subsequent type events, identified by management of the Plan, that are required to be disclosed.
