C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters
As discussed in Note 6, the financial statements include investments representing a significant concentration of plan assets as of December 31, 2017 and 2016, whose fair values have been estimated by management in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

As discussed in Note 9 to the financial statements, as of April 2018 the Company sold their retail pharmacy locations resulting in a partial plan termination.

Our opinion has not been modified with respect to these matters.

Other Matter—Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2017 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: C.R. Pharmacy Service, Inc. and its subsidiaries, C.R. IV Service, Inc. and CarePro Integrative Health Clinic, Inc. (collectively the Company) established the Plan effective January 15, 2004. The Plan operates as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975 (e)(7) and the regulations there under the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by C.R. Pharmacy Service, Inc. with oversight from the Plan's trustees. The stock certificates are held by an independent third party.

The Plan purchased 453,773.417 shares of the Company's common shares using the proceeds of notes payable to the Company and its eight former stockholders. The notes are scheduled to be repaid over a period of 20 to 30 years by fully deductible Company contributions to the Trust and dividends paid on the Company's common shares. As the Plan makes each payment, an appropriate percentage of stock will be allocated to eligible employee's accounts in accordance with applicable regulations under the IRC.

The unallocated shares of Company stock collateralize the borrowings. The lenders have no rights against the shares once they are allocated under the ESOP. Accordingly, the accompanying financial statements presented separately the assets and liabilities and changes therein pertaining to a) the accounts of employees with rights in allocated stock (allocated) and b) stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt service is actually paid in cash.

Eligibility: Employees of the Company who are age 21 and over are eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during the Plan year. Only employees who are actively employed on the last day of the Plan year are eligible to share in the discretionary Company contribution, as well as those employees whose termination prior to year-end was due to retirement, death or disability.

Contributions: Company contributions are discretionary; however, each year the Company must contribute, at a minimum, an amount at least equal to the principal and interest payments on the notes payable.

Distributions: No distributions from the Plan will be made until a participant retires, dies or otherwise terminates employment with the Company (except for diversifications). Distributions will be in a lump sum or installments over a certain period. The period over which such installment payments is to be made shall not extend beyond the earlier of the participant's life expectancy or five years. Plan provisions provide to pay out all vested account balances under $1,000 for terminated participants even when a distribution election form is not completed.

Distributions of a participant's benefit may be made in cash or Company stock, except as restricted in the Company charter/by-laws or by the administrator. The Company's charter/by-laws restrict the ownership of Company stock to participants or a qualified pension, profit sharing or stock bonus trust. Because the Company is an S corporation, the administrator may distribute a participant's account entirely in cash without granting the participant the right to demand distribution in shares of Company stock or may subject a distribution in shares of Company stock to an immediate, mandated put to the Company or ESOP.

Note 1. Plan Description (Continued)

Voting rights: The Trustee shall vote all Company stock held by it as part of the Plan assets. Provided, however, that if any agreement entered into by the Trust provides for voting of any shares of Company stock pledged as security for any obligation of the Plan, then such shares of Company stock shall be voted in accordance with such agreement. If the Trustee does not timely receive voting directions from a participant or beneficiary with respect to any Company stock allocated to that participant's or beneficiary's Company stock account, the Trustee shall vote such Company stock. Each participant is entitled to direct the Trustee as to the manner in which voting rights on shares of Company stock, which are allocated to his or her account, are to be exercised with respect to any corporate matter, which involves the voting of such shares.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Company contributions are allocated to each participant's account based upon the relation of the participant's compensation to total eligible compensation for the Plan year.

As of each valuation date, before allocation of Company contributions for the entire Plan year and after allocation of forfeitures, if any, earnings or losses (net appreciation or depreciation) of the Trust fund are allocated to each participant's account in the same proportion that the participant's nonsegregated accounts (other that each participant's Company stock account) bears to the total of all participants' nonsegregated accounts (other than each participant's Company stock account) as of such date.

Company stock acquired by the Plan with the proceeds of an exempt loan shall only be allocated to each participant's Company stock account upon release from the unallocated Company stock suspense account. Dividends or "S Corporation distributions" received with respect to shares in the unallocated Company stock suspense account shall be allocated to each participant based upon the proportion that each participant's compensation for the Plan year bears to the total of all participants' compensation for the Plan year. Such dividend or other income may, at the discretion of the Company, be used to repay an exempt loan.

