1. Description of the Plan

The following description of the Global Transportation Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, which is sponsored by Global Transportation Services, Inc. (the "Company" or "Plan Sponsor") is a contributory, defined contribution 401(k) retirement plan covering substantially all employees of the Company. The Plan was established on August 5, 2013, which is the date of inception, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

To be eligible to participate in the Plan, an employee must have attained the age of 18 and have completed three months of service. The Plan was amended on October 1, 2017 to change the service requirement to two months. Enrollment occurs on the first day of the month following the date the eligibility criteria is met. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any profit sharing contributions.

Contributions

Participants may elect to make pre-tax and Roth (after-tax) contributions up to 100% of their annual compensation, subject to certain Internal Revenue Code ("IRC") limitations, which for 2017 was $18,000 for participants with additional catch-up contributions of $6,000 permitted for participants who attained age 50 before the end of the Plan year.

Matching contributions may be made at the discretion of the Company in an amount equal to a percentage the Company may deem appropriate. Discretionary matching contributions of 50% of employee deferrals, up to a maximum of 8% of an employee's eligible compensation, were made for the year ended December 31, 2017. The Company may also make a profit sharing contribution for each participant based on a percentage of the employee's pre-tax eligible compensation. No profit sharing contribution was made for the year ended December 31, 2017.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and an allocation of net Plan earnings or losses. Participants may direct the investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers mutual funds and a money market fund as investment options for participants.

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the employer match portion of participant accounts is based on years of credited service defined within the Plan document based on years of service as defined by the following schedule:

Completed Years of Service	Percentage Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or greater	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. At December 31, 2017, the rate of interest on outstanding loans is 4.25% to 5.25% with various maturities through November 2022.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant may elect to receive either a lump-sum distribution or installment payments under various options. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. If a participant's vested benefit does not exceed $5,000 upon termination, the Plan Administrator may direct the trustee to make a single lump sum distribution to the participant without prior written consent. If the vested benefit under the Plan exceeds $5,000, then the participant must consent to the distribution before it may be made.

Forfeitures

Forfeitures may be used to pay Plan expenses or reduce employer matching contributions to the Plan. During 2017, $3,745 and $1,249 were used to reduce employer matching contributions and pay Plan expenses, respectively. Unallocated forfeitures available for future use was $40,728 at December 31, 2017.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participant-requested services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan allows participants to direct contributions into various mutual funds. The underlying investment securities of these funds are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain underlying investment securities and the level of uncertainty related to changes in the value of the funds, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See note 4 for a discussion of fair value measurements.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. The Plan considers all notes receivable from participants at the end of the calendar quarter, following a calendar quarter for which there is any outstanding payment due, as in default. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits. Notwithstanding the foregoing, unless a participant repays a loan that has been deemed distributed, the amount of such a loan with interest shall still be considered an outstanding loan. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate.

December 31,	2017	2016
Mutual funds, at fair value	$ 7,301,398	$ 5,969,507
Money market fund, at fair value	40,728	35,493

Net investment income is reflected in the Statement of Changes in Net Assets Available for Benefits as follows:

Year ended December 31,	2017
Net appreciation in fair value of investments	$ 834,511
Interest and dividends	282,832

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission.

The funds held by the Plan are deemed to be actively traded and classified within Level 1 of the fair value hierarchy as of December 31, 2017 and 2016.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants' accounts will become fully vested.

6. Income Tax Status

In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") has determined that the volume submitter profit sharing plan used by the Plan is qualified under the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is recorded in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-In-Interest Transactions

The Plan paid $1,379 to service providers that are defined as parties-in-interest under ERISA for the year ended December 31, 2017.

8. Operational Errors

The Plan Sponsor identified a plan level late remittance for the Plan year ended December 31, 2017. The Plan performed lost earnings calculations and remitted lost earnings owed to participants in accordance with Department of Labor and IRS rules and regulations. For the 2017 Plan year, the Company computed lost earnings on delinquent participant contributions of $18,975, and remitted lost earnings of $377 to the Plan in June 2018. These constitute prohibited transactions as defined by ERISA.

The Plan Sponsor has taken the appropriate steps to correct the situation and has further implemented procedures to help ensure all future remittances are made within the prescribed time period.

9. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through September 14, 2018, the date the financial statements were available to be issued. There were no subsequent events identified which required recognition or disclosure in the financial statements.
