NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017

NOTE A – DESCRIPTION OF THE PLAN

The following description of the ME Devco NC Limited (“Company”) 401(k) Profit Sharing Plan and Trust (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and was adopted effective January 1, 2015. Effective March 1, 2015, the Plan was amended to adopt a prototype 401(k) Profit Sharing Plan and Trust designed by Paychex, Inc.

Eligibility – Employees of the Company on March 1, 2015 are automatically eligible to participate in the Plan upon attaining age 18. Employees hired after that date become eligible to participate after one year of service and the attainment of age 18. Upon meeting this eligibility requirement, an employee can begin to immediately participate in the Plan.

Contributions – Each year, participants may elect to contribute up to 92% of their compensation, as defined in the Plan, up to the dollar limit set by law. Participants who have reached age 50 by the end of the Plan year may make additional pre-tax “catch-up” contributions of up to \$6,000 for 2017.

The Company is required to make matching contributions of 50% of the participant’s deferral percentage up to salary reductions of 4% of the participant’s salary.

The Company may make discretionary contributions, which will be allocated to participants’ accounts based on an age-weighted formula. During 2017, the Company made no discretionary contributions to the Plan.

Participant accounts – Each participant’s account is credited with the participant’s contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2017

NOTE A – DESCRIPTION OF THE PLAN (continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. The portion of their accounts attributable to Company matching or discretionary contributions plus actual earnings thereon vest as follows:

<u>Years of Service</u>	<u>Vesting Percent</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at 5.5 to 6.25 percent, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Normal retirement benefits – Participants are entitled to retirement benefits upon reaching the age of 65.

Early retirement benefits – Early retirement benefits can be received by participants that reach the age 59 1/2.

Disability benefits – If a participant becomes disabled, as defined by the Plan, the participant is entitled to receive 100% of their account balance, as if they had retired.

Death benefits – Upon the death of a participant prior to normal retirement age, the participant's spouse or beneficiary is entitled to 100% of the benefits provided by his or her account balance. Payments to the beneficiary are made on a lump sum basis upon the participant's death.

NOTE A – DESCRIPTION OF THE PLAN (continued)

Investment Options - Participants direct the investment of their contributions and, if any, their allocation of Company matching and nonelective contributions into various investment options offered by the Plan.

Forfeited Accounts – At December 31, 2017 and 2016, forfeited nonvested amounts totaled \$31 and \$30, respectively. These amounts will be used to reduce administrative expenses of the Plan or future employer contributions to the Plan. In 2017, employer contributions were reduced by \$521 from forfeited nonvested accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements have been prepared under the accrual basis of accounting.

Use of Estimates – The Plan's financial statements are prepared in accordance with generally accepted accounting principles which require the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note C for a discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses on investments are included in the net depreciation in fair value of investments reported in the statement of changes in net assets available for benefits.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (“IRS”) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2017 and 2016 excess contributions to the applicable participants prior to March 15, 2018 and 2017, respectively.

Benefit Payments – Benefit payments are recorded when paid.

Administrative Expenses – All administrative costs of the Plan, except for certain loan, investment fees and audit fees, are paid by the Company.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts. The Plan invests in the Invesco Stable Value Retirement Trust Fund, the State Street S&P MidCap Index Securities Lending Series Fund, and the State Street Russell Small Cap Index Securities Lending Series Fund. These five funds are considered common collective trusts. A common collective trust is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTES TO FINANCIAL STATEMENTS

NOTE E – INCOME TAXES

Paychex, Inc. has obtained a determination letter dated April 10, 2014 for the prototype 401(k) Plan adopted by the Company on March 1, 2015 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or other state and local tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE F – TRANSACTIONS WITH PARTY-IN-INTEREST

Fees paid to Paychex, Inc. and Reliance Trust Company to provide certain accounting and administrative services were based on customary and reasonable rates for such service.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