Vesting: Benefits are fully vested if a participant terminates under normal retirement, death or disability. If a participant's employment with the Company ends for any other reason, the account will vest 20 percent after the second year of qualifying service, and vesting will increase at the rate of 20 percent per year thereafter until fully vested after six years of qualifying service.

Put option: Under federal income tax regulation, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments, which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account if it exceeds $500. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify will receive a cash distribution or have the ability to rollover funds into a qualified defined contribution plan maintained by the Company.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures may be made available to reinstate previously forfeited account balances of former participants, if any, or may be used to satisfy any required contribution due or may be used to pay Plan administrative expenses. Any remaining forfeitures shall be allocated each year among the participants in the same proportion that each participant's eligible compensation for the year bears to the total eligible compensation of all participants for the year. Forfeitures allocated to participants totaled $49,215 and $29,255 during the years ended December 31, 2017 and 2016, respectively.

Note 2. Significant Accounting Policies

Basis of accounting: The financial records of the Plan are maintained on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The fair value of the Company stock is subject to significant estimates and the change in value may be material.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold (if any) as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Concentration: All of the Plan's investments are in the stock of the Company. The primary liquidity to the Plan comes from the Company's repurchase of stock or additional cash contributions.

Risks and uncertainties: The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Administrative expenses: Most administrative expenses are paid by the Company. The Plan incurred and paid expenses of $139 and $98 for the years ended December 31, 2017 and 2016, respectively.

Note 3. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Trustee would pay all liabilities and expenses of the ESOP and sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loans. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 4. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 2, the Company pays most plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 5. Tax Status

The Plan is a noncontributory defined contribution employee benefit plan. The Plan has received a favorable determination letter from the Internal Revenue Service for its qualified status dated December 19, 2016. The Plan Administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken a significant uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Investments

The Plan's investment in the Company's common stock as of December 31, 2017 and 2016 is summarized as follows:

	2017		2016	
	Allocated	Unallocated	Allocated	Unallocated
C.R. Pharmacy Service, Inc. common stock:				
Number of shares	252,788	200,985	238,054	215,719
Cost	$ 3,414,905	$ 2,715,095	$ 3,215,864	$ 2,914,136
Market value	$ 4,729,667	$ 3,760,434	$ 3,656,527	$ 3,313,433

The estimated fair value per share was $18.71 and $15.36 as of December 31, 2017 and 2016, respectively.

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common stock of C.R. Pharmacy Service, Inc.: Valued based on an appraisal performed by an independent appraisal company based on a going-concern basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
C.R. Pharmacy Service, Inc. Class A common stock	$ -	$ -	$ 8,490,101	$ 8,490,101

	2016			
	Level 1	Level 2	Level 3	Total
C.R. Pharmacy Service, Inc. Class A common stock	$ -	$ -	$ 6,969,960	$ 6,969,960

Note 7. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2017 and 2016:

	Common Stock
Balance as of December 31, 2015	$ 9,447,563
Unrealized (loss) on investment	(2,477,603)
Balance as of December 31, 2016	6,969,960
Unrealized gain on investment	1,520,141
Balance as of December 31, 2017	$ 8,490,101

The following table presents the Plan's Level 3 financial instrument, the valuation techniques used to measure the fair value, and the significant unobservable inputs used to value the financial instrument:

Instrument	Fair Value at December 31 2017	Fair Value at December 31 2016	Valuation Techniques	Unobservable Inputs
Common Stock, C.R. Pharmacy Service, Inc.	$ 8,490,101	$ 6,969,960	Discounted cash flow method (income approach)	Projected debt free cash flows Discount rate Weighted average cost of capital and terminal Discount for lack of marketability

The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon an income valuation technique consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets and return on equity. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the plan trustees' selection of an independent appraiser under a written annual contract. Company management accumulates the data for the appraiser from the financial statements of the Company and prepares the models for future growth or profitability expectations. The appraiser prepares a preliminary report which Company management, along with the ESOP fiduciary, reviews in detail, discusses, modifies, if appropriate and ultimately, approves. The results of this process are documented in the minutes of the Plan fiduciary.

