OECONNECTION 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the OEConnection 401(k) Plan (the “Plan”), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was formed on August 15, 2006 as a defined contribution retirement savings plan. The Plan covers all full and part-time associates of OEConnection, LLC (the “Company”) regardless of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

A participant may contribute between 1% and 50% of either their pre-tax and/or post-tax annual compensation, as defined in the Plan, up to the annual Internal Revenue Service (“IRS”) dollar limit. Effective May 1, 2016, this deferral limit was increased to 100%. New employees are automatically enrolled in the Plan 30 days after their date of hire, unless they elect otherwise, at an automatic enrollment rate of 5%. The Company matches 100% of the first 3% and 50% of the next 2% of active participants’ compensation contributed to the Plan.

The Plan provides for automatic increases in active participant’s deferral contributions, unless affirmatively elected otherwise, by 1% annually (limited to 8% of eligible compensation).

If a participant reaches age 50 during the calendar year and is making the maximum Plan or IRS pre-tax contribution, they may make an additional “catch-up” contribution each pay period, up to the annual IRS dollar limit.

Participant Accounts

Each participant’s account is credited with (a) the participant’s contributions, (b) the Company’s annual matching contribution, (c) the Company’s discretionary contribution, if any, (d) the investment earnings gains and losses based on participant investment elections, and (e) charged with an allocation of administrative expenses.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan.

Rollovers

A participant may contribute an eligible cash amount attributable to eligible rollover distributions. This amount shall be credited to the participant’s rollover contributions account within the Plan.

Vesting

Participants are 100% vested immediately in the participant elected deferrals, the Company matching contributions, the Company discretionary contributions and the related investment gains and losses.

OECONNECTION 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

Participant Notes Receivable

Participants may borrow from their account an amount ranging from \$1,000 to the lesser of: (a) 50% of the present value of the participant's vested balance or (b) \$50,000 reduced by the participant's highest outstanding loan balance in the last twelve months. Loan terms extend up to five years; however, if the loan is for the purchase of a primary residence, the repayment period may extend up to ten years. The loans are secured by up to 50% of the participant's vested interest and bear the prevailing market lending rate for the month in which the loan is made. Repayment, with interest, is made through payroll deductions.

Payment of Benefits

A participant who incurred a termination of employment may elect to receive the vested portion of his or her account: (1) in a single lump sum cash payment or (2) under a systematic method payable in substantially equal amounts over a fixed period of time not to exceed the participant's life expectancy or the joint life expectancy of the participant and participant's beneficiary upon reaching retirement eligibility requirements.

A beneficiary shall receive a single lump sum cash payment, except for a beneficiary who is the member's spouse, who may elect to receive payment in a systematic method payable in substantially equal amounts over a fixed period of time not to exceed the beneficiary's life expectancy.

Administrative Expenses

Administrative fees of the Plan are paid by the Plan by method of allocation to participant accounts. The Company pays for the legal, accounting and other professional expenses of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure on contingent assets and liabilities at the date of financial statements, and the reported amounts of additions and decreases to plan assets during the reporting period. Actual results could differ from those estimates.

OECONNECTION 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

Fair Value of Financial Instruments

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2017 and 2016.

Investment income consists of interest and dividend income. The net appreciation (depreciation) in the fair value of investments consists of realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported based on historical cost.

Participant Notes Receivable

The Plan allows loans in accordance with Plan document. The loans are carried at the unpaid principal balance plus accrued interest. Loans are deemed distributions by the Plan when they are determined to be in default.

Benefit Payments

Benefits are recorded when paid.

Income Taxes

Under the Income Taxes Topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), the Plan is required to identify potential uncertain tax positions taken, assess and quantify those positions and record reserves. As of December 31, 2017 and 2016 and for the years then ended, the Plan has identified no uncertain tax positions. The Plan files the United States Federal Form 5500 annually.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Subsequent Events

The Plan has evaluated subsequent events through August 14, 2018, the date the financial statements were available to be issued.

NOTE 3 – SUMMARY OF FINANCIAL DATA CERTIFIED BY TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements, which was prepared by Fidelity Management Trust Company ("Fidelity" or "Trustee"), as of and for the years ended December 31, 2017 and 2016 and furnished to the Plan administrator.

OECONNECTION 401(K) PLAN

NOTE 4 – INVESTMENTS

The Plan's investments are participant-directed accounts invested in money market funds and investments in registered investment companies held by Fidelity.

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Plan uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Registered investment companies and money market funds: Valued based on quoted prices in the active market.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – TAX STATUS OF THE PLAN

The prototype plan adopted by the Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). There have been amendments adopted since that date and Plan management believes the Plan to be operated in compliance with the applicable requirements of the IRC.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies and money market funds managed by the Trustee. The Trustee is the custodian, as defined by the Plan document, and therefore, these transactions are party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$18,629 and \$18,446 for the years ended December 31, 2017 and 2016, respectively. There are also indirect fees deducted directly from investment earnings of the Plan.

NOTE 4 – INVESTMENTS

The Plan's investments are participant-directed accounts invested in money market funds and investments in registered investment companies held by Fidelity.

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Plan uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Registered investment companies and money market funds: Valued based on quoted prices in the active market.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