Note 8. Notes Payable

The Plan has a note payable to the Company with a balance of $813,079 and $826,276 at December 31, 2017 and 2016, respectively. The note is due in annual installments through 2023. The Plan prepaid a portion of the principal and made interest only payments through 2016, with regularly scheduled principal and interest payments starting in 2017. Interest on the note is subject to adjustment every five years based on the prime interest rate plus 1.50 percent. The effective interest rate at December 31, 2017 was 4.75 percent. Unallocated shares of Company stock collateralize the note. Interest payable related to the note payable totaled none and $39,248 as of December 31, 2017 and 2016, respectively.

The Plan also has notes payable with former stockholders of the Company with a combined balance of $2,676,769 and $2,799,651 at December 31, 2017 and 2016, respectively. The notes are due in quarterly installments totaling $66,867 through 2033. Interest on the notes is subject to adjustment every five years based on the prime interest rate plus 2 percent. The effective interest rate at December 31, 2017 is 5.25 percent. Unallocated shares of Company stock collateralize the notes.

Aggregate maturities of these notes at December 31, 2017 are as follows:

Years ending:	
2018	$ 158,682
2019	166,451
2020	219,543
2021	276,630
2022	290,606
Thereafter	2,377,936
	$ 3,489,848

Note 9. Subsequent Events

The Plan Administrator has evaluated subsequent events through August 17, 2018, the date the financial statements were available to be issued.

Subsequent to December 31, 2017, the Company sold their retail pharmacy locations. This sale resulted in approximately 34 percent of participating employees being terminated and a partial plan termination. All existing participants became fully vested in their accounts if they were terminated as a result of this sale.

Subsequent to December 31, 2017, the Plan was amended to increase the mandatory pay out of vested accounts to those balances under $5,000 for terminated participants.

C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters
As discussed in Note 6, the financial statements include investments representing a significant concentration of plan assets as of December 31, 2017 and 2016, whose fair values have been estimated by management in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

As discussed in Note 9 to the financial statements, as of April 2018 the Company sold their retail pharmacy locations resulting in a partial plan termination.

Our opinion has not been modified with respect to these matters.

Other Matter—Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2017 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the C.R. Pharmacy Service, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: C.R. Pharmacy Service, Inc. and its subsidiaries, C.R. IV Service, Inc. and CarePro Integrative Health Clinic, Inc. (collectively the Company) established the Plan effective January 15, 2004. The Plan operates as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975 (e)(7) and the regulations there under the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by C.R. Pharmacy Service, Inc. with oversight from the Plan's trustees. The stock certificates are held by an independent third party.

The Plan purchased 453,773.417 shares of the Company's common shares using the proceeds of notes payable to the Company and its eight former stockholders. The notes are scheduled to be repaid over a period of 20 to 30 years by fully deductible Company contributions to the Trust and dividends paid on the Company's common shares. As the Plan makes each payment, an appropriate percentage of stock will be allocated to eligible employee's accounts in accordance with applicable regulations under the IRC.

The unallocated shares of Company stock collateralize the borrowings. The lenders have no rights against the shares once they are allocated under the ESOP. Accordingly, the accompanying financial statements presented separately the assets and liabilities and changes therein pertaining to a) the accounts of employees with rights in allocated stock (allocated) and b) stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt service is actually paid in cash.

Eligibility: Employees of the Company who are age 21 and over are eligible to participate in the Plan after one year of service, providing they worked at least 1,000 hours during the Plan year. Only employees who are actively employed on the last day of the Plan year are eligible to share in the discretionary Company contribution, as well as those employees whose termination prior to year-end was due to retirement, death or disability.

Contributions: Company contributions are discretionary; however, each year the Company must contribute, at a minimum, an amount at least equal to the principal and interest payments on the notes payable.

Distributions: No distributions from the Plan will be made until a participant retires, dies or otherwise terminates employment with the Company (except for diversifications). Distributions will be in a lump sum or installments over a certain period. The period over which such installment payments is to be made shall not extend beyond the earlier of the participant's life expectancy or five years. Plan provisions provide to pay out all vested account balances under $1,000 for terminated participants even when a distribution election form is not completed.

Distributions of a participant's benefit may be made in cash or Company stock, except as restricted in the Company charter/by-laws or by the administrator. The Company's charter/by-laws restrict the ownership of Company stock to participants or a qualified pension, profit sharing or stock bonus trust. Because the Company is an S corporation, the administrator may distribute a participant's account entirely in cash without granting the participant the right to demand distribution in shares of Company stock or may subject a distribution in shares of Company stock to an immediate, mandated put to the Company or ESOP.

Note 1. Plan Description (Continued)

Voting rights: The Trustee shall vote all Company stock held by it as part of the Plan assets. Provided, however, that if any agreement entered into by the Trust provides for voting of any shares of Company stock pledged as security for any obligation of the Plan, then such shares of Company stock shall be voted in accordance with such agreement. If the Trustee does not timely receive voting directions from a participant or beneficiary with respect to any Company stock allocated to that participant's or beneficiary's Company stock account, the Trustee shall vote such Company stock. Each participant is entitled to direct the Trustee as to the manner in which voting rights on shares of Company stock, which are allocated to his or her account, are to be exercised with respect to any corporate matter, which involves the voting of such shares.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Company contributions are allocated to each participant's account based upon the relation of the participant's compensation to total eligible compensation for the Plan year.

As of each valuation date, before allocation of Company contributions for the entire Plan year and after allocation of forfeitures, if any, earnings or losses (net appreciation or depreciation) of the Trust fund are allocated to each participant's account in the same proportion that the participant's nonsegregated accounts (other that each participant's Company stock account) bears to the total of all participants' nonsegregated accounts (other than each participant's Company stock account) as of such date.

Company stock acquired by the Plan with the proceeds of an exempt loan shall only be allocated to each participant's Company stock account upon release from the unallocated Company stock suspense account. Dividends or "S Corporation distributions" received with respect to shares in the unallocated Company stock suspense account shall be allocated to each participant based upon the proportion that each participant's compensation for the Plan year bears to the total of all participants' compensation for the Plan year. Such dividend or other income may, at the discretion of the Company, be used to repay an exempt loan.

Vesting: Benefits are fully vested if a participant terminates under normal retirement, death or disability. If a participant's employment with the Company ends for any other reason, the account will vest 20 percent after the second year of qualifying service, and vesting will increase at the rate of 20 percent per year thereafter until fully vested after six years of qualifying service.

Put option: Under federal income tax regulation, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments, which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account if it exceeds $500. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify will receive a cash distribution or have the ability to rollover funds into a qualified defined contribution plan maintained by the Company.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures may be made available to reinstate previously forfeited account balances of former participants, if any, or may be used to satisfy any required contribution due or may be used to pay Plan administrative expenses. Any remaining forfeitures shall be allocated each year among the participants in the same proportion that each participant's eligible compensation for the year bears to the total eligible compensation of all participants for the year. Forfeitures allocated to participants totaled $49,215 and $29,255 during the years ended December 31, 2017 and 2016, respectively.

Note 2. Significant Accounting Policies

Basis of accounting: The financial records of the Plan are maintained on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The fair value of the Company stock is subject to significant estimates and the change in value may be material.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold (if any) as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Concentration: All of the Plan's investments are in the stock of the Company. The primary liquidity to the Plan comes from the Company's repurchase of stock or additional cash contributions.

Risks and uncertainties: The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Administrative expenses: Most administrative expenses are paid by the Company. The Plan incurred and paid expenses of $139 and $98 for the years ended December 31, 2017 and 2016, respectively.

Note 3. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Trustee would pay all liabilities and expenses of the ESOP and sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loans. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 4. Related-Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 2, the Company pays most plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 5. Tax Status

The Plan is a noncontributory defined contribution employee benefit plan. The Plan has received a favorable determination letter from the Internal Revenue Service for its qualified status dated December 19, 2016. The Plan Administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken a significant uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Investments

The Plan's investment in the Company's common stock as of December 31, 2017 and 2016 is summarized as follows:

	2017		2016	
	Allocated	Unallocated	Allocated	Unallocated
C.R. Pharmacy Service, Inc. common stock:				
Number of shares	252,788	200,985	238,054	215,719
Cost	$ 3,414,905	$ 2,715,095	$ 3,215,864	$ 2,914,136
Market value	$ 4,729,667	$ 3,760,434	$ 3,656,527	$ 3,313,433

The estimated fair value per share was $18.71 and $15.36 as of December 31, 2017 and 2016, respectively.

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common stock of C.R. Pharmacy Service, Inc.: Valued based on an appraisal performed by an independent appraisal company based on a going-concern basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
C.R. Pharmacy Service, Inc. Class A common stock	$ -	$ -	$ 8,490,101	$ 8,490,101

	2016			
	Level 1	Level 2	Level 3	Total
C.R. Pharmacy Service, Inc. Class A common stock	$ -	$ -	$ 6,969,960	$ 6,969,960

Note 7. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2017 and 2016:

	Common Stock
Balance as of December 31, 2015	$ 9,447,563
Unrealized (loss) on investment	(2,477,603)
Balance as of December 31, 2016	6,969,960
Unrealized gain on investment	1,520,141
Balance as of December 31, 2017	$ 8,490,101

The following table presents the Plan's Level 3 financial instrument, the valuation techniques used to measure the fair value, and the significant unobservable inputs used to value the financial instrument:

Instrument	Fair Value at December 31 2017	Fair Value at December 31 2016	Valuation Techniques	Unobservable Inputs
Common Stock, C.R. Pharmacy Service, Inc.	$ 8,490,101	$ 6,969,960	Discounted cash flow method (income approach)	Projected debt free cash flows Discount rate Weighted average cost of capital and terminal Discount for lack of marketability

The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon an income valuation technique consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets and return on equity. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the plan trustees' selection of an independent appraiser under a written annual contract. Company management accumulates the data for the appraiser from the financial statements of the Company and prepares the models for future growth or profitability expectations. The appraiser prepares a preliminary report which Company management, along with the ESOP fiduciary, reviews in detail, discusses, modifies, if appropriate and ultimately, approves. The results of this process are documented in the minutes of the Plan fiduciary.

Note 8. Notes Payable

The Plan has a note payable to the Company with a balance of $813,079 and $826,276 at December 31, 2017 and 2016, respectively. The note is due in annual installments through 2023. The Plan prepaid a portion of the principal and made interest only payments through 2016, with regularly scheduled principal and interest payments starting in 2017. Interest on the note is subject to adjustment every five years based on the prime interest rate plus 1.50 percent. The effective interest rate at December 31, 2017 was 4.75 percent. Unallocated shares of Company stock collateralize the note. Interest payable related to the note payable totaled none and $39,248 as of December 31, 2017 and 2016, respectively.

The Plan also has notes payable with former stockholders of the Company with a combined balance of $2,676,769 and $2,799,651 at December 31, 2017 and 2016, respectively. The notes are due in quarterly installments totaling $66,867 through 2033. Interest on the notes is subject to adjustment every five years based on the prime interest rate plus 2 percent. The effective interest rate at December 31, 2017 is 5.25 percent. Unallocated shares of Company stock collateralize the notes.

Aggregate maturities of these notes at December 31, 2017 are as follows:

Years ending:	
2018	$ 158,682
2019	166,451
2020	219,543
2021	276,630
2022	290,606
Thereafter	2,377,936
	$ 3,489,848

Note 9. Subsequent Events

The Plan Administrator has evaluated subsequent events through August 17, 2018, the date the financial statements were available to be issued.

Subsequent to December 31, 2017, the Company sold their retail pharmacy locations. This sale resulted in approximately 34 percent of participating employees being terminated and a partial plan termination. All existing participants became fully vested in their accounts if they were terminated as a result of this sale.

Subsequent to December 31, 2017, the Plan was amended to increase the mandatory pay out of vested accounts to those balances under $5,000 for terminated participants.
